Customise your leather sofa

SMÖGEN seating series consists of different units that you can easily combine into a comfortable and personal combination. If you should change your mind later, or need a different sofa, you can combine the units in a new way – or complement with more. Naturally you can also use each unit individually. But SMÖGEN is not only unusually flexible; it's also unusually comfortable, with soft, grain leather and cosy cushions. A footstool increases your comfort even more – and you get extra storage into the bargain.

Three steps to comfort

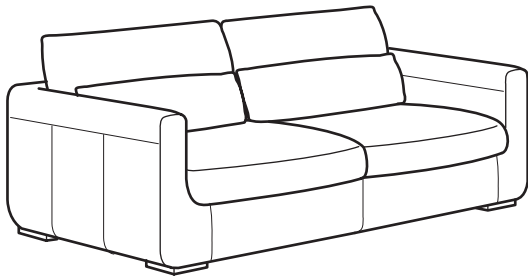

The SMÖGEN seating series is low, deep and comfortable. The sofa is built in three steps to give you a good, lasting balance between support and resiliency. One – elastic bands in the frame, two – highly resilient polyurethane foam in the seat cushions, three – a layer of polyester fibre. Add to that, extra lumbar pillows that provide comfortable support for your back. And the result is that you can be sure you will sit comfortably – for long periods too!

All the products (shown here) may not be available at the store. Please contact the staff or look at www.ikea.co.uk for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

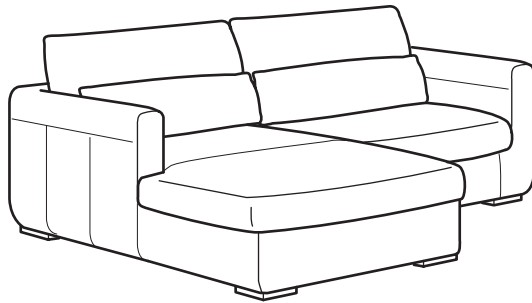

COMBINATIONS

Simple and comfortable. Two 1.5 seating units with armrests become a classic and easy to place sofa. Complement with a footstool and put it either in front of the sofa, like a chaise-longue, or between two units. **This combination £1000**

Place to put things in the corner. A footstool placed in a corner between two 1.5 seating units is a solution that's both comfortable and practical. Rest your feet on the footstool or use it as a side table. **This combination £1329**

Stretch out. A 1.5 seating unit and a chaise-longue with armrest together form a generous and comfortable sofa. There's plenty of room to sit and you can also stretch out fully. **This combination £1099**
