INTEGRATED KITCHEN LIGHTING

Good, functional lighting
Lighting is important in all kitchens, both for safety and appearance. Good, even lighting across your countertop makes cooking and other kitchen chores safer, easier and more fun. And spotlights, cabinet lighting and drawer lighting doesn’t just help you to find what you’re looking for, but adds a decorative element to your kitchen.

At IKEA, we have two series of integrated lighting: OMLOPP and STRÖMLINJE. The OMLOPP and STRÖMLINJE series has a slim design and is easy to install. If you like, you can combine the series to fit your needs. Add the TRÅDFRI remote control or wireless dimmer to dim, and set the mood for every occasion. Add the TRÅDFRI gateway to control OMLOPP and STRÖMLINJE from the Home smart app in different ways together with other TRÅDFRI lighting in your home.

Requires assembly.

HOW TO PLAN

Planning or updating your kitchen?

No kitchen is complete without good, functional lighting. That’s why it’s a good idea to include lighting when you’re planning and buying your kitchen. It makes it easier to install and saves you lots of time and effort. But what if you just want to improve the lighting in your current kitchen? Don’t worry, we have solutions for that, too.

Remember that all kitchens are different—plan after your own needs! Start by deciding where you want lighting in the kitchen. Then decide which lighting will suit you and your kitchen best. Start by choosing your preferred countertop lighting. Then add spotlights, cabinet lighting and drawer lighting. Check out our offer below:

**Countertop lighting**

At IKEA, we have 2 integrated lighting series—OMLOPP and STRÖMLINJE. All give you task lighting, and mood lighting. You save energy too, since these lights use LED, which consume 85% less energy and last up to 20 times longer than a regular incandescent bulb.

**USE:** OMLOPP, STRÖMLINJE.

**Spotlights and cabinet lighting**

Spotlights are a decorative and functional choice for wall cabinets with glass doors. They make it easy to look inside your cabinets and brighten up your kitchen at the same time.

Cabinet lighting is easy to choose, as it comes in different versions to match both modern and traditional styles.

**USE:** OMLOPP, URSHULT, LINDSHULT.

**Drawer lighting**

OMLOPP drawer lighting switches on and off as you open and close your drawers. No more hide and seek with your kitchen equipment!

**USE:** OMLOPP.

**OMLOPP OR STRÖMLINJE?**

* TRÅDFRI LED driver for wireless control is sold separately.
** The light output is per 15” (38 cm) countertop lighting; for the other sizes see the price tag.

Remember to plan where you need electrical outlets or power supply before you start to install your kitchen.
OMLOPP COUNTERTOP LIGHTING

HOW TO BUILD

OMLOPP countertop lighting is easy to install by yourself. See the list below for all parts and accessories that you need.

- Start by choosing the number of OMLOPP lighting strips that you need.
- Add the correct TRÅDFRI LED driver for wireless control: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the Home smart app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
- Add the power supply cord.
- Add the TRÅDFRI remote control to dim your lighting. Pair the remote to the driver(s) and the entire combination will dim at the same time.
- If you want, you can complete the system with other products, like spotlights, drawer lighting or cabinet lighting.

Basic parts

OMLOPP LED countertop lighting
Length: 15, 18 and 24” (38, 46 and 61 cm)
Colour: white.

TRÅDFRI LED driver for wireless control
Power: 10W/30W.

ANSLUTA power supply cord
Length: 11’6” (3.5m)

TRÅDFRI remote control
Colour: white.

Installation accessories

ANSLUTA intermediate connection cord
Length: 28” (0.7m) or 79” (2m).

TRÅDFRI gateway

COMBINATION

Total length of lighting combination: 24 + 33” (61 + 84 cm)

This combination $122.98

To find the power consumption (W) for each product, see All Parts and Prices on page 9.
STRÖMLINJE COUNTERTOP LIGHTING

HOW TO BUILD

STRÖMLINJE LED countertop lighting is really simple to install on your own. Since the units connect directly together with the 2 small connecting fittings, there are less cords to keep in order.

- When you start building your system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 24” (60 cm), you’ll need 2 units which both have a width of 12” (40 cm).
- Add the correct TRÅDFRI LED driver for wireless control: 10W or 30W. See page 8 for more information about the drivers.
- Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the home smart app in different ways together with other TRÅDFRI lighting in your home.
- You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
- Add the power supply cord.
- Add the TRÅDFRI remote control to dim your lighting. Pair the dimmer to the driver(s) and the entire combination will dim at the same time.
- If you want, you can complete the system with other products, like spotlights, drawer lighting or cabinet lighting.

Basic parts

STRÖMLINJE LED countertop lighting
Length: 6, 12, 15 and 18” (15, 30, 38 and 46 cm)
Colour: white

TRÅDFRI LED driver for wireless control
Power: 10W/30W.

ANSLUTA power supply cord
Length: 11’6” (3.5m)

TRÅDFRI remote control
Colour: white.

Installation accessories

ANSLUTA intermediate connection cord
Length: 28" (0.7m) or 79" (2m).

TRÅDFRI gateway

COMBINATION

Total length of lighting combination: 30 + 33” (76 + 84 cm)

This combination $217.98

To find the power consumption (W) for each product, see All Parts and Prices on page 9.
SPOTLIGHTS AND CABINET LIGHTING

HOW TO BUILD

• Start by choosing all parts that you need.
• Add the correct TRÅDFRI LED driver for wireless control: 10W or 30W. See page 8 for more information about the drivers.
• Add the TRÅDFRI gateway to control TRÅDFRI connected lighting from the Home smart app in different ways together with other TRÅDFRI lighting in your home.
• You can connect up to 10 TRÅDFRI LED drivers in one installation using the intermediate connection cord.
• Add the power supply cord.
• Add the TRÅDFRI remote control to dim your lighting. Pair the dimmer to the driver(s) and the entire combination will dim at the same time.

Basic parts

OMLOPP LED spotlights or LED cabinet lighting*
Diameter, round spotlight: 2 ⅝″ (6.8 cm).
Length, rectangular spotlight: 8″ (20 cm).
Colour: white, aluminium and black.

TRÅDFRI LED driver for wireless control
Power: 10W/30W.

ANSLUTA power supply cord
Length: 11′6″ (3.5m).

TRÅDFRI remote control
Colour: white.

* You can also use URSHULT and LINDSHULT
For measurements, see All Parts and Prices on page 9.

Installation accessories

ANSLUTA intermediate connection cord
Length: 28″ (0.7m) or 79″ (2m).

TRÅDFRI gateway

There are two TRÅDFRI LED drivers for wireless control. Choose based on how many units you want to connect. You can connect up to 3 units to the 10W LED driver, as long as the total wattage does not exceed 10W. The 30W LED driver can support up to 9 units, max. wattage 30W. You can connect up to 10 drivers in one installation cord. Flashing lights indicate that the maximum wattage of the LED driver is exceeded. If you want to use more than one LED driver, make sure to synchronise each LED driver with the TRÅDFRI wireless dimmer so that the entire combination can be dimmed at the same time. Make your kitchen lighting smart by adding the TRÅDFRI gateway. With the gateway, you can control your lights from the Home smart app and create a mood together with your other TRÅDFRI lighting.

To find the power consumption (W) for each product, see All Parts and Prices on page 9.
HOW TO INSTALL

OMLOPP
You need to add a TRÅDFRI LED driver for wireless control and a power supply cord. Add an intermediate connection cord if you’re using more than one driver.

STRÖMLINJE
You need to add a TRÅDFRI LED driver for wireless control and a power supply cord. Add an intermediate connection cord if you’re using more than one driver.
DRAWER LIGHTING

HOW TO BUILD

• Start by choosing all parts that you need.
• Add the ANSLUTA LED driver with cord 19W. See page 8 for more information about the drivers.
• You can connect up to 6 units to the LED driver, as long as the total wattage does not exceed 19W.
• The lighting strip has a motion sensor, so that the light turns on and off automatically as you open and close the drawer.

Basic parts

 OMLOPP LED lighting strip for drawers
Length: 14, 17, 23, 29, and 34" *34.3, 42, 57.2, 72.4, and 87.6 cm).
Perfect for your 15, 18, 24, 30, and 36" (40, 45, 60, 80, or 91 cm) SEKTION cabinets.
Cord length: 11'6" (3.5 m)

 ANSLUTA LED driver with cord
Power: 19W.

How to connect

Buy a separate ANSLUTA 19W LED driver for your drawer lighting. It will be easier to install.

* OMLOPP drawer light installation should always follow applicable and local codes in your city and province/territory.

To find the power consumption (W) for each product, see All Parts and Prices on page 9.
