

UTBY

DESIGN

Mikael Warnhammar

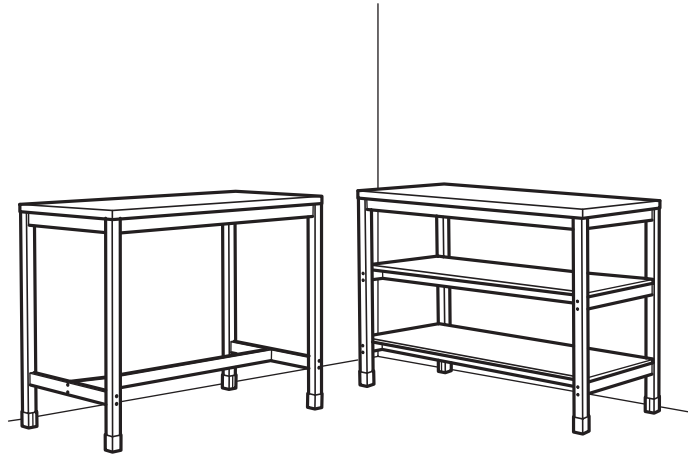

CARE

Wipe stainless steel surfaces with a sponge or cloth after use, adding a mild non-abrasive detergent. Always wipe surfaces lengthways.

SAFETY

Always fix the short legs, the kitchen island and the 120 cm under frame to the floor when using it as a kitchen island solution.

Anchor fitting for fixing to floor included. Different floor materials require different types of fixing devices. Use fixing devices that are suitable for use in the floors in your home.

The UTBY series includes a sturdy underframe in two heights, legs and a shelving unit with two fixed shelves. All components are made of hardwearing stainless steel and have adjustable legs so they stand steady - on uneven surfaces too. The series also includes a table top in lacquered brown-black stained ash veneer, and if you want a worktop to match the rest of your kitchen you can choose a made-to-measure worktop instead. They're available in many different colors and materials.

The UTBY series has everything you need to create a bar solution - exactly the way you want it. It doesn't matter if your space is large or small. You can make a bar in the middle of the room, mount it to the wall, connect it your base cabinets or have it as part of a kitchen island. You can also make a kitchen island by putting the short legs on cabinet frames from the FAKTUM series. Just remember to anchor the legs securely to the floor, so the kitchen island stands steady. The possibilities are many - the choice is yours.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.ikea.co.uk for more information. For more detailed product information, see the pricetag and the Internet. All units require assembly.

HOW TO BUILD

Do you want to use the UTBY series to create a bar solution? Then, first think about how much space you have, how many seats you need and how you want to use your bar. Then choose an underframe in the height you need.

On top you can fasten a brown-black table top or use a made-to-measure worktop. If space is limited, consider a wall-mounted worktop with a leg from the same series.

GOOD TO KNOW

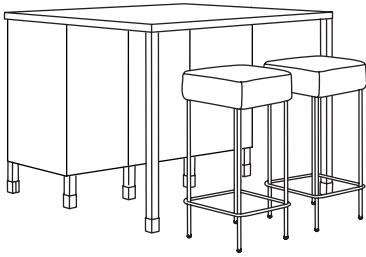

1. The UTBY series includes legs in the same height as FAKTUM base cabinets. Combine them with a made-to-measure worktop to lengthen your kitchen and make a dining area close to your cooker, plates and sink. This way, it's easy to both serve and clear the table.

2. Do you need a larger work surface with a practical storage place? Then, you can extend your kitchen with UTBY shelving unit and a matching worktop. The open shelf gives an airy impression - and allows you to reach things from two sides.

3. Put legs from the UTBY series on FAKTUM frames - and create your own kitchen island. Then anchor the legs to the floor so the kitchen island stands steady. If you want to create a lighter, airier impression, you can also put legs on other base cabinets in your kitchen.

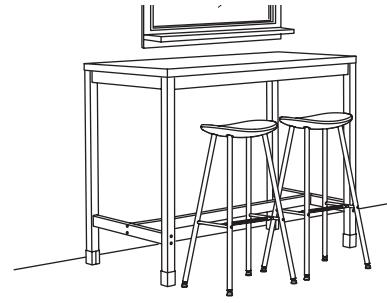

COMBINATIONS

With UTBY legs and FAKTUM frames you can create a kitchen island with both a bar and storage possibilities. On the top, mount a made-to-measure worktop to match the rest of your kitchen. Just remember to anchor the short legs to the floor, so the kitchen island stands steady.

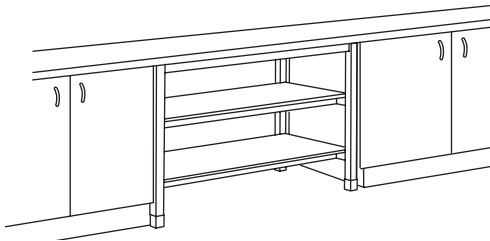

UTBY 16cm leg 2-pack £12

UTBY 90cm leg each £14

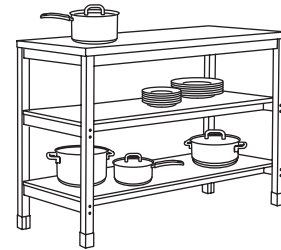

If you place the rectangular table from the UTBY range against the wall, you'll have a practical dining area that takes little space. If there's a window on the wall, you'll also have a nice view. The table is available in two heights - choose the one that suits you best and complement with comfortable barstools

UTBY frame H105cm + table top £99

If you place UTBY shelf between two FAKTUM base cabinets your kitchen will be airier and your pots easier to reach and with the help of the adjustable legs, you can set the shelf at the same height as the base cabinets so you have an even surface to work on.

UTBY shelving unit £139

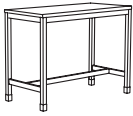

Place UTBY shelf in the middle of the kitchen and you will have a kitchen island with an extra work surface and a practical storage place that's easy to reach from every direction. Complete with a table top from the same range or with a matching made-to-measure worktop.

UTBY shelving unit and table top £163

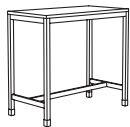

ALL PARTS AND PRICES

The underframes, shelf unit and legs in the UTBY series have adjustable legs; stands steady on uneven surfaces too. UTBY tabletops are 3.5 cm thick and come in a clear lacquered, brown-black stained ash veneer or white melamine finish.
