

KÖR

A limited edition promotional
flatpack to give mess the boot.

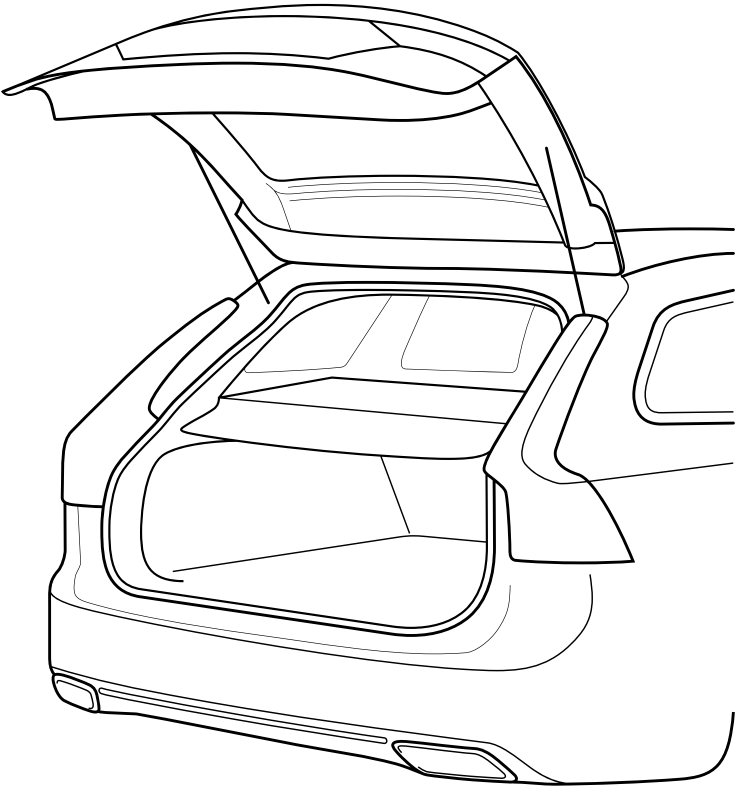

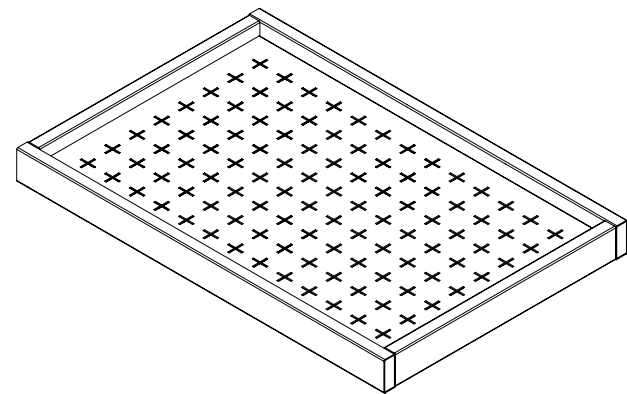

How to install

What's included in the pack

- 6× Small dividers 
- 6× Large dividers 
- 2× Double dividers 
- 1× Base 

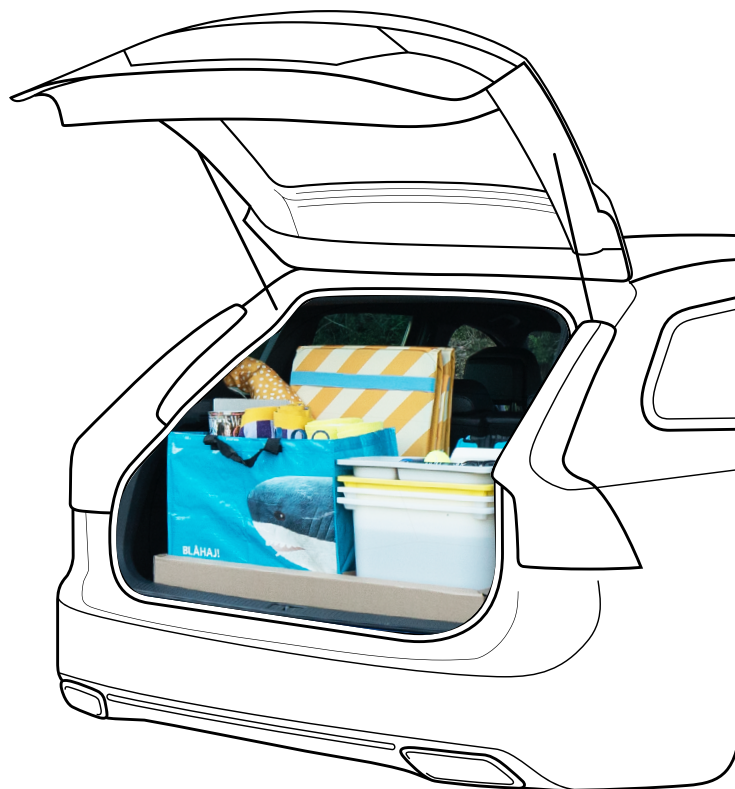

Step 1.

Remove all the items from your boot and place the KÖR platform into your boot.

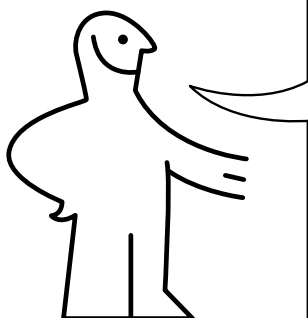

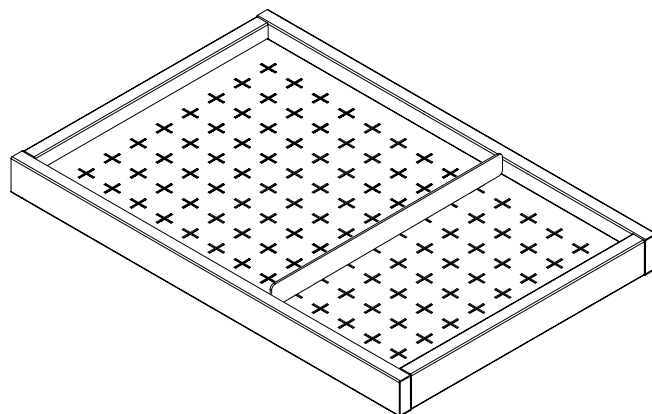

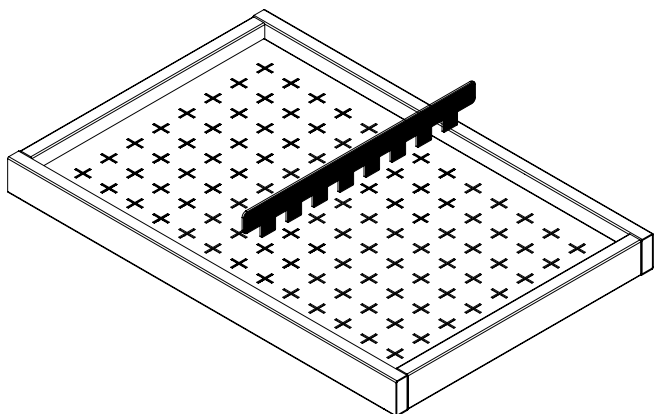

Step 2.

Then choose a theme from the following pages that best fits how you need to organise your boot mess.

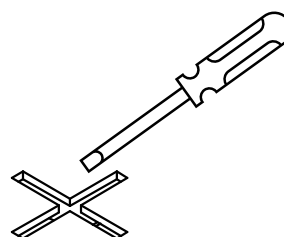

Step 3.

Insert the dividers following the guides on the theme page you selected. Note. You may need to trim some dividers with a pair of scissors so check the sizes required.

Tip

If one of the divider holes is a little blocked use slot screw driver to push over the stabiliser that may have moved in transport.

Screwdriver not included.

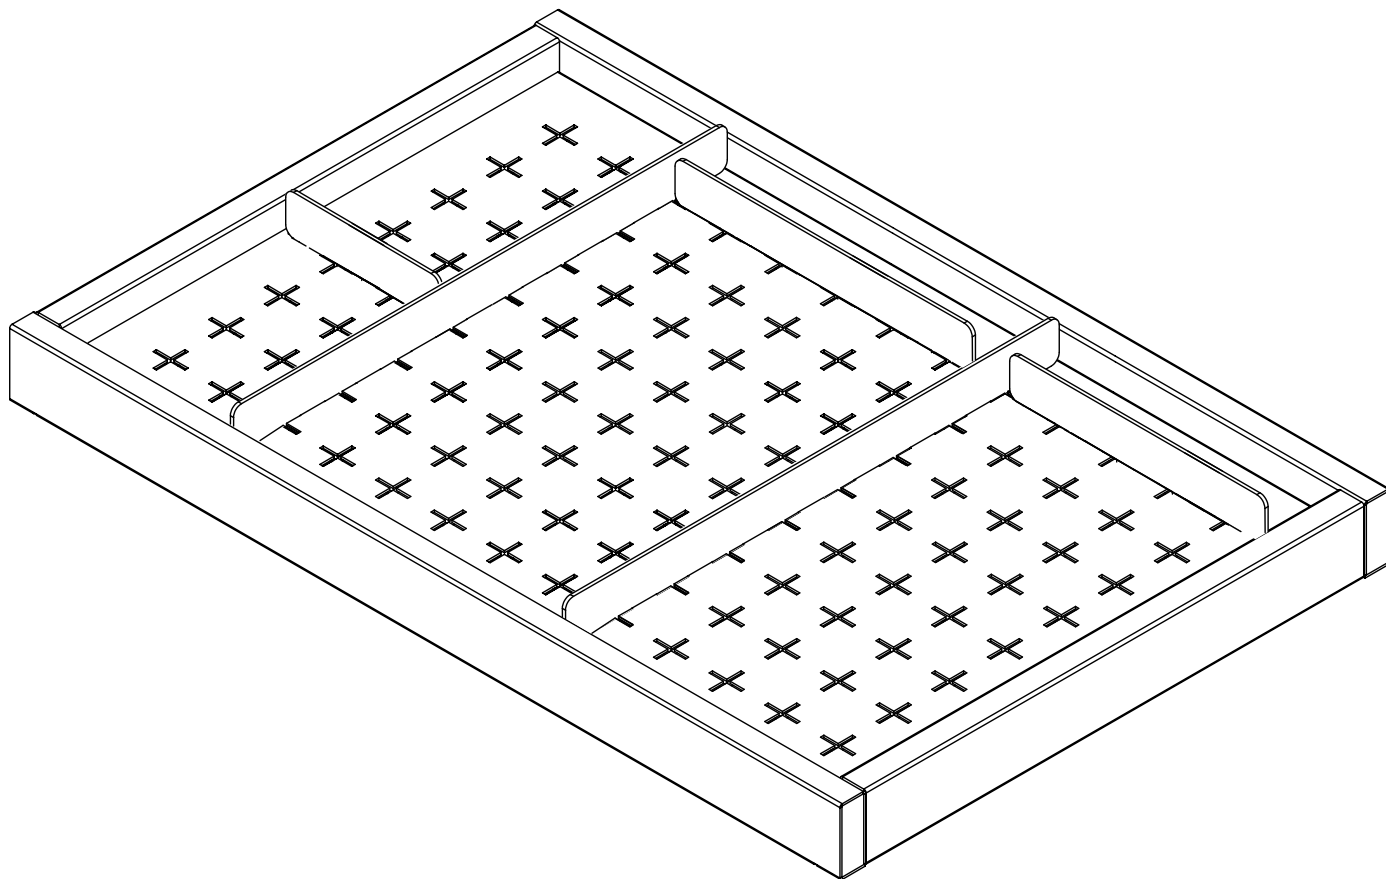

Fashion Influencer

Visit the KÖR page on the IKEA Australia website for a list of storage products to transform your boot as above.
