

CAFÉ

DESIGN:

HUGO series: Lisa Norinder.

CARE & CLEANING:

All table tops in melamine have a heat and scratch-resistant surface that is easy to clean. Wipe clean with a damp cloth and mild detergent solution. Wipe dry with a clean cloth.

Do you want to sit to enjoy a bite to eat or stand to drink an espresso? With BILLSTA table tops and underframes you create just the table you want for your café or lunchroom. Small or large. Square or round. High or low. All have rounded edges, so there's nothing sharp to bump into and the rounded edges make them easier to clean, too. The table tops are both heat and scratch-resistant. If you choose a table at bar height, practical hooks come with it.

All chairs, bar stools and stools in the HUGO series are stackable. Practical if you want to keep extra seating on hand. It also makes cleaning up easier, because you can stack them and free floor space. The entire series is distinguished by a soft, rounded design that makes the chairs easy to clean. The chair is also designed so you can hang your jacket or bag on the back of the chair. Complement the ordinary chair with HUGO armrests to make it even more comfortable, and you can hang the chair from the table top when it's time to clean up. Isn't that smart?
