

LILLÅNGEN

CARE

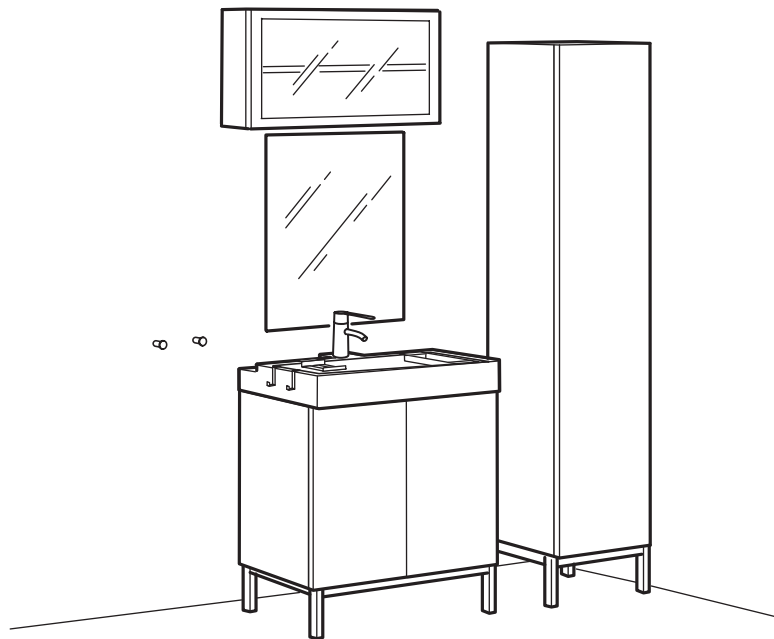

Wipe furniture clean with a cloth dampened in water or a non-abrasive detergent, then wipe dry with a clean cloth. All wet marks, should be dried off as soon as possible to stop moisture penetration.

The washbasin is resistant to most chemicals, except for strong acids and strong alkalis. Therefore never use scouring powder, steel wool or a detergent that is calcium dissolving, sour or contains alcohol or an abrasive.

Wipe clean with a cloth dampened in water or a non-abrasive detergent

SAFETY

Furniture must be fixed to the wall. Assembly and installation should be carried out by a qualified person. Secure that the walls in your bathroom can support the weight of the furniture, as wrong installation may cause injury or damage. If you are uncertain about the installation, contact a professional. As wall materials vary, screws for fixing to wall are not included. For advice on suitable screw systems, contact your local specialized dealer.

Cramped for space in the bathroom?

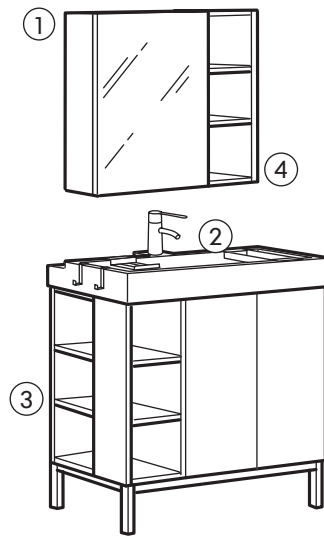

With LILLÅNGEN series you can make use of every square centimetre of your bathroom. It includes washbasins in three widths, cabinets with different functions and colours and open shelves that allow you to use every area. The washbasin also comes with matching accessories such as a soap dish, towel rack and tray. They can all be attached to the edge of the washbasin, which saves even more room. Complement with shelves and storage units from the ANORDNA series.

GOOD TO KNOW

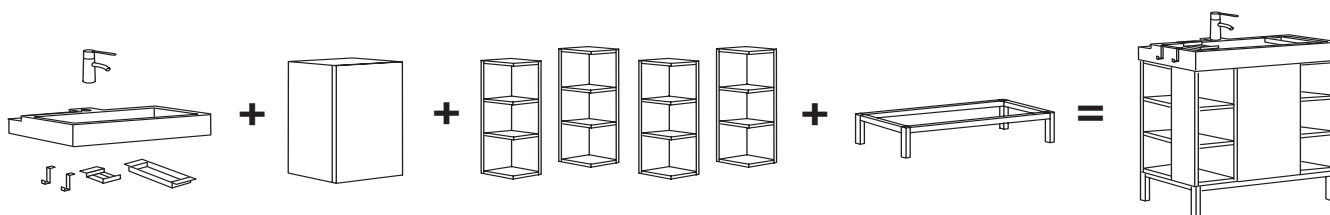

1. LILLÅNGEN - a perfect match for the small bathroom. LILLÅNGEN is available in three different widths and can be combined to fit exactly your bathroom and your need for storage.

2. The LILLÅNGEN series offers three widths of washbasin: 40 cm, 60 cm and 80 cm. The washbasin has a smart edge in the back, where you can keep your most necessary items close at hand. The washbasin also comes with matching accessories such as a soap dish, towel rack and tray.

3. LILLÅNGEN end units can be used on their own or combined with different widths of washbasin and washbasin cabinets to provide more open storage.

4. LILLÅNGEN mirror cabinets can be used on their own or combined with end units. In this way you can keep your favorite toiletries close at hand.

HOW TO BUILD

1. Horizontal space

When planning your bathroom, start by considering the horizontal space available for the washbasin, since this is the center of most activities in the bathroom. LILLÅNGEN series offers three widths of washbasin: 40 cm, 60 cm and 80 cm. Finally, once you've chosen the sink, you choose your tap based on what function and design you want.

2. Organise the space below the washbasin

When the horizontal space is set, it's time to decide what storage capacity is needed. You can mix-and-match the cabinets below the washbasin as a combination of a full cabinet to match the fitted sink or in combination with an open shelf for more accessible storage. The LILLÅNGEN series offers three widths of washstands 40, 60 and 80 cm. Choose legs that fits your solution.

3. Choose your solution above and around the washbasin

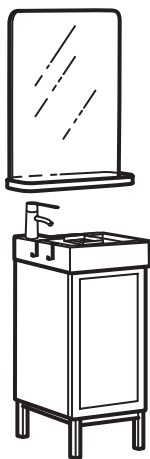

Above the washbasin you have the option of choosing a mirror cabinet on its own or in combination with one or several open end units. There are many combination possibilities and you choose based on the storage needs you have. The wall and high cabinets shelves are designed in size to fit the different sizes of sinks and washstand solutions. Perhaps you like to store towels and toilet rolls in your bathroom, then the high cabinet is a perfect solution for this.

4. Functions to complete your bathroom

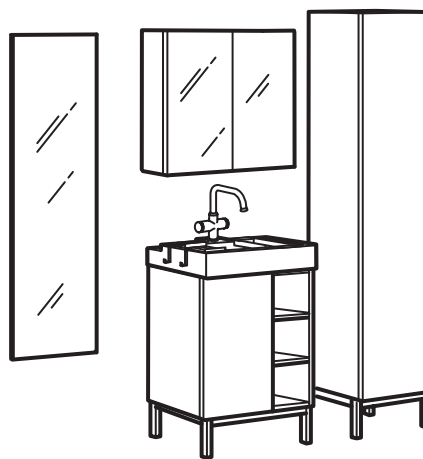

With our functional bathroom organizers you can make use of the entire space in the bathroom - making the bathroom even bigger !
