Buying guide

BABY SLEEP
Cots, mattresses and accessories

Safety and comfort for your little one
It’s wonderful to be a new parent but it can also be rather worrying. That’s why our cots are rigorously tested to ensure they meet the strictest safety standards that exist in the world. Our cots are durable and stable, and they adjust to fit babies as they grow so quickly. So you can sleep like a baby, too.

For sweet dreams and safe sleeping
No parent should have to choose between affordability and their little one’s safety and comfort. That’s why we designed our cot mattress range. Every single one of our firm, well-ventilated cot mattresses meet strict safety standards. So it’s not only your little one who will be resting well at night.
Children's safety is always our highest priority
Our products are designed and tested to comply with all applicable safety requirements in the countries where the products are sold. We also test all our children’s products at our own accredited test laboratory in Sweden, as well as at independent accredited test laboratories and institutes around the world.

IKEA fulfils the following safety criteria for cots and mattresses around the world. Cots for the Australian market are tested by test laboratories in Australia and comply with Australian standard: AS/NZS 2172-2010 Cots for Household Use Safety Requirements or the Australian Consumer Protection Notice for Household Cots No. 6 of 2005. Mattresses.

If you want to learn more about a specific safety or test standard, please contact Standards Australia.

How are our cots tested?
All our cots undergo several different tests to ensure they are safe to use. First, they are inspected for any protruding parts, loose parts or fittings, and sharp edges. Then, all gaps and openings between spindles and the slats in the cot base are measured. The cot is tested with impact and pressure tests for strength, stability and durability and to ensure that the spindles will not twist or rotate from their position and create potentially hazardous openings. The cot base is also tested. For example, in a test for the European market, we subject the cot base to impact from a 10 kg weight that is dropped 1,000 times from five different positions.

The same or similar tests are made on cot bases for cots on all markets where we are active, but the tests may differ somewhat, depending on the specific requirements of the respective country.

Good to know

1. No small components that can be removed, or worked loose, to eliminate the risk of choking.
2. Rounded edges and corners.
3. Ventilated cot base to avoid fungal growth.
4. Strong cot base.
5. The gap between the spindles is designed for optimum safety (babies cannot get their head stuck between them).
How to choose a cot

Identify individual needs
Both you and your baby will sleep better if you use a cot for the baby. A cot is an enclosed, yet well-ventilated, sleeping environment that your baby cannot roll out of and will not get too warm or uncomfortable in. Most infants sleep deeply and are not easily disturbed by noise, voices or music. However, they do not sleep for long periods at a time and wake up frequently. The enclosed sleeping environment of a cot helps your baby feel sheltered and protected.

In our selection you can find cots with a traditional touch or cots with modern shapes. Choose according to your style so it fits with your home.

Designed to grow with your baby
Different living situations require different solutions – but all babies grow fast. That’s why most of our cots are designed so that one side can be removed when the baby is big enough to climb into/out of the cot, transforming it into a bed.

1. When the baby is very small the base can be placed at the higher position.
2. As soon as the baby starts to sit by themselves, place the base at the lower position.
3. When the child is big enough to climb into the bed, one cot side can be removed.
All parts and prices

Cots

We have a wide variety of cots in different styles and finishes. No matter which of our cots you choose, you can be sure of one thing - every detail is well-thought-out. For your baby's safety, always use the same size on cot and mattress to avoid gaps that the baby's head could become trapped in.

GONATT cot, 75×136 cm. The cot base can be placed at two different heights. One cot side can be removed when the baby is big enough to climb into/out of the cot. Your baby will sleep both safely and comfortably as the durable materials in the cot base have been tested to ensure they give their body the support it needs. The cot base is well ventilated for good air circulation which gives your baby a pleasant sleeping climate. Drawers at the bottom of the cot provide extra storage.

- White 703.719.50 $399
- Light grey 903.719.49 $399

STUVA cot, 70×132 cm. The cot base can be placed at two different heights. One cot side can be removed when the baby is big enough to climb into/out of the cot. Your baby will sleep both safely and comfortably as the durable materials in the cot base have been tested to ensure they give their body the support it needs. The cot base is well ventilated for good air circulation which gives your baby a pleasant sleeping climate. Drawers at the bottom of the cot provide extra storage. Combine with STUVA drawer fronts that come in many colors. Read more about the STUVA cot in the STUVA buying guide.

- White/white 892.531.74 $409

GULLIVER cot, 75x136 cm. The cot base can be placed at two different heights. One cot side can be removed when the baby is big enough to climb into/out of the cot. Your baby will sleep both safely and comfortably as the durable materials in the cot base have been tested to ensure they give their body the support it needs. The cot base is well ventilated for good air circulation which gives your baby a pleasant sleeping climate.

- White 903.719.54 $199

SNIGLAR cot, 74x137 cm. The cot base can be placed at two different heights. Your baby will sleep both safely and comfortably as the durable materials in the cot base have been tested to ensure they give their body the support it needs. The cot base is well ventilated for good air circulation which gives your baby a pleasant sleeping climate.

- Beech 303.721.45 $129

KLAPPA mobile. Movement and sharp contrasts stimulate the baby’s eyesight.

- Yellow 603.650.25 $9.99
How to choose a cot mattress

1. Choose your materials
Choose between spring or foam. All materials are safe and hygienic. If you are unsure ask yourself: what type of mattress do you prefer to sleep on?

Spring mattresses: The spring mattresses are made with a pocket spring construction. The construction of spring cot mattresses allows air to flow freely, promoting good air circulation and a favourable sleeping climate. A protective foam box adds comfort and durability.

Foam mattresses: The foam mattresses use quality polyurethane or high resilience foam, which are well cut, durable and intended for sleeping therefore making both a safe choice for cot mattresses. High resilience foam is durable, relieves pressure points, and provides comfort and support for your growing baby.

2. Identify individual needs
How many years do you think you will use your cot mattress? The longer you plan on keeping the same mattress will affect which mattress you should choose. If you want to use the same mattress into the toddler years a thicker and more durable mattress will provide better support for older babies and toddlers, who like to stand and bounce in their cots.

3. Choose your mattress
On the following pages you will find all of our baby mattresses on offer, along with detailed facts for each.

Good to know

1. All our cot mattresses are firm, to provide a safe sleeping environment for your baby.
2. All mattresses provide some pressure relief, because they are made with materials like pocket springs or high resilience foam.
3. Well ventilated cover for better air circulation.
4. All children’s mattresses promote good air flow, thanks to carefully considered choices in materials and construction.
5. Removable and machine-washable covers to create a hygienic sleeping environment for your baby.
All our cot mattresses are made of safe, durable materials. Free from harmful chemicals and well-ventilated, they all provide a safe and comfortable sleeping environment for your baby. Some have handles that simplify making the bed. The materials have various properties. Foam is elastic and distributes your baby’s body weight evenly. So does high resilience foam, but it also regains its shape faster and lasts longer. Spring mattresses have wrapped pocket springs that follow the baby’s movements exactly.

For your baby’s safety, always use the same size on cot and mattress to avoid gaps that the baby’s head could become trapped in.

### Foam mattresses

**Care instructions**

Cover:

- **PELLEPLUTT.** This mattress is made of 6 cm thick foam and has the same, smooth surface on both sides. You can easily turn it over if you like. The cover can also be removed and machine washed at 60°C.

| 70x132 cm | 603.480.26 | $49 |

**Inner cover:**

Wipe clean with a damp cloth.

### Spring mattresses

**Care instructions**

Cover:

- **JÄTTETRÖTT.** This 11 cm thick mattress has individually wrapped pocket springs enclosed in a generous layer of pressure-relieving foam. Since the springs work independently, they closely follow your baby’s body and provide support in the right places. The well-ventilated construction provides your baby with a pleasant sleeping environment. A practical handle makes the mattress easy to carry and to turn over when making the bed. You can remove the cover and machine wash it at 60°C.

| 70x132 cm | 803.481.10 | $99 |

**Inner cover:**

Wipe clean with a damp cloth.

**SKÖNAST.** An 8 cm thick mattress with pressure relieving, elastic, high resilience foam that regains its shape quicker and lasts longer than ordinary foam. The material follows your baby’s body and provides comfortable and firm support. The cover is easy to remove and can be machine washed at 60°C.

| 70x132 cm | 603.485.35 | $99 |

**Inner cover:**

Wipe clean with a damp cloth.
Care and cleaning

**Cover**
Most outer covers are removable and machine washable to create a hygienic sleeping environment to your baby. They are also well ventilated to allow for better air circulation. All our covers are soft against the baby’s skin.

- **Do not wash**
- **Machine wash warm 60°C**
- **Machine wash warm 40°C**
- **Tumble drying, normal temperature**
- **Do not iron**
- **Iron, medium temperature**
- **Do not bleach**
- **Do not tumble dry**

**Complementary products**

**LEN fitted sheet, 2-pack.** The elastic keeps the sheet in place so that your child can sleep safely and won’t wake up with the sheet around their body.

- **White**
- 104.266.44  $16.99

**LEN pillows for cot, 35x55 cm, 2-pack.** Recommended for ages from 12 months.

- **White**
- 702.390.84  $4.99

**LENAST quilt for cot, 110x125 cm.** Recommended for ages from 12 months.

- **White/grey**
- 303.730.60  $24.99

**LEN mattress protector, 70x100 cm.** A real hero when disaster strikes. Simply throw the soiled protector in the was and replace it with a clean one. The mattress stays fresh. Made from sustainably grown cotton and harmless plastic. Non-breathable material; do not place under baby’s head.

- **White**
- 801.690.66  $9.99

**LEN quilt for cot, 110x125 cm.** Recommended for ages from 12 months.

- **White**
- 802.628.56  $14.99

**LENAST mattress protector, 70x132 cm.** LENAST protects the mattress and absorbs moisture. The mesh fabric allows your baby to breathe, even if their face is against the protector. A good start to a safe and hygienic sleeping climate.

- **White**
- 804.548.79  $14.99
You can do it yourself, but you don’t have to

IKEA products are designed to be taken home and assembled yourself. But if you would like some help, we can offer you a range of services. For more information contact your local IKEA store or visit IKEA.com.au

Assembly
Sometimes it’s nice to have someone else put your furniture together. We’re happy to do it for you.

Delivery
Can’t take your furniture with you? We’ll bring it to your home or workplace.
