

Buying guide

IVAR

Storage solution

Care instruction

For a durable and easy care surface, treat with oil, wax, varnish, paint or stain.

Environment

Renewable material (wood).

Solid wood – not from intact natural forests.

We have clear requirements for all the wood we use, including a ban on illegally harvested wood. By 2020, we want all our wood to come from more sustainable sources, defined as certified or recycled.

The material in this product may be recyclable. Please check the recycling rules in your community and if recycling facilities exist in your area.

Safety

We recommend you to fix the furniture to the wall with the enclosed safety bracket to prevent it from tipping over if a child climbs or hangs on it. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included). For higher stability, complete every second section with a cross-brace.

Good to know

Max. load for IVAR shelves:

42 cm width
30 cm depth; 18 kg
50 cm depth; 30 kg
83 cm width
30 cm depth; 35 kg
50 cm depth; 45 kg
56 cm width
50 cm depth; 30 kg
76 cm width
50 cm depth; 50 kg

By combining parts in the IVAR storage system you can put the space you have to best use. Start by thinking about your needs and your space. Then, combine different heights and depths, make use of corners and add the finishing touch with cabinets and doors.

Tired of boxes and things scattered all over your office? With the IVAR storage system you can quickly organise all the office supplies in the stock room, paper piles in the desk area and binders in the archive. You will be surprised at how easy it is to put everything in order.

Drill into the solid wood side units and add hooks. Paint or wax the entire shelf in a colour you really like. The possibilities are many – even if the space is limited.

How to build

Start by thinking about what you want to store and the space you have available. For the first section you need two side units, shelves and a cross-brace. Extend sideways, either at the same height or a different one. For each additional section, you need

just one side unit, which you link to the storage solution with shelves or a cabinet. To ensure stability we recommend that you fit a cross-brace to every other section.
