### You choose the style

When you buy a POÄNG armchair, you choose everything yourself, except the comfort—it's always included! You get a style that's all your own by freely combining frames in different wood types and finishes and cushions with fabric or leather covers. If you want a change, you can always buy an extra cushion—they come with covers in several different colours, patterns and materials. The fabric covers are removable and most are machine-washable.

### Comfort in harmony

Design and comfort come all together in a POÄNG armchair. The layer-glued, bent wood frame follows the contours of your body and supports your neck and lower back. The material in the frame gives the chair a light, pleasant and relaxing springiness. Complement it with the footstool that is specially designed to ensure you sit in a comfortable position. If you want to really rock, choose the rocking-chair in the same series.

# Good to know

## Our fabrics have been tested

At IKEA, we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home—and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

## Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns, and a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light fastness (0-6)
Lysed: 100% polyester. Soft brushed microfiber in a tonal melange.	Machine washable at 40°C.	25.000	5
Hillared: 55% cotton, 25% polyester, 12% viscose/rayon, 8% linen.	Machine washable at 40°C.	30.000	5
Vislanda: 100% cotton.	Machine washable at 40°C.	25.000	5
Knisa: 100% polyester*, plain weave.	Machine washable at 40°C.	40.000	5-6

Glose: Soft, dyed-through 1.1 mm thick grain leather that can withstand both wear and tear and strong sunlight as it's treated with a protective fade-resistant coating. Easy to care for by vacuuming regularly and treating with leather cleaner to keep the leather soft, supple and beautiful.

The high back gives good support for your neck. To sit even more comfortably and relaxed, you can use the armchair together with POÄNG footstool.

\* The polyester in this product is made of recycled PET-bottles, therefore reducing consumption of new raw materials and lowering the footprint on the environment.
