Our sofas and armchairs are put to the test

At IKEA we test all our sofas and armchairs to be sure they're durable. And we're especially tough on the ones that have long guarantees. For example, we push 100 kilo weights onto the seat 50,000 times – and 30 kilo weights onto the back just as many times. We do all this to be sure the frames retain their stability and the cushions their resilience and comfort. The guarantees we give are proof that our sofas and armchairs can take being used often and for a long time – and an assurance for you as a customer.
