51 depth – 36 kg

Max. load for
ELVARLI clothes rails
40 cm – 15 kg
80 cm – 30 kg

Max. load for hook 4 kg

Assembly

Important: 2 people are required to assemble this furniture safely.

Secure it!

Furniture that tips over can cause serious injuries and children are more at risk. Prevent tip over accidents by securing the furniture to the wall, using the tip over restraint provided with the product. For more information visit [IKEA.com.au/secureit](https://www.ikea.com.au/secureit)

For storing clothes and shoes, ELVARLI is a flexible and beautiful open storage system with its modern white lines and durable bamboo shelves. Whether you take home a ready-made combination we've already planned or create your own solution, you get custom organisation for your bedroom, hallway, living room or home office. Its click-in function makes it easy to assemble, disassemble and rearrange.

With ELVARLI, you choose a base: a ceiling-anchored post or a wall-anchored side unit. Then you add interiors – clothes rails, drawers, shelves, shoe shelves – to suit your storage needs. There are handy hooks available, too!

The choice is yours with ELVARLI. See everything at once with open shelves. Or go hidden with shelves and soft-closing drawers. Hang a lot of clothes or none at all. Whatever you choose, you can always adapt or extend ELVARLI if you change your mind, needs or address!

Prices in this buying guide are valid at 1 September 2022, and are subject to change. All of the products shown here may not be available at the store. Please check [IKEA.com.au](https://www.ikea.com.au) or in-store for more details and current pricing. All units require assembly.

How to plan

What do you want to store?

Sort through all the clothes you own. Count how many pieces you want to store in each category like shoes, dresses, sweaters, trousers, etc.

How much space do you have?

Determine where you want your open storage solution. Sketch out the space, measuring from the floor to the ceiling and between the walls. Take detailed measurements, note any windows or doors and allow for opening and closing doors. Consider any radiators, pipes, ventilation or other features that could affect your storage solution.

Want a ready-made combination?

Browse the ready-made combinations in this buying guide and more solutions at www.IKEA.com.au. Our in-store sales staff can help you compile a picking list of your chosen combination to guide you through the Self-Serve area. They can also help you with other services such as home delivery and assembly.

Want to create your own solution? Use the additional information provided in this buying guide to follow these simple steps:

1. Pick a base

ELVARLI can be made using a wall-anchored side unit (1) or a ceiling-anchored post (2) as a base. The post height is adjustable between 222 cm to 350 cm. Each post includes two fittings which enable interiors to be mounted also on the extendable part. The side unit is 216 cm high. Remember! Every post must have brackets for each interior that you add (except for the clothes rail). Every side unit must have a cross-brace.

2. Choose the interiors

Clothes rails, shelves, inserts, drawers and shoe shelves are the ELVARLI interiors. Choose a combination of interiors to solve your specific storage needs. All interiors are available in two widths (40 and 80 cm) and two depths (36 and 51 cm). Remember! Although an insert can be used on its own as a compartment for boxes or folded clothes, every drawer must have an insert.

3. Calculate the width

Make sure your solution will fit in your chosen location. Whether you use posts or side units, you will need to allow for extra width. Calculate the width of your storage solution using the information on page 3.

①

②

TIP! Organise and maximise

Complete your new storage solution with boxes and inserts from our extensive range of interior accessories. They help you get even more organised so everything is easy to find. Check out our favourites on page 9.

How to build

How to calculate the width of an open storage solution

Widths of interiors (clothes rails, drawers, inserts, shelves, shoe shelves): 40 cm and 80 cm.

ELVARLI with post:

If you are planning your ELVARLI storage solution with post, you need to allow 3.4 centimetres for the width between sections and 5.8 centimetres for first and last post.

ELVARLI combination with side unit:

If you are planning your ELVARLI storage solution with side unit, you need to allow 2.2 centimetres for the width of the outer side units and 0.4 cm for the width of the middle side units.
