### A sofa-bed for all of life's activities

FLOTTEBO sofa-bed is designed to be just as flexible as it is comfortable. The removable back cushions make the sofa just as good for relaxing as for sleeping on. The large storage space under the seat has plenty of room for all the things you want to hide away, yet still have close at hand. So sit back and watch a movie or chat with your best friend. Send a mail or take a nap. FLOTTEBO sofa-bed is for all of life's activities.

### Always comfortable

FLOTTEBO sofa-bed is comfortable regardless if you want to sit, lean back or lie down. You always get support in the right places from the individually encapsulated pocket springs that move independently and follow your body. The loose back cushions also make it easy to adjust the seat depth and the back support. All you need to do to transform the sofa into a spacious bed is to remove the cushions. Quick, easy – and comfortable!

# How to convert

It is very easy to convert FLOTTEBO sofa-bed into a spacious and comfortable bed. Just hold the handles and lift the seat upwards. A large storage space with plenty of room for all

bedlinen will open up under the seat. Then simply remove the back cushions, make the bed, and enjoy a good night's sleep.

# Good to know

## Our fabrics have been tested

At IKEA we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home – and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

## Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibres. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light fastness (1-8)
Gunnared medium grey: 100% polyester.	Machine washable 40°C.	50,000	5
Vissle dark grey: 100% polyester.	Machine washable 40°C.	50,000	5
Vissle purple: 100% polyester.	Machine washable 40°C.	50,000	5
