

# Surfaces

## Teflon® Professional

Our most hard-wearing non-stick coating, made for those of you who set high standards and who cook often. If correctly looked after, this cookware will last for many years. Used in our FAVORIT and STIL series.

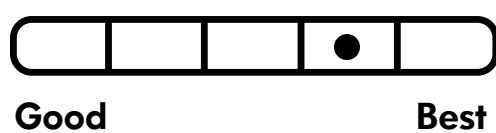

### Coating durability

## Teflon® Platinum Plus

A very hard-wearing non-stick coating for those of you who use non-stick pans daily, all year round. Used in our IKEA 365+ and MEDALJ series.

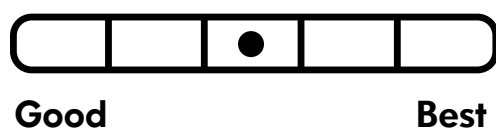

### Coating durability

## Teflon® Select

A hard-wearing non-stick coating for those of you who use non-stick pans several times a week. Used in our SKÄNKKA series.

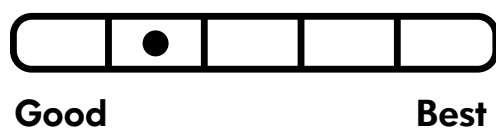

### Coating durability

## Teflon® Classic

A good non-stick coating for those of you who use non-stick pans a few times a week. Used in our KAVALKAD series and GRILLA grill pan.

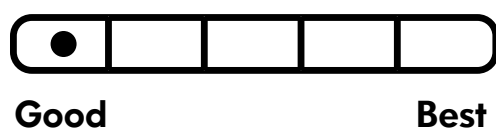

### Coating durability

## Non-stick

A non-stick coating for those of you who do not prioritise durability and who use non-stick pans occasionally. Used in our PYRA wok and STEKA frying pan.

### Coating durability

## Enamelled cast iron

Cast iron is very durable and strong. Cast iron cookware with an enamelled surface is easy to use and clean. Used in our FAVORIT and SENIOR series.
