Buying guide

Beds

A good day always starts with a good night
Feeling your best when you wake up starts with the right bed. In this buying guide, you will find all our beds, including bed frames with and without storage, day beds, guest beds, loft beds, bunk beds and divan beds. You will also get an overview of our bed accessories, such as headboards and bed storage boxes.

Of course, a bed is not complete without a mattress and bedding. You can test and find the best mattress for you in the mattress studio. The textiles department has a wide range of quilts, pillows and bed linen.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.com for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

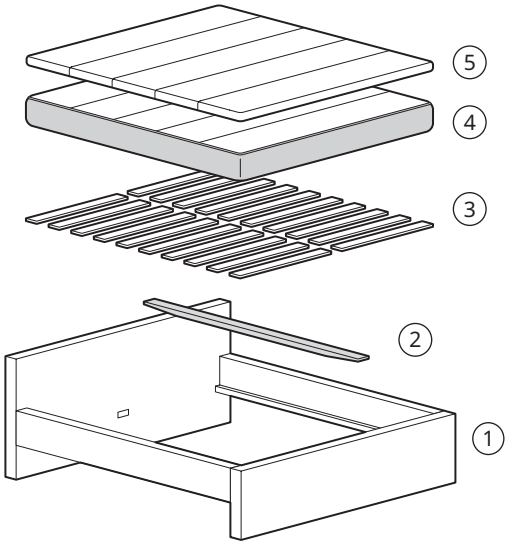
Bed frames



A complete bed frame with mattress consists of these parts:

1. Choose a bed frame and size.
2. SKORVA midbeam (901.245.34) is needed for most double beds. It is included in the price of the bed frame, but is picked up separately in the self-serve furniture area. For upholstered bed frames, the midbeam is included in both the price and packaging.
3. For most bed frames, you will also need to choose a slatted bed base, see more on page 07. For upholstered bed frames, the slatted bed base is included in the price and packaging.
4. Choose a mattress or use the one you have at home. You can find the best one for you in the mattress studio.
5. Add a mattress topper of your choice for a softer sleeping surface.

Bunk beds and loft beds

Suitable for children from 6 years of age

Bunk beds have sleeping for two – an upper bunk and a lower bunk. Loft beds provide sleeping for one, with space underneath for storage, play or study.
Only children over age 6 should sleep in the top bunk. The top bed has a solid guardrail at a good height for the safety of the top sleeper. Minimal gaps in the rail ensure that the child cannot fall out. But the guardrail loses its function if the mattress is too high up in the bed to make the guardrail protective. So use a mattress that is the right thickness for a loft bed or top bunk. Complete the loft bed with a mattress in a matching size and the bunk bed with 2 mattresses, 90×200 cm. Slatted bed base is included and SKORVA mid beam is not needed for loft and bunk beds.

Loft beds
