Speakers to feel at home, wherever you are.

Our Bluetooth speakers are designed to fit perfectly with your home's interior and furniture and they have a clear and powerful sound. ENEBY 20 can be completed with a battery so that you can place it wherever you don't have a wall socket. With ENEBY Portable you can listen to great music on the go. VAPPEBY Bluetooth speaker for outdoor use has a built-in lamp and is perfect for your garden parties and balcony dinners.

Good to know

Why Bluetooth®?

Bluetooth® speakers are great for a portable music experience in your home or outside. You connect to the speaker from your phone or from other Bluetooth® enabled devices. By adding batteries to the speakers, they become truly portable and you can enjoy your music anywhere.

Batteries

The rechargeable batteries for our ENEBY Bluetooth® speakers are sold separately. If you choose to use the speakers with the included power cord, you can always add batteries at a later time. The battery for VAPPEBY outdoor speaker lamp is built in and charged via USB.

Recycling

All rechargeable batteries have a limited number of charge cycles. It might be time for new batteries if you need to charge your device more frequently. Just make sure to recycle the old ones.

Spotify Tap

It's easy to play your favourite music from Spotify on VAPPEBY. Just press a button on the speaker and your music will start streaming from wherever you left off. Not feeling that song? Another press plays a different recommendation just for you.
