

# IMPORTANT NOTICE

Dear customers who purchased ANNONS cookware,

ANNONS cookware s3 stainless steel has been sold with incorrect product information regarding the lid. The lid of the ANNONS cookware s3 stainless steel is made of tempered glass that is physical reinforced and not of heat resistant glass.

We apologize for any inconvenience this may have caused.

## **Precaution in use as per Japan household goods quality labeling law**

- **Protect your ANNONS lid from sudden impact, scratches and other damages.**
- **If the lid would break be cautious about scattered small pieces of glass.**

## **What shall worried customers do?**

There is no need to worry, but as always customers can return a product that they are not satisfied with to their local IKEA store and/or contact IKEA to get more information.
