BONDHOLMEN
Outdoor Living Furniture Series

A tribute to handicraft and common sense
How can we make your life at home more comfortable with knowledge of how people lived in the past? One way is to be inspired by traditional handicraft. Like designers Tina Christensen and Kai Legaard when they created BONDHOLMEN. Every detail in the series is a tribute to common sense from past times. It’s many small things together that make the modern outdoor life a little easier and more sustainable.

Durable material with natural feel
All products in the BONDHOLMEN series are made of high-quality, sustainably sourced eucalyptus. Eucalyptus is a durable, hard wood type suitable for outdoor use since it is compact and has a naturally high oil content that helps protect against weather and wind, drying out and mould. The grey-coloured surface in several layers makes all pieces even more durable for outdoor use and also makes them blend into the outdoor surroundings.

Protecting and caring for BONDHOLMEN

The best way to extend the life of your wooden outdoor furniture is by cleaning it regularly, not leaving it outdoors unprotected more than necessary and to re-stain it on a regular basis.

Cleaning
Wipe clean with a soft cloth dampened in water and a mild soapy solution. Wipe dry with a clean and dry cloth.

Maintenance
To prevent the surface from drying out and cracking and moisture from penetrating into the wood we recommend you to re-stain the furniture on a regular basis, for example once a year. How often you will need to do this will depend on how exposed the furniture is to the elements. For furniture that stands in the open air, a good indication that you need to re-stain is if raindrops are absorbed directly into the wood and no longer form small beads on the surface.

Storing
If possible, store your outdoor furniture in a cool and dry place indoors. If the furniture is left outdoors, make sure to protect it with a waterproof cover and if possible tilt the furniture to make it easier for any water to drain away. After a rain or snowfall, wipe off excess water or snow from flat surfaces. Allow air to circulate, to avoid condensation.
