Flexible toy storage you can adapt to your needs

Children need room to play and good storage for their toys, so they can find what they're looking for and tidy up when they're done. That's why we made TROFAST a flexible series of sturdy wooden frames and lightweight, removable plastic boxes that your child can easily slide out, carry and put back again all on their own.

TROFAST frames come in different finishes, shapes and sizes. The TROFAST boxes come in different colours and sizes for storing and organizing all types of toys, from bigger building blocks to doll's clothes. There are even shelves that fit in the frames, so you can create open storage for books and display.
Combinations

You can use the frame both for toy storage and as seating furniture. Remember to always secure furniture more than 60 cm (23½") high to the wall.
