STUVA
Storage system

SAFETY
Safety is our top priority! We always perform risk analysis and test our children’s furniture to ensure the pieces are suitable for children. Children rarely do what you expect them to do. They climb, jump and play with things in ways that are often difficult to foresee. For that reason always use the enclosed safety fitting, to anchor the furniture to the wall, to prevent it from tipping over.

CARE AND CLEANING
The frames and fronts can be cleaned with a cloth dampened in a mild cleaner and dried with a clean, dry cloth.

Requires assembly.

Children’s furniture that’s made for change
Children grow fast, but they don’t have to outgrow their furniture. We designed the STUVA system to adapt to children’s changing needs. The series includes a crib, changing table, bench, chest of drawers, wardrobes, loft bed, interiors and more. You can make your own solution or choose a ready-made combination—and add on at any time. With a timeless style in several colours, STUVA is a flexible, functional solution that lasts for years of sleeping, playing, learning and growing!
STUVA GROWS WITH YOUR CHILD

Smart solutions for limited space
Children grow, but their space at home doesn’t always get bigger. STUVA maximizes space with multifunctional pieces that can transform, too. With STUVA loft bed, you can completely furnish a child’s room with a desk, wardrobe and open shelf unit. Other pieces like STUVA changing table grow with your child to become a play table and a study desk.

Endless possibilities
STUVA is a super flexible system. You can choose frames, doors, drawers and interior fittings to create a combination that suits your child’s needs and your space. If you don’t want to build from scratch, we have a selection of ready-made combinations, so you can choose one to bring home today!

Designed for children
STUVA system is designed with children in mind! Everything’s at child height, so they can reach their toys and clothes while learning to keep their things tidy. We even think accident prevention and include features like smooth edges and rounded corners so children don’t hurt themselves.
HOW TO BUILD

Width×Depth×Height.

With FRITIDS fronts—soft closing hinges and 5 colours to choose from

White, red, light blue, light pink, and blackboard—FRITIDS fronts are available in these colours in all sizes. You and your child can choose your favourites. FRITIDS fronts are fully closed and have soft-closing hinges, too, so doors close silently without a slam.

STUVA GRUNDLIG interiors are adjustable, so you can place them where they’re easy to reach and adjust them as your child grows. One shelf is needed as a divider between the shelf unit and the drawers in the storage solutions.

Size: 300×50×128 cm (118⅛×19¾×50⅜").

For young children it’s very important to be more independent. Hanging clothes makes it easier for children to find what they’re looking for on their own. The right height creates good storage which a 3-year-old can reach, and makes it possible for the child to remove clothes and hang them back up without help from an adult. Perfect for both dress up costumes and regular clothes.

Size: 60×50×128 cm (23⅝×19⅝×50⅜”). Included interiors: 1 clothes rail, 1 shelf and 1 wire basket.

**STUVA LOFT BED**

Width×Depth×Height.

**STUVA loft bed with desk and storage**

STUVA loft bed offers different assembly possibilities, illustrated below. You can add doors, drawers and interiors according to your needs. The desk comes with cable management and the anti-slipping steps on the ladder have space allowance that enable the child to place their hands around each individual step. At the top of the ladder are there two handles which makes it easy to climb up and down.

- Bunk and loft beds are recommended for children from the age of 6 years.
- Minimum ceiling height required: 240 cm (94½").
- We recommend to use a mattress that is max 21 cm (8¼”) thick.
- The ladder mounts on the right side of the bed only.

**Desk parallel to the bed and access to the wardrobe doors from the outer side.** You can assemble STUVA loft bed in a way that the desk fits perfectly under the bed. In order to do so, place the doors of the wardrobe on the outer side of the loft bed.

**Desk perpendicular to the bed and access to the wardrobe doors from the outer side.** If the space at your disposal has no restrictions, you can assemble STUVA loft bed in a way that the desk is perpendicular to the loft bed and the wardrobe doors can be accessed from the outer side.

**Desk perpendicular to the bed and access to the wardrobe doors from the inside.** If the room is narrow, you can assemble the desk so that it is perpendicular to the loft bed. In this way, both desk and wardrobe can be accessed from the same side.

**Desk free standing from the bed.** You can even have the desk free standing by adding two ADILS legs from IKEA range.
