CARE INSTRUCTION

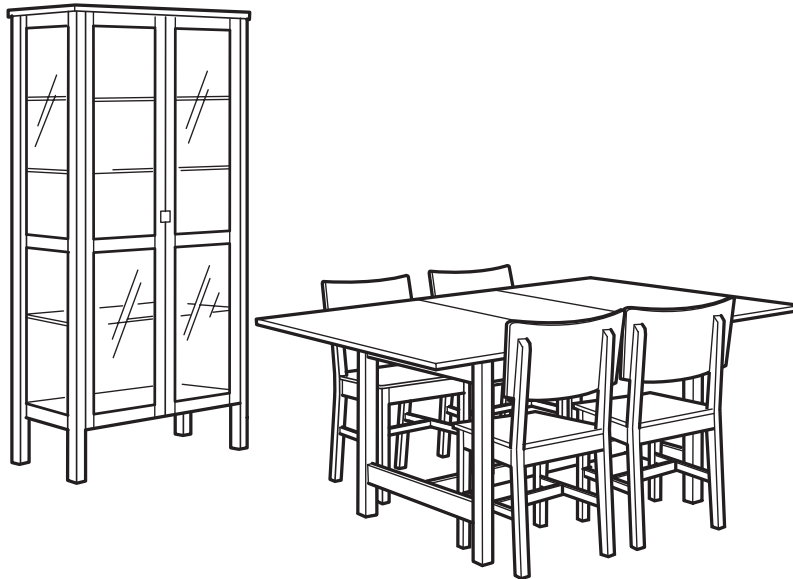

Wipe clean with a cloth dampened in a mild cleaner.

Wipe dry with a clean cloth.

Immediately after assembly, before using for the first time, the table in solid beech should be treated with oil. To retain the appearance of the wood and prevent crack formation, regular treatment with BEHANDLA wood treatment oil is recommended.

SAFETY

We recommend you fix the furniture to the wall with the enclosed safety bracket to prevent it from tipping over if a child climbs or hangs on it. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included).

Dining table with plenty of room

Eat, bake, work and play games - everyday activities all need a place. The NORDEN series consists of four sturdy dining tables with room for two to ten people. Three of the tables are also extendable, so you can quickly make more room when family and friends come to visit. The extension leaves are included and can be stored under the table top, when you don't need them. All tables are available in solid wood - a hardwearing, natural material that gets more beautiful with age.

Make it easier to set the table

Do you want your plates, glasses and cutlery close at hand? Then complement NORDEN dining table with a glass-door cabinet or sideboard from the same series. On the removable shelves in the glass-door cabinet your china becomes part of the interior decoration, and the door bumpers make the doors close softly and quietly. If you want an open solution, choose the occasional table with two generous shelves. Naturally, there are even chairs to match. Will it be a classic wooden chair or a chair with an upholstered seat?
