HOW TO BUILD

1. First think about what and how much you need to store – for example, clothes, shoes, bed-linen etc.
2. Then combine the different frames, doors, drawer units and shelves that you need to take for all your storage requirements. You can choose a sleek, flush surface or decorate the doors with the trim strips included.

3. Choose the interior fittings you need – wire baskets and clothes rails etc. – from the KOMPLEMENT range.
4. Select suitable lighting. Good lighting adds an extra sparkle to your wardrobe at the same time as it makes it easier to find exactly what you're looking for.
