

BESTÅ/FRAMSTÅ/INREDA

GOOD TO KNOW

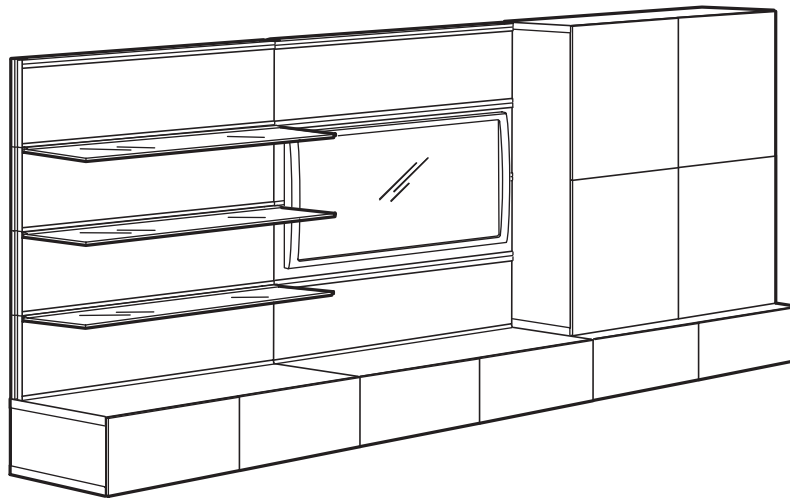

Tempered glass should be handled with care! A damaged edge or a scratched surface can cause the glass to break suddenly. However, only into small pieces, never into sharp fragments.

SAFETY

This furniture must be fixed to the wall with the enclosed wall fastener.

Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included).

Measure the depth and width of your TV-set. The measurements should be less than those of the TV furniture.

Combine for the perfect solution

Is your living room large, small, narrow or square? Do you have lots of DVDs and CDs to store or just a few special things you really like and want to show, perhaps behind a glass door? And how do you want your TV – standing on a bench or hanging on the wall? Regardless of what your home is like and what your preferences are, you can create the perfect solution by combining BESTÅ storage system, FRAMSTÅ panel system and INREDA interior fittings.

Focus on the TV

With the help of BESTÅ storage system and FRAMSTÅ panel system you can find a solution that perfectly suits your TV, the room it's in – and your taste. You can choose to put the TV on a bench with large drawers and room for video games and DVDs. Or complement the bench with a panel to hang your TV on, use the panel alone or place your TV in a complete storage combination with sliding doors and plenty of storage and there are many other possibilities too, of course.

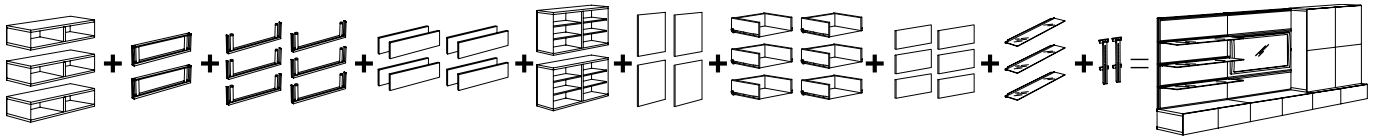

Read more in the guarantee brochure.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.ikea.co.uk for more information. For more detailed product information, see the price-tag and the Internet. All units require assembly.

Design and Quality
IKEA of Sweden

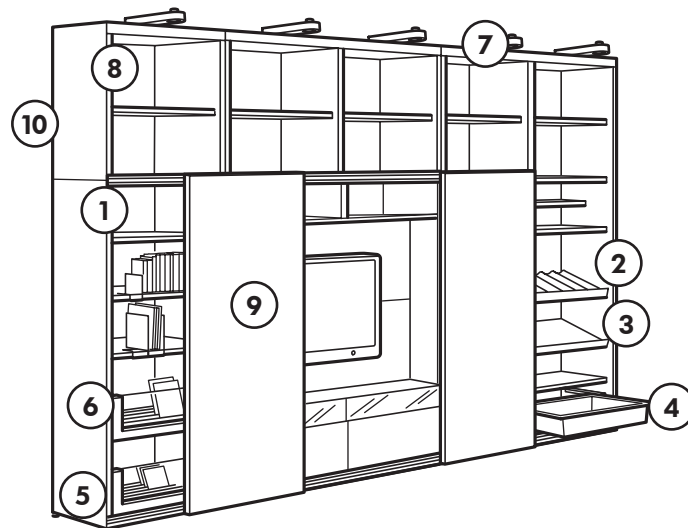

HOW TO BUILD

You can combine the BESTÅ system any way you like and customise a storage and TV solution to suit your needs. Complement with FRAMSTÅ panel system, specially designed to be used with BESTÅ, and it will be easy to hang up a flat screen TV or FRAMSTÅ glass shelves.

You can have open or closed storage in your combination – or both. With boxes and interior fittings from the INREDA series you get full control over your things. With handles, knobs and lighting from our range, your solution will be complete.

GOOD TO KNOW

1. We all have different needs and interests. That's what the INREDA series is all about. It consists of interior fittings that are customised for the BESTÅ storage system and help you organise the storage solution in your living room, exactly as you want it. There are CD and DVD racks, bookends with labels, a magazine shelf with a raised front edge and much more. Only you can decide what parts best suit you and your things.

2. The high retaining edge on the wine rack allows you to place the bottles with the cork downwards to prevent it from drying.

3. The bent front edge keeps newspapers and magazines in place on the magazine shelf.

4. INREDA tray is easy to take out for full overview of the content and can also be used as a serving tray.

5. INREDA CD rack makes maximum use of drawer space; holds 95 CDs.

6. INREDA DVD rack can be used to store 36 DVDs horizontally or 54 DVDs vertically.

7. INREDA cabinet lighting provides a focused light, which is good for lighting up smaller areas.

8. Adding a shelf unit/height extension unit makes maximal use of the wall space.

9. Sliding doors allow you to have both open and closed storage; hide or display your things according to your needs.

10. Not all walls are the same. BESTÅ suspension rail has been designed to work as reinforcement when you want to fix your storage combination to the wall. And if you have chosen a big combination you can just connect two or more rails together.

COMBINATIONS

With BESTÅ BOÅS TV storage unit you can hang a flat screen TV directly on the reinforced panel and hide the cables behind it. This way, you can avoid putting screws in the wall. If you combine the TV storage unit with BESTÅ shelving unit, you can even hide the TV behind sliding doors.

Overall size: 240x128 cm

This combination 898.621.42: £316

BESTÅ shelf unit 60x40x128 cm	101.021.35	2 pcs
