

The world belongs to us

Play Production

J. Fransson, T. Larsson, T. Lundgren

Don't care who you are
Or where you're coming from
Now it's time to open up your heart
There are so many children all around the world
That need a little help just to be heard

Make a choice for life
Faith is all we need
And maybe their tomorrow won't be gone
Now it's up to you and me to make a change
Change the world into a better place

The world belongs to us
We are the future
You are one of us (one of us)
Let's get together, lend a helping hand
The world belongs to us (belongs to us)

If I believe in you
And you believe in me
Together we'll grow stronger day by day
Cause now it's up to you and me to make a change
Change the world into a better place

The world belongs to us
We are the future
You are one of us (one of us)
Let's get together, lend a helping hand
The world belongs to us (belongs to us)
