BESTÅ

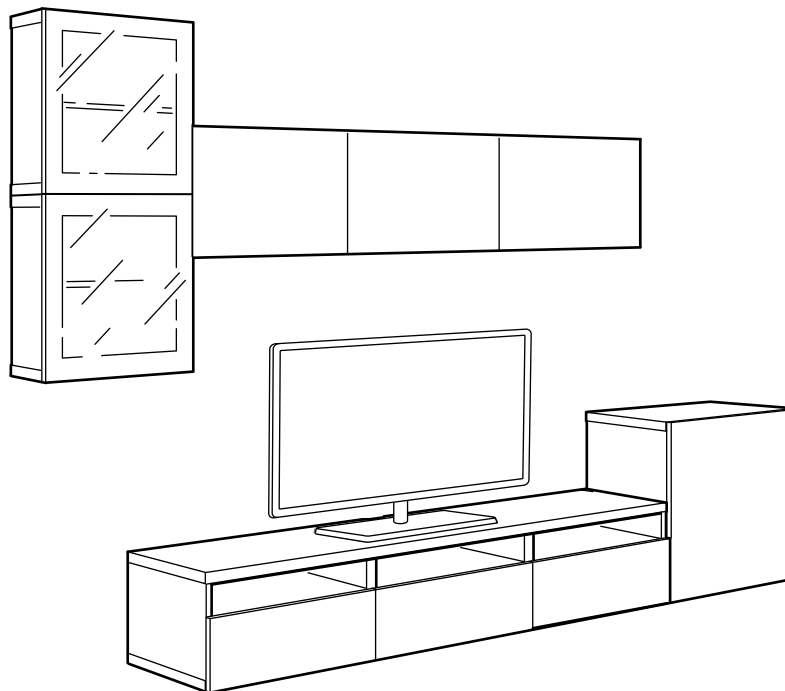

Living room storage system

Good to know

Tempered glass should be handled with care! A damaged edge or a scratched surface can cause the glass to break suddenly. Avoid bumps from the side – this is where the glass is most vulnerable.

Safety

This furniture must be fixed to the wall with the enclosed wall fastener when placed on the floor. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included).

Good-looking storage for a great-looking living room

The BESTÅ series brings modern functionality and sleek design to your living room, great for organising entertainment and decoration essentials while adding a touch of style. With lots of space for your TV, gaming consoles, dinnerware or books, this versatile series helps you maintain an organised and clutter-free environment. Whether you prefer a floor-standing or wall-mounted setup, BESTÅ offers customisable options with panel doors to conceal items or glass doors to display your favorite decorations. Discover the perfect fit for your space with a variety of choices to suit your taste and needs.

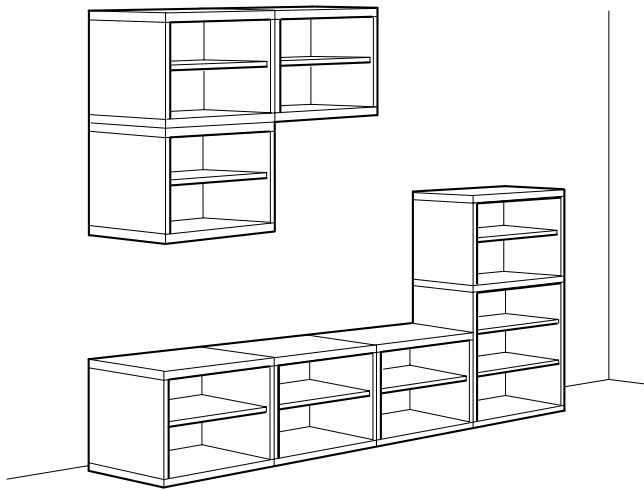

Do it yourself or let us help

Just because you can do everything yourself, doesn't mean you have to. Let us help make your BESTÅ storage solution a reality with our service offers like picking, home delivery, assembly, financing and more. Read more at www.IKEA.com/xx

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.com for more information. For more detailed product information, see the price tag or our website. All units require assembly.

Customise your own BESTÅ

The BESTÅ system is designed to be adaptable and flexible. You can select and arrange the BESTÅ parts in a way that suits your particular space, lifestyle and taste.

We have a wide range of BESTÅ combinations to choose from which you can find in the store or on our website at www.IKEA.com/xx. If you don't find a pre-designed solution that you like, you can use our BESTÅ storage planner to create the perfect solution that suits your needs and taste.

Begin by looking through the ready-made combinations on the web or in the planner gallery and choose one that inspires you. You will then have a pre-designed combination to start from that you can customise to your needs. You can, for example, change the size and the colour of the combination.

You can also use the planner to design your own unique BESTÅ combination from scratch.

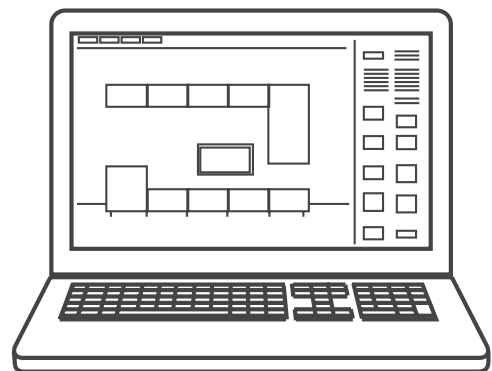

Start with thinking about the function, what will the storage be used for? Do you need doors or drawers? And how much space do you have?

Then there are a few simple steps to follow when choosing your storage solution:

1. Choose your frames to optimise your storage.
2. Pick your Style – What colour and style do you want for the fronts? We can offer a wide selection selection of fronts in different expressions and colours.
3. Personalise – Add legs, tops, handles, lighting and boxes. What will make storage beautiful and easy?

The BESTÅ planner helps you to calculate the price of your storage solution and allows you to print or save a product list that you can bring to the store or use to buy online.

The planner can be found in the living room storage area of the store or in the comfort of your own home. Just visit the living room section on the IKEA website and go to the BESTÅ storage planner: www.IKEA.com/xx

Door and drawer solutions

Combine your own solution with doors and drawer fronts. For a wider range of BESTÅ door and drawer solutions, visit the BESTÅ planning tool at www.IKEA.xx.

Always secure your BESTÅ units to the wall.

How to mount a frame on the wall

You will need a suspension rail to mount BESTÅ frames on a wall. The suspension rail works as a reinforcement and makes it both easier and safer to mount the BESTÅ frame to the wall. The rail screws into the wall studs and has many holes so there's always a hole over a stud.

You can easily hang several frames next to each other and align them at exactly the same height thanks to the included connector. Ensure that you have a minimum of 5 cm between the top of the frame and the ceiling. This is needed to be able to mount the frame to the suspension rail.

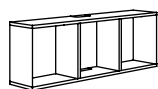

BESTÅ suspension rail, silver-colour. 60 cm wide frames require 1 BESTÅ suspension rail, 120 cm wide frames require 2 BESTÅ suspension rails. The suspension rail cannot be used with BESTÅ TV benches. BESTÅ suspension rail is included in all wall-mounted combinations.

60 cm	504.883.19
-------	------------

NOTE! The suspension rail cannot be used with BESTÅ TV benches.

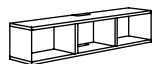

Frames for TV benches

Width×Depth×Height. Floor-standing furniture must be secured to the wall with the enclosed wall fastener. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

How to mount a TV bench on the wall

Fittings for wall mounting are included in the package. In order to hang your TV bench on the wall simply follow the assembly instructions.

Fixing devices for the wall are not included since different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home.

For advice on suitable fixing systems, contact your local specialized dealer.

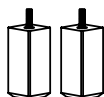

NOTE! Fittings for wall mounting are included in the package.

BESTÅ legs

BESTÅ legs raise your BESTÅ combination from the floor, giving a light, airy look and making it easy to clean the floor underneath.

How to choose integrated lighting

Start by choosing a plug-in or battery-operated light.

TVÄRDRAK/YTBERG are cabinet lights designed for placement on top of the wardrobe. This type of light helps you highlight items on top of the shelves or in open corner furniture.

Plug-in products always need to be completed with a driver. Plug-in complete solutions can also be connected to IKEA Smart lighting by using the DIRIGERA hub.

KÖLVATTEN is a battery-operated LED light strip, which is easy to install since no cables are needed. KÖLVATTEN LED light is sensor activated and should be placed inside a cabinet.

Integrated lighting – all parts and prices

BILRESA remote control white smart/dual button. With this remote control, you can manage your smart products from afar. Based on the universal standard Matter.

506.178.68

How to choose a driver

There are two different versions of drivers, with different functions; for an on/off solution you can use ANSLUTA, and TRÅDFRI for more functions.

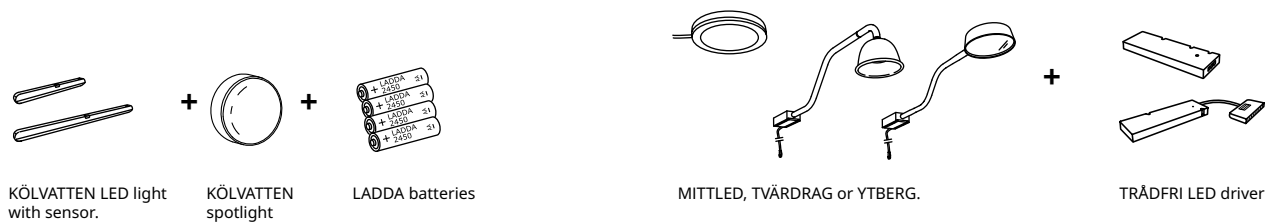

For TRÅDFRI there are 2 versions:

10W to connect a total of 3 units, if maximum wattage does not exceed 10W

30W LED to connect/ support up to 9 units, max. wattage 30W.

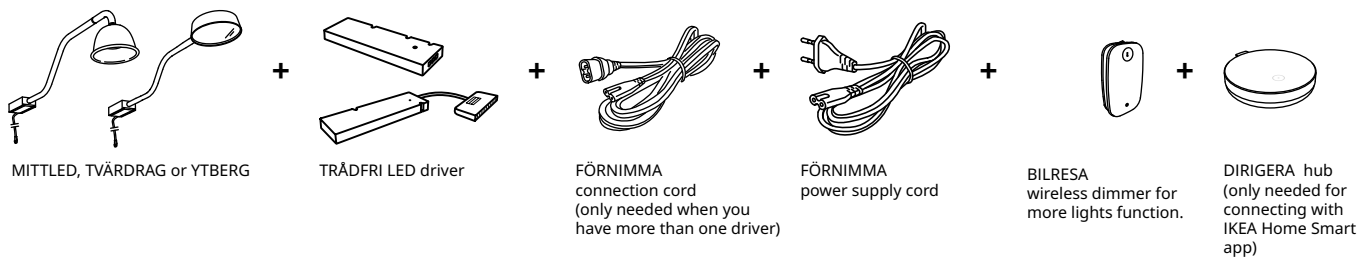

A flashing light indicates if the maximum wattage of the LED driver is exceeded.

Basic parts

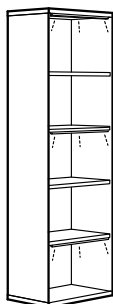

With smart control for dimming function

TRÅDFRI driver

Integrated lighting solutions – combinations

One lamp per 50 cm frame is a good rule to follow to add the right amount of light.

For closed cabinet with sensor activated light when you open the door.
