**Create your own sofa**

KUNGSHAMN modular sofa makes it easy to create a sofa that suits you. All modules can be used freestanding or put together into the combination you want. You can create a new sofa by switching modules around or adding more. The tight fit of the cover and the clean lines give KUNGSHAMN a modern yet timeless look. And the Bonnell springs mean that you sit comfortably.
HOW TO BUILD

Personal sofa – step-by-step
KUNGSHAMN modular sofa consists of modules that you can use freestanding or together. Big or small, straight or with a corner, or why not an open end – you choose the sofa which you want to create. Thanks to the low weight, the modules are easy to move – while their wooden and metal frames make them stable. All KUNGSHAMN covers are also designed to fit together, providing endless possibilities to mix and match.

1-seat module
Overall size: W67×D85×H71 cm

Corner module
Overall size: W85×D85×H71 cm

Footstool module
Overall size: W67×D85×H44 cm
This is how KUNGSHAMN modular sofa can look – or why not in a completely different way. Here we show just a few examples of all the possibilities. You can quickly and easily create a new sofa combination by switching around or adding modules. If you would like to mix different covers, it’s possible! Plan your sofa in the planning tool.

- KUNGSHAMN 1-seat module 1 pc
- KUNGSHAMN corner module 2 pc
- KUNGSHAMN footstool module 2 pc
Durable in different ways
Tough tests are an important way to check the durability of our fabric covers, but they don’t tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibres. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

Our fabrics have been tested
At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they’re durable. The fabric’s ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.
