## Care instructions

Assemble according to the assembly instructions and secure the correct wall attachment with the correct components. Keep in mind that different wall materials require different types of wall fittings. If you are uncertain, contact your local hardware specialist.

Check regularly that all assembly fastenings are properly tightened and retighten when necessary.

Tempered glass shall be handled with care! A damaged edge or scratched surface can cause the glass to suddenly crack or break. Avoid bumps from the side – this is where the glass is most vulnerable.

Tempered glass is 4-5 times stronger and more resistant to breaking than regular glass. If it breaks, it shatters into many granular pieces to reduce the risk of injury.

Follow the recommendations regarding max. load on each part of the furniture.

Wipe clean with a damp cloth. Wipe dry with a clean cloth.
