

# GODMORGON

## Bathroom furniture

### Safety

Furniture must be fixed to the wall with the enclosed wall fastener. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

Ensure that the walls in yours in your bathroom can support the weight of the wash-stand, and if not, then use legs.

### Care and cleaning

Wipe furniture clean with water or a non abrasive detergent, then wipe dry with a clean cloth.

The wash-basin and mixer tap should be wiped clean with water or a non abrasive detergent.

Wash-basins in ceramic are resistant to most chemicals, except for strong acids and strong alkalis.

Wash-basins made of crushed marble should not come in contact with ammonia, acids, strong detergents, hair dye or chlorine.

10

The GODMORGON bathroom series has a 10-year guarantee. Read more in the guarantee brochure for IKEA Bathroom.

### Everyone deserves a good morning

With the GODMORGON bathroom series you can create a well-organised bathroom that gives the whole family a calm start to the day – even if the bathroom is small. It is also made to withstand humidity thanks to a smart technique using vertically-wrapped foil. You can even get double wash-basins and mixer taps that save both time and water if you have a big family. There's also plenty of room for storage. Everything from drawers with removable dividers to shallow wall and mirrored cabinets that give you a good overview. And it's easy to buy, because the wash-stand and drawers come in one complete package. All you have to choose is the wash-basin and the mixer tap.

# How to choose

1. Start planning your bathroom by thinking about the wall space you have available for a wash-stand and wash-basin, since this is the centre of most bathroom activities. The GODMORGON series comprises wash-stands of different sizes and storage capacities. After you have decided on the size of the wash-stand, you can choose between different colours and finishes and find the one that suits both your needs and style. The wash-stands can be mounted to the wall with or without supporting legs. The drawers in GODMORGON wash-stand are smooth running and pull out fully so you can easily see and reach what's inside. Pull-out stops prevent the drawers from being pulled out too far and falling, which is especially practical if you have children. Removable dividers inside the drawers let you customise the space according to your needs. You can even maximise the storage inside the drawers by adding one of GODMORGON transparent boxes that fit the drawers perfectly and keep all your jewelry, make up, brushes, tubes and bottles organised. Along with all the smartness of GODMORGON drawers they are also easy to assemble.
2. IKEA wash-basins come in different sizes and materials. You can choose a single, double or countertop wash-basin, depending on your needs and space. The wash-basins are made of ceramic or crushed marble. Ceramic wash-basins have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable. Crushed marble is comprised mainly of crushed minerals with binding agents. Crushed marble wash-basins are smooth, durable and easy to clean. All wash-basins come with a water trap and strainer. The water trap is flexible and can be connected to both washing machines and dish-washers.
3. You can find a wide selection of wash-basin mixer taps at IKEA. Choose your tap based on function and design. All taps come with a strainer kit, with the exception of SALJEN. All taps at IKEA have a flow regulator that uses 50% less water but ensures that the water flow feels the same.

Most of our taps have a special function – a cold water start that helps you save energy. Usually, you turn on an ordinary tap by lifting the lever straight up, which releases both cold and hot water. But often, the hot water does not reach the entire way out and stops in the pipes. When you lift the lever straight up on a tap with a cold water start function, only cold water is released, which reduces any waste of hot water. To release the hot water, you lift the lever to the left.

4. Now it's time for you to choose what to put above and around your wash-basin: mirrors, mirror cabinets, high cabinets, high cabinets with mirror door, wall cabinets. The combination possibilities are endless. Make your choice based on your bathroom storage needs, space and style preference as GODMORGON is now available also in the traditional style, you can find it under GODMORGON Kasjön name.
5. If you want a different expression in your bathroom you can choose to combine GODMORGON wash-stand with TOLKEN counter-top and TÖRNVIKEN and KATTEVIK counter-top wash-basins. IKEA bathroom counter-tops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in 5 different sizes that match GODMORGON wash-stands perfectly. Choose the look that suits you and your bathroom best.
6. Finally, you can complete your bathroom with furniture from the BROGRUND and KALKGRUND series, which make it possible to create smart and functional open storage solutions. They're designed in size to match GODMORGON so the look in your bathroom will be totally coordinated.
