

# SYMFONISK

WiFi speaker

Stream via WiFi. SYMFONISK is part of the Sonos wireless sound system that fills as many rooms as you want with great sound.

## Speakers to create atmosphere at home, in every room.

The SYMFONISK speakers are a collaboration between IKEA and Sonos, so it easily integrates with other products from Sonos. You can stream music, podcasts and radio via WiFi without interruptions from phone calls or notifications. The music keeps playing even when your phone or tablet is not nearby. Control each speaker individually to play music in one room and an audiobook in another, or group them and play the same sound throughout your home.

This is a reference guide created to better assist customers when purchasing products. While a high level of accuracy has been sought in its preparation, we cannot guarantee that there are no errors or omissions, nor will we be bound by them. Availability may vary by store. Please see an IKEA co-worker or visit [IKEA.ca](http://IKEA.ca) for more information.

# Good to know

## Why WiFi?

WiFi streams from your network instead of your phone or tablet so you can enjoy music, podcasts and radio without interruptions from phone calls or notifications.

## Apple AirPlay 2

Compatible with AirPlay 2 so you can stream audio directly from your Apple devices.

## Stereo sound

Both the table lamp and bookshelf speakers give amazing mono sound. If you want even more detailed sound, get two identical speakers, such as two WiFi bookshelf speakers, and set them up as a stereo pair. Stereo paired speakers can be in different colors.

## Sonos app

Control the SYMFONISK speakers with the Sonos app.

The services for streaming music vary between different regions, information about your region can be found on the Sonos website. To control this AirPlay 2-enabled speaker, iOS 11.4 or later is required. Apple and AirPlay are trademarks of Apple Inc., registered in the USA and other countries.
