We just can't help ourselves – we keep coming up with new ideas.

Sometimes it's a clever solution to help you make space for what you love. Other times, a pattern we can't resist using on your next favourite cushion. We also love dreaming up ways to celebrate the cosiest season of all. Why not pink instead of orange for autumn? Or Halloween decorations so cute you'll want to re-use them next year?

Can that pouffe double as storage? Can that lamp come in a flatpack? Can we stack those stools? Yes, yes, and yes. See? It wouldn't be fair to keep these ideas to ourselves. That's why whoever you are, whatever your home looks like, you will always find something new at IKEA.

Ready,
set,
party!

My first housewarming

Celebrate your very own home sweet home with a party that says: “It’s a small place, but it’s mine!”. With stackable dinnerware, stools, and chairs, you’ll be amazed at how many people you can squeeze in. And the post-party clean-up? Totally a tomorrow problem.

There's always room to celebrate

... especially when you have new dinnerware to show off. The new SPJUTLILJA serving set includes a mug for hot or cold beverages, a bowl perfect for dumplings, noodles and soups, and a deep plate ideal for pasta, risotto, and other saucy meals. Nom nom.

If you like
SPJUTLILJA, invite
its best friends to
the party!

Stack up the fun

More seats, less clutter! That's the motto of our GULTARP stool. Can stools have mottos? We think they can. Thanks to their soft padding, these little guys make extra seating feel like a joy, not a punishment. Stack them up – they'll take up very little space in the room (and maybe a little space in your heart).

From cot to bed – and everything in between

Wrapped in comfy textiles in a room showcasing a warm traditional style, both cot and bed become cuddle-and-snooze favourites. And sometimes, your little one starts out in the cot and wakes up in bed – now that's one sneaky nighttime move!

Cot sleeping
or co-sleeping?

SÄTERVIDE | Designer, Monika Forsberg

An intricate pattern with peaceful vibes

Whether it's a lazy morning or a messy nighttime routine, style your bed with the elegant and timeless floral pattern of the new SÄTERVIDE duvet cover. For extra cuteness, get the matching look for your little one's cot!

“The starting point for this pattern came from memories of my friend’s grandmother’s textiles in her small cottage in Halland. While creating it, I looked back to traditional Swedish folk painting and to the world of Carl Larsson and Karin Larsson. I wanted to find a symmetrical floral pattern that speaks of Scandinavian traditional style yet also works in a modern context of home furnishing.”

Monika Forsberg, Designer

Add a splash of 'I did it myself'

Pre-cut fabric can be your best buddy when it comes to adding that little wow factor to your room. The stripy pattern on our new KORALLBUSKE pre-cut fabric is refreshingly simple and adds just the splash of colour your bedroom has been waiting for.

**My
room,
my
rules!**

A world within the bedroom

Homework, exams, deadlines... school can be intense. But when the books close, the bedroom becomes a teenager's hideout. It's where headphones go on, playlists set the mood, and the evening shifts to catching up with friends. Because growing up isn't just about schoolwork – it's also about creating a space that reflects your style and passions.

Comfort with a side of style

Add a bold touch to your bedroom with the iconic stripes and striking colours of the new SLÅNHÖSTMAL duvet cover. Because comfort and durability feel even better when they look this good.

Breathe in. Chill out.

We know how much you love spending time in your room, but after a while the air can get stuffy. The new UPPÅTVIND cleans indoor air from harmful particles and pollen, so you can breathe cleaner, fresher air and keep the good vibes flowing.

“My idea with UPPÅTVIND was to create an air purifier that is small enough to carry around – and feels less technical in its expression. That’s why it has soft colours and a textile handle that adds a tactile, home-furnishing feel.”

David Wahl, Designer

What do sunflowers and recycled polyester have in common?

This cushion cover! It's got a beautiful floral pattern and a super soft feel you'll love. Plus, it's made from 100% recycled polyester, so it's easy to care for and even easier to feel good about.

"Sunflowers are a classic motif in art and design - symbolising summer, warmth, life force, and beauty. In my interpretation of these vibrant flowers, I aimed to create a pattern with a unique identity that, thanks to its blend of modern and traditional elements, feels both fresh and familiar."

Emma Prowse, Designer

Keep it bright

Why settle for a lamp when you can have a fun lamp? The new KORVSNÖRE LED desk lamp is here to brighten up your reading, studying and chilling with its dimmable light and seriously cool design.

Desk lamp or wall lamp, that is the question.

A glimpse of autumn vibes

Calling all autumn lovers! We know you're missing your favourite season, so why wait? Embrace that snuggly, cosy vibe and dress your home in rich colours and heartwarming patterns.

We
love
summer,
but...

You know what your bedroom needs

Turn your room from ‘nice’ to ‘my favourite spot in the whole world’ with a bold, vibrant pattern on your duvet and pillows. The new VIDEOXBÄR set combines cotton, lyocell, and undeniable style to give your bedroom the perfect upgrade.

What does time sound like?

Don't ask the new FLODKRÄFTA clock – its minimalist cork design hides a silent quartz mechanism, so no ticking sounds here. Looks like you'll have to deal with the snores instead.

Who cares about flowers

... when the vases look this good? With their stoneware design and glossy finish, our new vases feel more like works of art than just containers for something else.

Autumn's cooler

Moodier than summer, richer in colour and unapologetically dramatic – autumn's got taste. This season, we're letting you in on the insider secrets of fall styling.

From setting the table for cosy gatherings to giving your porch an autumn glow-up, find plenty of tips to bring the best of the season into your home – with all of nature's charm and none of the muddy shoes.

Add a touch of whimsy

Bring the magic of the woods to your table - minus the rain and muddy boots. Charming mushroom decorations, twinkling fairy lights, and hints of autumn foliage (with a friendly moose roaming by) set the scene for a gathering to remember. The result? A warm, feel-good table straight out of a fairy tale.

Create an autumn table straight out of a fairy tale

Our interior designer shares three practical tips on how to bring a little woodland magic to your table:

1. Add a little nature

Mix autumn decor (these mushroom decorations are just perfect!) with foraged finds from your own backyard for a rustic feel.

2. Play with height

Layer lanterns, candles and decorations in different sizes to create depth and a cosy, collected look.

3. Stick to a seasonal palette

Earthy napkins add warmth, while deep green plates and gold cutlery bring just the right amount of contrast.

Pink is the new orange

Not into classic autumn orange? Go with pink, burgundy and red for a modern, seasonal table. Mix different patterns (tablecloth and tray) with solids (napkins and tableware) while sticking to the same colour palette for a calm and curated look.

**Golden accents
elevate the overall
look and add a bit
of sparkle.**

Autumn's a vibe

This cosy corner makes staying in the best plan of the season. Earthy colours, soft textiles, and gentle lighting set a calm and inviting mood. Add scented candles, grab a warm drink, and fully commit to JOMO (Joy Of Missing Out). No regrets.

Hello, cosy season

Give your porch an autumn glow-up that feels warm, welcoming, and a just a little bit show-offy. When it comes to autumn, more is definitely more – layer pumpkins, lanterns, potted plants, and wreaths to reach peak cosy.

**Pile on the wreaths
and flowers for
#porchgoals**

James Dart, Designer
