

Mattresses, pads and protectors

The key to feeling good – a good night's sleep

We sleep for one-third of our lives, and a good night's sleep is important for us to feel well and rested. What we choose to sleep on and have over us makes a big difference. To make the choice easier, we've gathered all of our mattresses, mattress pads, slatted bed bases and legs in this buying guide. You will also find our range of mattress protectors. All items have unique features, so before deciding, it can be wise to test both mattresses and pillows in our sleep studio at the store.

Good to know

When it comes to mattresses, one size doesn't fit all. People are built differently. People sleep differently.

We understand this, which is why our range of mattresses offers you a wide choice of materials, support and price levels; everything you need to find a perfect match for you. Almost all of our mattresses and bases are covered by a 10-year guarantee against defects in materials and workmanship. For more detailed information, please read the guarantees terms and conditions in www.ikea.com.au

For your complete comfort

In order to find what's best for your individual needs, we advise to try the mattress of your choice together with different pillows. Find the combination that best fits you, by actually lying down and trying them out together in the mattress studio.

When you get your mattress home

Before using for the first time It's normal for new mattresses to feel a bit too firm, so you should allow one month for your body to get used to the mattress and for the mattress to get used to your body. New materials also have their own particular smell. We recommend airing the mattress to help eliminate any smell. If you buy a roll packed mattress, you can use it straight away but keep in mind that it takes 3-4 days of use for them to regain their shape.

Care and cleaning

Adding a mattress protector (page 13) or mattress pad (page 10) to your new mattress makes it more hygienic, as it is easy to remove and clean. Some of our mattresses have a washable cover. On those that don't, use upholstery cleaner to remove stains. Even the best mattresses become less comfortable with age and all mattresses accumulate dust and mites over the years. So we recommend that you change mattress every 8-10 years.

Read more in the guarantee brochure.

How to choose mattress

To find the right mattress for you, you should think about:

1. Foam/latex or spring?

We offer a variety of different mattresses. Deciding if you want a foam/latex or spring mattress will help you narrow down your choice considerably.

2. Your budget.

We have mattresses to fit every budget – from basic mattresses to mattresses made with high quality natural materials. But you can be sure that every one is designed to give you a good night's sleep.

3. How does it feel?

The most important thing when choosing a mattress is to have a good lie down. Try the mattress without thick jackets and coats and in the position you usually fall asleep in. That way, you can tell if the mattress is a good match for you.

Mattress comfort symbols

The symbols below are used to show the features of our comfort products.

Firm

Mattresses that provide firm support.

Medium firm

Mattresses that provide soft support.

Extra Firm

Mattresses that provides extra firm support.

Natural materials

Natural materials like wool, cotton and sometimes natural latex and coconut fibre help air flow freely through the mattress and draw away moisture, so you won't get too warm or too cold.

Extra comfort filling

An extra top layer of soft filling that adds comfort.

Comfort zones

Give each part of your body the support it needs. Softer areas allow your shoulder and hips to sink more deeply into the mattress while firmer ones actively support your neck and lower back.

Pocket springs/mini pocket springs

Individually wrapped springs that work independently to closely follow your movements and the contours of your body.

Bonnell springs

A layer of springs that provides all-over support to ensure a restful night's sleep.

Latex

A soft and resilient natural material that offers personalised comfort by moulding to your body. You'll relax more fully as it distributes your body weight to relieve extra pressure and provide precise support.

Memory foam

A soft and resilient material that responds to your body temperature and moulds itself to the contours of your body. You'll relax more fully as it distributes your body weight to relieve pressure and provide optimum support and comfort.

Gel infused memory foam

Gel capsules in the memory foam take a longer time to warm up creating a cooler sleeping surface.

High resilience foam

High quality foam that closely follows your movements to provide support and relieve extra pressure.

Foam

Gives you all-over support and comfort.

Roll packed

Makes it easier for you to handle the mattress and bring it home.

Wash 60 degrees

Removable and washable. Mites thrive in warm, dark, humid environments like beds. Wash fairly often to keep it fresh and clean.

10-year guarantee

Almost all of our mattresses and bases are covered by a 10-year guarantee against defects in materials and workmanship. For more detailed information, please read the Guarantee folder.

Spring mattresses

Spring mattresses distribute your weight evenly, so there's no extra pressure on any one part of your body. The open spring construction helps air flow through the mattress, so you won't get too warm while you sleep. You can get the comfort level

that's right for you with a mattress pad and a slatted bed base or mattress base. Spring mattresses are also extremely durable.

VADSÖ spring mattress, light blue

**Bonnell springs**

**Roll packed**

10 10-year guarantee

- Bonnell springs provide stable and even support, giving you the feeling that you're sleeping on top of the mattress rather than in it.

Foam and latex mattresses

Soft and resilient, foam and latex mattresses provide support by moulding to the shape of your body and distributing your weight evenly. Because there's no extra pressure on any part of your body, they facilitates blood circulation and help you relax. Foam mattresses also absorb the shock of movement, making

them a great choice if you have a partner that tosses and turns at night. Their flexibility makes them a great fit for adjustable slatted bed bases.

Mattress protectors

A mattress protector will help your mattress or mattress pad last longer and stay fresh by protecting it from stains and dirt. It's removable, so it's easy to wash when needed.

Filled protectors provide extra comfort and softness and draw

moisture away from the body. The waterproof one prevents any liquid from passing through to keep your mattress dry and fresh.

LUDDROS mattress protector.

Care instructions

- Elastic ribbon in each corner to keep the mattress protector in place.
- A good choice if you are allergic to dust mites since the protector is machine-washable at 60°C, a temperature that kills dust mites.
