What will IKEA do to correct the problem?

IKEA will examine the product and decide if it is covered under this guarantee. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. Where a repair is the appropriate remedy, the costs e.g. repairs, spare parts, labour and travel for the IKEA repair staff or service engineers, will be covered by IKEA provided that the product is accessible for repair without special expenditure. This will not apply in cases where repair work has not been authorised by IKEA. Any defective parts removed in the course of repair works will become the property of IKEA.

If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide, at its sole discretion, what will constitute an appropriate replacement

Care instructions

Furniture

At IKEA we recommend using a soft cloth dampened with water or a non-abrasive detergent. Wipe dry with a clean cloth.

Our bathroom furniture has been specially adapted for bathrooms. However, the furniture should never be exposed to excessive water contact or extremely high humidity. All wet marks, should be dried off as soon as possible to stop moisture penetration.

You should make sure your bathroom is properly ventilated and avoid placing furniture close to the bathtub or shower.

Washbasins

For daily cleaning of the washbasins simply use a cloth dampened with water or a non-abrasive detergent.

Crushed marble

To maintain the original finish, a crushed marble washbasin should not come into contact with acids, ammonia, strong detergents, hair dye or chlorine. Scouring powder, steel wool, hard or sharp tools can scratch the surface.

Use the cleaning agent supplied to remove any small scratches or stains from the surface.

Fire clay washbasins

To maintain the original finish, the washbasin should not come into contact with strong acids like hydrochloric acid and sulphuric acid, and strong alkalis (e.g. caustic soda).

Washbasin mixer taps

For daily cleaning of the washbasin mixer taps simply use a cloth dampened with water or a non-abrasive detergent.

Do not use scouring powder, steel wool or hard or sharp tools, which can scratch the surface.

Installation

Furniture must be fixed to the wall. Ensure that the walls in your bathroom can support the weight of the furniture, as incorrect installation may cause injury or damage. If you are uncertain about the installation, contact a professional. As wall materials vary, screws for fixing to the wall are not included. For advice on suitable screws or wall fixing systems, contact your local specialized dealer.

(Please refer to the more detailed installation and care instructions, which are provided with the product.)
