

## Start planning

Use our kitchen planner to design and furnish your kitchen in 3D. It's free of charge and available at your IKEA store or can be accessed at [www.IKEA.com.au/kitchenplanner](http://www.IKEA.com.au/kitchenplanner). You can save all your ideas and designs on our server and access them all in store.

## Review your plan

Want peace of mind before purchasing your kitchen?

We can come to your home, re-measure the area in which you intend to install your kitchen, and compare the measurements to your completed IKEA Kitchen Planning file to make sure your kitchen will fit the way you want it to.

Should there be any design or compliance issues found, we will make written suggestions as to how you could change your plan to make it work best for you.

## Plan Review Service \$199

## Additional services

Kitchen installation projects often require the planning and scheduling of various product and service providers. Licensed electricians and plumbers will be required to disconnect/reconnect services.

A wide range of additional services are available, including:

- demolition and removal of your existing kitchen
- plumbing
- electrical
- flooring and tiling.

Talk to our service provider who can manage these for you.

For a complete price list of additional services and trade coordination, see [www.ikea.com.au/services](http://www.ikea.com.au/services) or visit your IKEA store for details.

## Non-metro customers

Prices for all kitchen installation services apply to customers living within 40km of the nearest IKEA store. Should you live further away, a trip charge of \$2.00 per km, per trade day will apply.
