Quality, design and smart details

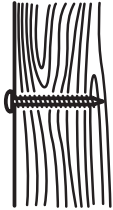

The NORDLI series is distinguished by high quality and clean, contemporary design that makes it a stylish choice for the bedroom. It has smart details, like soft-closing drawers, a bed frame with storage and the series also includes different modular chests that you can combine to perfectly suit your space. The chests offer flexible storage – not only for your bedroom but for other rooms, too – like the living room, hallway or even your business.

Modular chest of drawers – how to build

We have a wide range of pre-designed combinations to choose from. Some are included in this brochure, and more combinations can be found in the store and on our website at www.IKEA.com.au.

You can create the perfect solution to match your needs and taste. There are 2 simple steps to follow.
Start by choosing the width of your solution. The top and plinth are sold together and come in widths of 40 cm, 80 cm, 120 cm and 160 cm. Then choose the size and colour of your modular chest of drawers. For the different sizes and available colours, please see the list below.

WARNING! TIPPING HAZARD

Unanchored furniture can tip over. This furniture should be anchored to the wall with the enclosed safety fitting to prevent it from tipping over. Remember that the recommended maximum height for stacking NORDLI modular chests of drawers is 145 cm.
