Welcome to February at IKEA

This February is about boosting the energy in your everyday life. We’re celebrating diversity and finding new ways of coordinating. With a big chunk of humour, the launch combines joyful colours with bold and graphic patterns inspired from 1960s.

We’re introducing a large selection of textiles, from duvet covers and towels to curtains. Even the younger family members can delight in a baby soft toy collection and a textile collection for teens. On the storage front, there are chests of drawers, fabric boxes and accessories for an existing wardrobe system. We’re also launching some pendant lamps and exciting rugs for a design statement. Among the smaller products, a new stationery series invites creativity to the desk with its colourful, playful style. Overall, it’s hard not to smile.
**SOMMARASTER duvet cover**

Cosy up and disappear in the retro-styled flowers of SOMMARASTER duvet cover. Inspired by the Swedish 1960s, the pattern is designed by Emma Hagman from Studio Kelkka and brings a feeling of spring to the bedroom. The duvet cover is made from 100% cotton grown with care. All our cotton products, whether a towel or a bed sheet, are made from more sustainable cotton. We believe that you shouldn’t have to compromise on price, quality, design, function or sustainability when making a choice.
NORDMELA chests of drawers

Storage needn’t be a complicated thing. With NORDMELA chests of drawers, you have a solution that works across the home as they can easily change room and purpose. These storage chameleons can also be added as extra storage to an already existing solution. Available in black-blue, the lower chest of drawers even works as a storage bench to sit on.
Store your clothes in different ways — NORDMELA chests of drawers offer both hanging and folded storage.
SANDVILAN hand & bath towels

Embrace the retro trend this season and go flower power in the bathroom, by the pool or beach. SANDVILAN towels come in three sizes and are woven in jacquard – making the towels thick, soft and highly absorbent.

They’re made from 100% cotton grown with care, meaning all our cotton comes from more sustainable sources. So you can feel good about having contributed to the well-being of cotton farmers and their families, and a less polluted world as all cotton at IKEA is grown with less water, fewer fertilizers and pesticides while increasing profit margins for the farmers.
**TISKEN** bathroom accessories

Make the most of a bathroom without making holes in the tiles. TISKEN bathroom accessories add great functions to the bathroom using suction cups, so no drilling is needed. From a soap dish or toothbrush to a towel rack, and a basket that can hold up to three kilos, here are all functions for simple storage solutions in the smallest room.
TISKEN bathroom accessories help you make the most of the bathroom without making holes in the tiles – from hooks to a toilet roll holder.
GRÅTISTEL net curtains

Net curtains are great for letting daylight into your home. GRÅTISTEL net curtain has a unique expression made with a material resembling those worn in summer sports. Use the curtain to filter through light, or layer a few of them together for a greater punch of green.

PH157387 GRÅTISTEL net curtains, 1 pair. 145×250cm. Green $14.99
GRÅTISTEL net curtains, 1 pair. 145×250cm. Green $14.99
ROSALILL curtains

Renew your home with a colour that gives some energy. ROSALILL curtains are bright eye-popping red with a discreet white grid pattern. The curtains provide privacy while also letting daylight through and helping you feel connected to the world outside. They’re a super-easy way to add vibrant personality to the room.
FRAMKALLA tray

Serve your guests with a playful retro pattern. FRAMKALLA tray is part of a larger dinnerware family with squiggles, specks, dots and stripes. Mix and match with other members in the same series, or with single-coloured dinnerware and refresh a table setting in an easy, affordable way.
For a complete retro feeling, mix and match FRAMKALLA tray with other members in the same dinnerware family.
RÖNNINGE chair

With a timeless Scandinavian design heritage, RÖNNINGE chair is created to never go out of style. Made with solid wood, it's designed with comfort in mind having a scooped seat and sturdy design. In fact, the design is so durable that the chair has been approved for public use globally, passing our toughest quality tests.
Crafted in solid wood with a scooped seat and angled back, RÖNNINGE chair is designed with comfort in mind.
**GRIMSÅS pendant lamps**

Transform a room’s walls into a delicate play of light and shadows with GRIMSÅS pendant lamps available in two versions. Featuring a globe of white flowers or a yellow starfish version, the lamps are designed by Marcus Arvonen together with Lisa Hilland or Bea Szenfeld, respectively. The lamps combine strong design with a soft, beautiful lighting experience.
The delicately cut shapes of GRIMSÅS pendant lamps give decorative patterns on the ceiling or wall.

SVALLERUP rug

Give your floor some symmetry with SVALLERUP rug – it’s classic, soft and monochrome. Made of a material that’s long-lasting and won’t shed, this grid rug even stands the grit of the outdoors. And if that wasn’t enough, it’s double-sided which means an extended lifetime. Designed by London-based Kangan Arora whose signature is her use of pattern and abstraction, this is an easy-care flatwoven rug for a modern look.
Use it indoors or outside, SVALLERUP rug is double-sided giving it an extra life and extra expression.

KLAPPA baby toy collection

Look, touch, push, lift - the new KLAPPA baby toy collection is designed to help babies develop their senses through colours, shapes, touch and sound. For example, there’s a baby gym promoting eye-hand coordination as the baby grabs for the hanging ladybird or stretches towards a mushroom. Every product in the series has a different theme, like the baby gym has a forest world, the play mat is like a seabed and the mobile shows planets in space. The designer Malin Unnborn wanted to find specific details that could create curiosity and lead to play:

“For example, for the picture book and the ball I used colours with strong contrasts and fabrics with different structures, such as glossy and matte, soft and rough.”

On the play mat, Malin made shark fins and other details that stick out just enough for small and curious fingers to pinch them. Other products include a comfort blanket with a soft toy and a musical toy caterpillar.

As much as IKEA loves colourful products for children, we do not allow dyes that are known (or even suspected) to be carcinogenic or allergenic, e.g. disperse dye, direct dye, basic dye or azo dyes. So parents can rest assured that our new KLAPPA baby toy collection is safe, soft and stimulating on a baby’s journey of discovery.

MÖJLIGHET children’s textiles & accessories

A big part of the life of tweens and teens revolves around their bed. It’s a spot to hang out with friends and a place to recharge and recover. With bold colourful patterns, MÖJLIGHET children’s textiles and accessories can play a part by adding some attitude and identity to the bed. Made from cotton or a cotton/lyocell mix, the bed linen feels soft against the skin, while the sleeping temperature remains comfortable during the night as lyocell absorbs and transports moisture away. Of course, our products are tested and contain no substances, phthalates or chemicals that could harm your child’s skin or health.

Other accessories in the collection include a headset/tablet stand which provides a home for headphones, mobile phones or tablets. It’s perfect to place in a bookcase or on a desk or bedside table.
MÖJLIGHET duvet cover is available with a graphical pattern in pink or blue, as well as a white mosaic pattern, while the headset/tablet stand comes in red or black.
RABBLA boxes

Let storage organizers be practical, beautiful and more sustainable. Our new RABBLA boxes tick all the boxes! They’re flexible and stackable so ideal inside a wardrobe or for use as open storage. They can even be used in the bathroom as they withstand moisture. Available in a variety of sizes, the lower box has compartments where you can sort and store small items like socks, jewellery and hobby items.

Made of bamboo and recycled polyester, the boxes make for a more sustainable choice. By using less new raw material, the environmental footprint is reduced, while bamboo is a fast-growing, strong material that needs no pesticides when grown.
Being moisture-proof, RABBLA boxes with compartments are ideal for storing bathroom essentials.
ÄDELHET candlestick/tealight holder set

Lighten up the day with the fun ÄDELHET candlestick/tealight holder set. The three holders of different heights are made in coloured aluminum with a slice of geometry on the side. They’re stackable, so it’s easy to store them away when not in use.
