Comfortable sofa at an attractive price

KIVIK seating series is made for people who want extra comfortable seating, without it costing more than necessary. Every detail, inside and out, is adapted to give you as much comfort as possible. You can also combine the different parts in the series in different ways to suit you and your home. This way, you always have room for relaxation.

Follows your body and gives support

The seat cushions in KIVIK seating series have a layer of memory foam that softly follows the contours of your body and gives comfortable support exactly where you need it. The wide armrests have a thick padding that's nice both to rest your neck against and to sit on. If you choose to add a chaise and footstool you will have a combination you can really stretch out on. Then you can count on maximum comfort.

Choose your own combination

It's easy to adapt KIVIK seating series to suit your home and your needs. You can, for example, combine the sofas with a generous chaise for extra room and comfort. If you want a smaller combination instead, you can use a one-seat section without armrests – and either combine it with several one-seat sections or a chaise. You have every possibility to create your own personal solution!

You can quickly convert KIVIK sofa-bed into a comfortable bed for two. First, lift the latch on the front of the sofa and pull the

bed out as far as it goes. Now you can put the seat cushions in place - and make the bed.
