Good, functional lighting
Lighting is important in all kitchens, both for safety and appearance. Good, even lighting across your worktop makes cooking and other kitchen chores safer, easier and more fun. And spotlights, cabinet lighting and drawer lighting doesn’t just help you to find what you’re looking for, but adds a decorative element to your kitchen.

Kitchen lighting connected to IKEA smart lighting
At IKEA, we have three series of integrated kitchen lighting that connect to IKEA smart lighting: OMLOPP and STRÖMLINJE. The OMLOPP series covers three functions, worktop lighting, drawer lighting and spots. The STRÖMLINJE series has a slim design and is easy to install. Add the TRÅDFRI remote control to dim, and set the mood for every occasion. Add the TRÅDFRI gateway to control your kitchen lighting from the IKEA Home smart app in different ways together with other smart lighting in your home.

Planning or updating your kitchen?

No kitchen is complete without good, functional lighting. That's why it's a good idea to include lighting already when you're planning and buying your kitchen. It makes it easier to install and saves you lots of time and effort. But what if you just want to improve the lighting in your current kitchen? Don't worry, we have solutions for that, too. Remember that all kitchens are different – plan after your own needs!

Start by deciding where you want lighting in the kitchen. Then decide which lighting to suit you and your kitchen best. Start by choosing your preferred worktop lighting. Then add spotlights, cabinet lighting and drawer lighting.

Check out our offer below:

How to plan

Worktop lighting

At IKEA, we have 3 integrated lighting series – OMLOPP and STRÖMLINJE. All give you task lighting, mood lighting, and are dimmable. You save energy too, since these series use LED, which consume 85% less energy and last up to 20 times longer than a regular incandescent bulb.

Spotlights and cabinet lighting

Spotlights are a decorative and functional choice for wall cabinets with glass doors. They make it easy to look inside your cabinets and brighten up your kitchen at the same time.

Cabinet lighting is easy to choose, as it comes in different versions to match both modern and traditional styles.

Drawer lighting

OMLOPP drawer lighting switches on and off as you open and close your drawers. No more hide and seek with your kitchen equipment!

Use: OMLOPP, STRÖMLINJE.
Use: OMLOPP, URSHULT, LINDSHULT.
Use: OMLOPP.
OMLOPP worktop lighting

How to build

OMLOPP worktop lighting is easy to install by yourself. See the list below for all parts and accessories that you need.

- Start by choosing the number of OMLOPP lighting strips that you need.
- Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
- Add the power supply cord.
- Add the TRÅDFRI remote control to dim your lighting. Pair the remote to the driver(s) and the entire combination will dim at the same time.
- If you want, you can complete the system with other products, like spotlights, drawer lighting or cabinet lighting.

Basic parts

- **OMLOPP LED worktop lighting**
  - Length: 40, 60 and 80 cm.
  - Colour: white and aluminum.
- **TRÅDFRI LED driver**
  - Power: 10W/30W.
- **FÖRNIMMA power supply cord**
  - Length: 3.5m
- **TRÅDFRI remote control**
  - Colour: white.

Installation accessories

- **FÖRNIMMA intermediate connection cord**
  - Length: 2m.
- **TRÅDFRI gateway**

To find the power consumption (W) for each product, see All parts and prices on page 9.
STRÖMLINJE worktop lighting

How to build

STRÖMLINJE LED worktop lighting is really simple to install on your own. Since the units connect directly together with the 2 small connecting fittings, there are less cords to keep in order.

- When you start building your system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 80 cm, you’ll need 2 units which both have a width of 40 cm.
- Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.

Basic parts

- STRÖMLINJE LED worktop lighting
  - Length: 20, 40 and 60 cm
  - Colour: white
- TRÅDFRI LED driver
  - Power: 10W/30W
- FÖRNIMMA power supply cord
  - Length: 3.5m
- TRÅDFRI remote control
  - Colour: white

Installation accessories

- FÖRNIMMA intermediate connection cord
  - Length: 2m
- TRÅDFRI gateway

</tr>
</tbody>
</table>

To find the power consumption (W) for each product, see All parts and prices on page 9.
Spotlights and cabinet lighting

How to build

• Start by choosing all parts that you need.
• Add the correct TRÅDFRI LED driver: 10W or 30W. See page 8 for more information about the drivers.
• Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the IKEA Home smart app in different ways together with other TRÅDFRI lighting in your home.
• You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
• Add the power supply cord.
• Add the TRÅDFRI remote control to dim your lighting. Pair the remote to the driver(s) and the entire combination will dim at the same time.

Basic parts

OMLOPP LED spotlights or LED cabinet lighting*
Diameter, round spotlight: 6.8 cm.
Colour: white, aluminium and black.
* You can also use URSHULT and LINDSHULT. For measurements, see All Parts and Prices on page 9.

TRÅDFRI LED driver
Power: 10W/30W.

FÖRNIMMA power supply cord
Length: 3.5m.

TRÅDFRI remote control
Colour: white.

Installation accessories

FÖRNIMMA intermediate connection cord
Length: 2m.

TRÅDFRI gateway

How to connect

OMLOPP
You need to add a TRÅDFRI LED driver and a power supply cord. Add an intermediate connection cord if you’re using more than one driver.

STRÖMLINJE
You need to add a TRÅDFRI LED driver and a power supply cord. Since the units connect directly together, there are less cords to keep in order.

To find the power consumption (W) for each product, see All parts and prices on page 9.
Drawer lighting

How to build

• Start by choosing all parts that you need.
• Add the ANSLUTA LED driver with cord 19W. See page 9 for more information about the drivers.
• You can connect up to 6 units to the LED driver, as long as the total wattage does not exceed 19W.

• The lighting strip has a motion sensor, so that the light turns on and off automatically as you open and close the drawer.

Basic parts

OMLOPP LED lighting strip for drawers
Length: 36, 56 and 76 cm.
Perfect for your 40, 60 or 80 cm METOD cabinets.

ANSLUTA LED driver with cord
Power: 19W.

How to connect

Buy a separate ANSLUTA 19W LED driver for your drawer lighting. It will be easier to install.
How to choose a LED driver

1. 10W, 3 connection sockets.
2. 30W, 9 connection sockets.

If you want to connect your kitchen lighting to IKEA Home smart

There are two TRÅDFRI LED drivers. Choose based on how many units you want to connect. You can connect up to 3 units to the 10 W LED driver, as long as the total wattage does not exceed 10 W. The 30 W LED driver can support up to 9 units, max. wattage 30W. You can connect up to 10 drivers in one installation cord. Flashing lights indicate that the maximum wattage of the LED driver is exceeded. If you want to use more than one LED driver, make sure to synchronise each LED driver with the TRÅDFRI remote control so that the entire combination can be dimmed at the same time. Make your kitchen lighting smart by adding the TRÅDFRI gateway. With the gateway, you can control your lights from the IKEA Home smart app and create a mood together with your other TRÅDFRI lighting. You will also be able to control your lighting via your voice assistant (for example Amazon Alexa, Apple HomeKit or Google Home).

If you want conventional lighting

19W, 6 connection sockets

ANSLUTA LED driver with cord is the easiest solution if you want conventional lighting, just a few spotlights or drawer lighting. You can connect up to 6 units to the LED driver, as long as the total wattage does not exceed 19W.
