You can do everything yourself, but you don't have to. With our broad service offer we can assist you with everything from measuring and planning to complete kitchen installation. **See page 4**

A kitchen island is a great social hub, while giving you extra work space. The worktop of VADHOLMA kitchen island has a durable top layer of oak wood and can handle everything from baking muffins to playing family games. **See page 121**

Life in the kitchen goes a lot smoother when your drawers open up fully to help you reach everything. With interior fittings and organisers inside cabinets and drawers, finding what you're looking for will be easy-peasy. **See page 44**

Services

Our broad service offer gives you the freedom to decide how much you want to do yourself and how much you want us to do for you.

Below you'll find all the services that we can offer, and how much each of them costs.

Kitchen planning

Get help with the planning of your new kitchen, by booking an appointment with one of our experts at IKEA. You bring the measurements and drawing or a picture of the area – we help you with inspiration and functional solutions for everything, from the placement of cabinets and appliances, desks and storage to lighting, sinks and wash-basins.

Measuring

If you prefer, our partners measure the room and check everything, from the placement of windows, doors and power sockets to the material and condition of the walls.

Delivery

Whether you're shopping in store or online, and no matter how big the purchase, we'll do the heavy lifting and bring it to your home or business.

We deliver on a day that suits you into the room of your choosing.

Kitchen installation

If you want to make things smooth and easy for you - talk to a kitchen specialist about installation options for you. We can help connect you to a trusted partner to handle all those time-consuming jobs like fitting sinks, taps and worktops. And you can rest assured that the installation of gas/electric appliances is done properly.

Payment options

We accept many payment methods, including cards and cash. And if you need a little longer to settle your bill, we can help you spread the cost.

What type of kitchen are you looking for?

Whether you're looking for a complete kitchen system like METOD that you can personalise any way you want, or a simpler kitchen that you can install in a day, we have what you're looking for. Here you have three different types of IKEA kitchens to suit different needs and wishes.

METOD kitchen system

Our METOD kitchen system includes cabinets in several different sizes to fit your room layout as well as your kitchen habits. The flexibility of the system offers endless choices, giving you the freedom to customise a kitchen that's ideal for you and your space. We've also developed an extensive range of kitchen organisers and interior fittings allowing you to quickly see and reach even the things furthest back in the corner cabinets. In addition you have a vast choice in front expressions, worktops, lighting, sinks, taps, knobs, handles and much more to personalise every inch of your kitchen.

KNOXHULT kitchen

KNOXHULT kitchen units make it easy to create a practical kitchen. The selection of units in different shapes and sizes come with pre-coordinated front and worktop and offer smart storage that help you stay organised, so all you have to do is combine them to suit your needs, space and preferences. When you're happy with the result, personalise with your favourite sink, tap, appliances, knobs or handles and lighting to get a kitchen that works for you.

Kitchenettes

Not everyone has the space for a larger, built-in kitchen. Whether you're after a permanent or temporary solution, our range of kitchenettes delivers all the essentials in smart, compact designs. Choose from basic or modern styles and customise your space with TILLREDA appliances to fit your needs. It's all there, personal, functional and easy to install – and when you move, you can take your kitchenette with you. Simple as that.

METOD kitchen system

Endless possibilities

The flexible design of METOD kitchen system is easy to install and gives you endless possibilities when designing your kitchen. Whether you have a taste for the traditional, love the minimalism in modern style or land somewhere in between, you'll surely find something that fits you.

To become truly beautiful, the kitchen has to be functional and take care of all your kitchen needs, too. With METOD you have the freedom to get the look you want on the outside and keep everything in perfect order on the inside. Start by deciding the style of your dream kitchen by choosing the doors and drawer fronts, lighting, worktop, sink, tap, knobs, handles and accessories that you like.

Door and drawer front styles

Sleek doors and drawer fronts

Sleek doors offers you straight lines and smooth, easy to clean surfaces, simplicity in its truest form. Choose from a wide variety of finishes, colours and materials.

Frame doors and drawer fronts

Frame doors and drawer fronts are rich in detail with a crafted look and feel, they create a kitchen with a rustic and traditional look. All our frame door families have a matching glass door.

High-gloss doors and drawer fronts

Glossy surfaces suit everyone from the minimalist to the wild family with kids. Stains are no problem as they are just as easy to wipe clean as they were to make.

Doors and drawer fronts with integrated handles

You might not notice them at first glance and that's the idea! Integrated handles lend a minimalistic and modern feeling to your kitchen.

Material for kitchen fronts

Kitchen fronts that suit you

Are you looking for a completely new kitchen or are you going to update your existing one? Regardless, we want to help you choose the best kitchen fronts for you and your home. Material, surface treatment and appearance affect your fronts and before you choose, it may be good to think about a few things. What style, colours and patterns do you like? And what are your requirements when it comes to durability, and maintenance? Here we summarise the features and advantages that IKEA kitchen fronts have. All fronts have a 25-year guarantee, so you can be sure to enjoy them for a long time.

Wood – warm and unique

Real wood has a warm and natural expression. Massive wood and wood veneer has its own unique look, since the grain and pattern are different from plank to plank, giving your kitchen a vibrant and natural feel. The colour of the wood deepens and becomes richer over time – and if you take care of your fronts, they will stay beautiful for a long time. The surface can be varnished with clear lacquer, oiled, stained or left untouched to maintain the natural expression.

- + Sturdy and solid.
- + Can be oiled and stained.
- + Colour deepens with time.
- + Unique expression

Foil – easy-care and versatile

With foil coating, kitchen fronts can have many different expressions – everything from a matte or high-gloss surface to embossed effects and a wide choice of colours and patterns. Foil coating is usually produced from a flexible plastic foil, that is heated and cast over particleboard. The result is a front with an even, smooth and durable surface. Foil with an extra-matte finish may need a little more love and care to remove stains.

- + Scratch resistant.
- + Great variation in appearance.
- + Moisture resistant.
- + The colour does not fade over time.

Lacquered - many colours and a smooth surface

We have lacquered fronts in many different colours, so you can choose one that suits your home best. Lacquered fronts do not need an edging strip, and have a uniform colour and texture over the entire front. They can also be painted or re-varnished in new shades, making it easy to update your kitchen and extend the life of the fronts. Lacquered fronts are produced by spraying paint over compact particleboard. The paint is applied very evenly over the board, and the surface is smooth and easy to wipe dry.

- + Uniform colour and texture over the entire front.
- + Can be repainted.
- + Easy to clean.

Tempered glass – strong and decorative

With glass doors, you can display your favourite objects and add lighting to the cabinet for an extra-cosy touch. The glass in the door is industrially tempered glass, which is a stronger and safer type of glass. It can withstand heavier weight and better resist scratches. If the glass does break, it breaks into smaller and more harmless pieces than ordinary non-tempered glass.

- + Stronger than ordinary glass.
- + Easy to clean.
- + The glass gives a sense of the contents in the cabinet and evokes interest.
- + Combine with lighting in the cabinet for an extra-cosy touch

Accent doors and drawer fronts

Accent fronts are a great way to stretch the style and get a more personal look in your kitchen by adding a contrast, a pattern or a splash of colour. They're de-

signed to complement the other doors in your kitchen, which means they don't come in as many sizes as most fronts.

HEJSTA

Colour/design: white/clear glass.

Material: Aluminium and tempered glass.

Create a personal and inviting feeling with HEJSTA glass door in white. Show your favourite items and add lighting for ambience. A classic, modern look with metal frame and integrated handle.

HEJSTA

Add the finishing touches

Whether you've decided to go for a more traditional style with lots of drawers and decorative elements, or a sleek modern, more minimalistic approach, there are still finishing touches for you to add to make your kitchen stunning.

Enhance your style with uniform cover panels, decorative strips, legs and plinths. Or, you can be a bit bold and go for a finish that contrasts with your doors and drawers. It's all up to you.

Cover panels and decorative cover panels

Choose a cover panel in the same finish as your door for a uniform expression, or mix and match to suit your taste.

Decorative strips

Decorative strips provides the finishing touch to your kitchen. They come in many different styles, but we have something for all of our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them both above as mouldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

interior fittings and organisers

Hidden helpers

With METOD interior fittings and organisers, you can get the look you want on the outside without revealing what's inside. The cabinets can be hiding all sorts of kitchen surprises. Behind a door you can find pull-out organisers for your cleaning equipment, organisers keeping all your pot lids in perfect order, or a great bunch of fully extendable drawers

making everything easy to reach. Not to mention drawers inside drawers allowing you to utilise the cabinet space to a maximum. It's really up to you what goes inside your kitchen cabinets.

On the following pages you'll find numerous handy helpers making your daily work in the kitchen run smoother.

MAXIMERA drawers and drawer accessories

MAXIMERA drawers pull out all the way, and thanks to a built-in damper they always close softly and effortlessly. You have complete overview and you can easily reach the smallest of utensils even at the back of the drawer.

502.387.02

UTRUSTA push opener, 2-p. Push to open; no handles needed.

502.302.25

UTRUSTA hinge 45°, 2-p. The hinge is only for use with a corner wall cabinet and is only needed when you want to mount two doors on the cabinet.

202.619.92

UTRUSTA hinge 95°, 2-p. Fits cabinets for integrated fridge/freezers.

202.711.23

UTRUSTA hinge with built-in damper 110°, 2-p. This hinge has an integrated damper, so that the door closes slowly, softly and silently. You can easily deactivate the damper with a slide button, for example if you want to use a push opener or if the door closes too slowly, and re-activate it if you want.

605.248.83

UTRUSTA hinge with built-in damper for kitchen 153°, 2-p. This hinge has an integrated damper, so that the door closes slowly, softly and silently. The extra wide opening angle of these hinges makes it possible to have a drawer behind the door.

704.272.64

UTRUSTA hinge with push-opener for horizontal door, 2-p. Push to open; no handles needed. Door lift with catch for gentle closing included. You can easily mount the door front in the right position, because the hinges are adjustable in height, depth and width. Snap-on hinges can be mounted onto the door without screws, and you can easily remove the door for cleaning. To be combined with drawer fronts.

804.624.93

UTRUSTA hinge with damper for horizontal door, 2-p. This hinge has an integrated damper, so that the door closes slowly, softly and silently. You can easily mount the door front in the right position, because the hinges are adjustable in height, depth and width. Snap-on hinges can be mounted onto the door without screws, and you can easily remove the door for cleaning. To be combined with drawer fronts.

Lighting and home electronics

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we have different families of integrated lighting that are perfectly designed to fit into our kitchen cabinets. Including integrated lighting in your kitchen is the best way to show off your favourite dinnerware, behind glass doors or in drawers.

Worktop lighting helps you focus on function and makes kitchen work less of a chore. Preparing and cooking meals becomes safer, easier and more fun when you have a good, even light across your worktop.

Enjoy an even better kitchen life with the ability to light turn on and off wirelessly, or soften the light when you dine or socialise. All you need is a wireless dimmer or remote control. Or connect your smart lighting to DIRIGERA and connect all your lights together with other smart products in the IKEA Home Smart app. You can choose the features and functions that are most important to you and add products to create your perfect kitchen atmosphere.

Cabinet lighting illuminates your favourite kitchen doors and creates cosy mood light in the entire kitchen.

Worktop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Spotlights provide a focused light that is good for lighting smaller areas and behind glass doors.

Lighting for METOD

Over cabinet lighting

Over cabinet lights offer another way to light up items at the top of your cabinets where other lights won't reach.

To be completed with TRÅDFRI LED driver and FÖRNIMMA power supply cord sold separately. Dimmable with remote control or in the IKEA Home smart app with DIRIGERA hub, sold separately.

YTBERG cabinet lighting. You can bend, angle and move this slim lamp sideways to direct the soft light precisely over your cabinet. A perfect choice if there is little space between the top and the ceiling.

How to build

MITTLED LED cabinet lighting is easy to install by yourself.

- When you start building your METOD kitchen system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 60 cm, you'll need the MITTLED lighting strip 60 cm too.
- Choose the number of MITTLED lighting strips that you need. Complete with TRÅDFRI driver, VÅGDAL connection cord and FÖRNIMMA power supply cord (sold separately).
- For the 10W driver you can connect up to 3 units to the driver, as long as the total wattage does not exceed 10W. For the 30W driver you can connect up to 9 units, as long as the total wattage does not exceed 30W.
- Add BILRESA remote control or RODRET wireless dimmer to dim your lighting. Pair the dimmer to the TRÅDFRI driver and the entire combination will dim at the same time.
- Add the DIRIGERA hub to control MITTLED connected lighting from the IKEA Home smart app in different ways together with other smart lighting product in your home.
- When you start to plan your base cabinet solution start to think where you need a drawer light that will help you to find tools or see the content of the base cabinet. The drawer lights can be connected to ANSLUTA driver 10W.

Worktops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your worktop can have a big impact on the overall look. However, the perfect worktop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right worktop there are many factors to

consider, including your style, durability, maintenance, lifestyle and cost. Our worktops are available in pre-cut and custom-made as well as in a wide range of durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your worktop:

01

What's your budget? A stylish look does not have to cost a fortune, our worktops are available in a wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material do you prefer? When deciding on material, consider how robust you need your worktop to be, how much you are prepared to look after it, and how you want it to look in your kitchen scheme.

03

Custom-made worktops are made to fit your kitchen layout, you can order the exact length and depth you need, as well as cut-outs for your sink, tap and hob. Pre-cut worktops are available in different sizes, you can take yours home today and cut it to desired length.

25

All worktops have a 25-year guarantee. Find out more on page 127

Built to last

When we test our worktops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our worktops will last, we guarantee it.

Materials

Laminate

Laminate worktops are affordable, easy to maintain and there are lots of colours and expressions to choose from. Our laminate worktops are made by pressing layers of paper and resin onto particleboard under continuous high heat and pressure, creating a durable and practical surface. It's the perfect choice for a busy kitchen, offering easy maintenance and a long-lasting fresh look.

Thick veneer

Thick veneer worktops offer the natural colour and grain of wood, adding warmth to your kitchen. They are pre-treated for quicker installation and can be sanded and treated when needed. Over time, it will only look better, gaining in character.

Thick veneer worktops feature a particle-board core topped with a 3 mm layer of real solid wood. This technique allows us to use the entire tree more efficiently – turning the trunk into the elegant surface, and using branches and smaller pieces for the particleboard inside. It's a smarter, more sustainable way to create high-quality wood worktops.

Glass composite

Glass composite worktops are made by mixing glass pieces with resin binders to form a unique and very durable surface. Our glass composite worktops are our most sustainable offer within the solid material segment and are made from at least 80% recycled glass. The durable, non-porous surface offers a sleek and expressive look that is scratch-, stain- and moisture-resistant – and easy to clean too.

High-pressure porcelain

High-pressure porcelain worktops are created by fusing natural minerals together, making them extremely strong and durable enough to withstand the toughest daily use.

High-pressure porcelain worktops are exceptionally resistant to heat and scratches – hot pots, water or sharp knives won't cause any damage, which is why they do not need to be resurfaced or re-finished, ever. They have a non-porous surface that is fully stain-proof and easy to clean. They are the most hygienic solution available.

Ash

Ash is a blonde hard wood with a beautiful grain pattern. Ash is a tough and strong, yet elastic material with great resilience and finishing properties. It gets gradually darker with age. In its natural form it is heavy and gives a very solid feel.

Bamboo

Bamboo is a durable and stable hardwood with a uniform texture. The natural color of bamboo is similar to that of beech wood and adds a warm, natural feel to the kitchen – year after year. The material is renewable and sustainable, which makes it a great environmental choice.

Oak

Oak wood is exceedingly strong, heavy and durable. It is an attractive light colour with a prominent grain. Its colour ranges from light brown to a rich reddish-brown and it darkens beautifully with age.

Walnut

Walnut wood is relatively heavy, hard and resilient. The natural colour light brown to dark chocolate brown adds warmth to your kitchen decor. Walnut gets lighter in colour with age. It has a rich variation in colour and a decorative, curved grain pattern.

Big advantages of a custom-made worktop

Your custom-made worktop is made to fit your kitchen layout perfectly, with the least number of joints. You can order the exact length and depth* you need for your kitchen island or bar solution as well as cut-outs for your sink, tap and hob.

*Please be advised that there are minimum and maximum lengths available per piece.

Custom-made worktops offer the freedom to design a kitchen island that perfectly fits your space and lifestyle, with customizable lengths, depths, and layouts. You can even add a waterfall solution, creating a multifunctional centerpiece for cooking, dining, and entertaining.

Custom-made worktops provide the flexibility and design freedom to seamlessly integrate features like an under-glued sink, cut-out for a hob and tap hole, all tailored to your exact needs. They can also be perfectly coordinated with a custom-made wall panel for a coherent and polished look.

Custom-made worktops and wall panels let you design a kitchen that perfectly fits your space, style, and needs. From tailored dimensions and built-in bar solutions to integrated features like sinks, hobs, and tap holes, every detail can be customized for a functional and coordinated result.

Wall panels

Walls to match your style!

Adding wall panels is a quick and easy way to update your kitchen with new colors and texture. Our durable and easy-to-clean wall panels protect your walls from splashes and stains when you are cooking. They give you a neat finish where your worktop meets the wall and add a subtle accent of color to your

kitchen walls creating a stylish look. You can choose wall panels in various colors, materials and expressions, some are even double-sided! But if you want to go very personal, you can have your own customised one.

How to choose your wall panel:

01

What's your budget? A stylish look does not have to cost a fortune, our wall panels are available in a wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

02

What kind of material and expression do you prefer? The material of the wall panel you choose is just as important as the colour. Your wall panel is always going to be right up against your worktop, make sure the two materials and colours work well together.

03

Your wall panel has to end up somewhere! Where it ends is up to you – along the length of the wall, up to the bottom of your wall cabinets, up to the ceiling in areas where there are no cabinets (over the sink or over the hob).

25

All custom-made wall panels have a 25-year guarantee. Find out more on page 127

Materials

Laminate

Laminate wall panels offer a wide variety of colors, patterns and textures needed to personalize your kitchen space. They are resistant to water splashes, stains and grease, which makes them a durable and low maintenance choice.

Glass composite

Glass composite wall panels are made by mixing glass pieces with resin binders to form a unique and very durable surface. Our glass composite wall panels are our most sustainable offer within the solid material segment and are made from at least 80% recycled glass. The durable, non-porous surface offers a sleek and expressive look that is scratch, stain and moisture resistant – and easy to clean too

High-pressure porcelain

High-pressure porcelain is an extremely hard-wearing material, produced by applying high heat and pressure to fuse minerals together. The result is a non-porous surface that's hygienic and highly resistant to heat and scratches.

Sinks

A busy place in the kitchen

The sink and the area around it, is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and washing up. To make

the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 40, 60 or 80 cm wide.

02

Think about how you prepare food, but also how you wash up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organise the area in and around the sink, both when you prepare food and when you wash up .

25

We test our sinks to ensure they can withstand the demand of everyday life in the kitchen. That's why all our sinks come with a free 25-year guarantee (except FYNDIG). Find out more on page 127

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible.

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and alike in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sink bowl with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. All our sinks with drainboard are reversible, so you can choose if you want the drainboard to the left or to the right.

Sink bowl with visible front

This visible-front sink adds a bold, farmhouse-inspired look to your kitchen. The deep bowl makes it easy to wash large pots, pans and ovenware without splashing water on the floor. It also installs easily, no cut-out needed as it fits directly into the joint between two worktops (not applicable for HAVSEN sink bowl with visible front).

Fits 40 cm cabinets

BOHOLMEN inset sink, 1 bowl, 47x30 cm. Sink in stainless steel, a hygienic, strong and durable material that's easy to keep clean. Under the sink is a sound-absorbing material which reduces resonances in the metal when using the sink, thus lowering the sound level. Can be under-glued. LILLVIKEN sink strainer with stopper is included in the price.

Stainless steel 791.575.02

VRESJÖN inset sink, 1 bowl, 37x44 cm. Sink in stainless steel, a hygienic, strong and durable material that's easy to keep clean. Sleek and slim adding an elegant touch to your kitchen. Can be under-glued. LILLVIKEN sink strainer with stopper is included in the price.

Stainless steel 294.257.05

KILSVIKEN inset sink, 1 bowl, 36x46 cm. The natural colour variations of the quartz make each KILSVIKEN sink one of a kind bringing a unique look to your kitchen. Sink accessories

Our sink accessories support all activities in and around the sink, helping you when preparing food and wash-

ing up. Plus, they help you to save both water and space, too.

LILLVIKEN lid. Attaches via a magnet to all sink bowls with LILLVIKEN sink strainer with stopper and can be used as a handle for lifting the basket. The lid creates a flat surface at the bottom of the sink and prevents food waste from getting into the basket, making the sink easy to keep clean.

303.290.34

NORRSJÖN chopping board, L44×W42 cm. You can place the chopping board over the sink to get more space on the worktop and to hide dirty dishes. Fits over the bowl of VRESJÖN sinks, 54×44 cm or 73×44 cm. Solid oak.

203.397.12

NORRSJÖN colander, L42×W19×H9 cm. The colander is designed to rest steadily on the edges of the bowl. You can use it as a colander to rinse vegetables and salad or drain pasta. Fits on the bowl of all VRESJÖN sinks, 37×44 cm or bigger.

803.397.14

LILLHAVET chopping board, light grey, 1-p. L49×W35 cm. You get an additional work surface when you fit the chopping board over one of our kitchen sinks with inner dimension 400 mm.

605.034.56

LILLHAVET wash-up bowl, anthracite. W48×D24×H17.3 cm. You can save water by doing your dishes in the washing-up bowl instead of washing dishes under running water. It can be placed over the edges of the sink, with inner dimension 400 mm, to give you extra worktop space.

605.586.13

LILLHAVET multifunc dish rack, anthracite. W17.4×L47.8×H14 cm. Can be fitted over your sink, with inner dimension 400 mm, or placed together with the drain board on your worktop. The soft coating prevents rusting and will outlast many years and washes.

605.034.75

LILLHAVET colander, anthracite. W48×D18.2×H10.2 cm. This over-the-sink colander for kitchen sinks with inner dimension 40cm, is perfect to use as a strainer for washing fruit and vegetables, as a dish drainer or simply to hold sink bowl accessories.

805.586.07

RINNIG sink container, black. This practical container helps you keep things organised in or near the sink. Here you can have a dish sponge, brush or anything else you use often and want close at hand. With suction cups that grip smooth surfaces such as glass, mirrors and tiles.

W7xL17xH5 cm

605.954.46

SKOLÄST sink container extendable, green, Big enough to hold everything from washing-up liquid to brushes and sponges, giving you more space to work on the kitchen counter. Fits most sink bowls since the length can be adjusted from 39 to 54 cm, including the handles. On the edge there is an extendable arm where you can hang a dishcloth to dry. Water from dish brushes and sponges drains quickly through the holes in the bottom. Hangs firmly in place over the sink bowl thanks to the anti-slip surface under the handles.

W9xL39xH7 cm

205.610.14

Under-glued sinks

Under-glued sinks give you an uninterrupted, smooth look. They make cleaning your work-top easy, as there are no obstructions for food scraps to catch on. The look of an under-glued sink may vary depending on the worktop material and the sink model. You can order an under-glued sink when you order a custom-made worktop.

For glass composite and high-pressure porcelain worktops, the worktop is prepared for the sink at the factory. The service partner will undermount the sink at your home ready for the plumber to just connect up.

Kitchen taps

Water-efficiency at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change.

The tap aerator combines air with the water stream and generates a smooth gentle flow, while enabling water efficiency over time. Different functions like pull-out and pull-down spray enable a more conscious use of water and support water conservation over time.

10

All our kitchen mixer taps are tested and third party certified to meet, or exceed, the demands of the relevant national and international mechanical, quality, safety and hygienic standards. All IKEA kitchen mixer taps come with a free 10-year guarantee. Find out more on page 127

Kitchen organisers

A kitchen easy to live in

Your kitchen isn't fully in function until everything in it has found a place of its own. With smart organisers and acces-

sories, you'll find what you need, when you need it.

Your best kitchen friends

Trays, boxes and waste organisers help you to make the most of the space inside your kitchen cabinets.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilise the area in and around the sink, supporting the work-

flow both when preparing food and washing up.

Utilise the full area in the kitchen, even the walls. With smart wall storage often used items can be close at hand, at the same time you free up workspace.

Create the perfect combination for your drawers

Less time searching, more time for cooking. Clever inside trays for your drawers keep cutlery and kitchen utensils organised and in place. To really make sure you

can see everything in the drawer, complete with kitchen lighting.

Waste sorting combinations

Are you curious about how your waste can become new resources? HÅLLBAR series helps you sort different materials into different bins – a simple action and the first step towards giving waste a new life. HÅLLBAR

waste sorting management serie is a waste management solution for any room of your home and can be built-in and freestanding, whichever you prefer.

The bin's ventilation holes and the form of the bottom allow the air to circulate and dry out the organic waste. This minimises unwanted odours.

A ring on the top edge of the bin hides the waste bag and keeps it in place. It's removable either for easy cleaning or if not being used

The folding handle makes it easy to carry the bin with you to the waste station.

The included sticker can be attached to the bin to mark what you are sorting. Draw or write on the sticker to make it clear what goes in the bin.

Knobs and handles

Small details that makes a difference!

Knobs and handles are like icing on the cake. Enhance the style you like, refresh the look of doors and drawers, co-ordinate with the rest of your home or simply change because it's fun.

Knobs and handles may seem small but they can help you to really personalise your kitchen. You can enhance a style to make your kitchen look more traditional or more modern. Mix them or match them perfectly and play with placements to create the finishing touches to the look you want in your dream kitchen.

FIXA drill template

This simple tool helps you easily and accurately mark where you want to place your knobs and handles. Available online and at your local IKEA store.

Kitchen storage and accessories

Whether you have a new, beautifully planned kitchen or just looking to make improvements in your current one, there are a few secret ingredients that will make life simpler and more enjoyable. For instance, smart organisers create natural spots for storing cook-ing utensils and gadgets, so the whole family knows where to find them and where to put them back. Trays, boxes and waste organisers work double

shift by preventing clutter and making the best use of space inside your cabinets and drawers. Wall storage does its magic by putting all those things you use the most, close at hand right where you need them. And for the busiest place in the kitchen don't forget the clever accessories around the sink that come in handy when preparing food and washing up.

Kitchen islands, sideboards, trolleys and step stools

All of these are easy additions to any kitchen design. A kitchen island serves as an extended worktop space and often becomes a favourite spot for snacking, working and socialising. Sideboards add that little extra storage we all need and a trolley on wheels offers roll-anywhere convenience. A step-stool is a must-have for any kitchen, for reaching things up high, letting kids join the fun at the worktop, or using as extra seating by the table.

Having things in plain sight has its advantages

With open shelves, hooks, rails and racks you can create a personal combination that gives a good overview of your kitchen and makes everything easily accessible. Inspired by restaurant kitchens, we created KUNGSFORS series of wall-mounted shelves and accessories so you can feel like a professional and enjoy a smooth workflow.
