Decorative mouldings

Decorative mouldings provides the finishing touch to your kitchen. They come in many different styles, but we have something for all or our door and drawer families. Use them to tie your style together, hide lighting or just as a decorative element.

You can choose how to mount them on your cabinets. Below we show the entire range and some different ways of mounting them both above as mouldings and below your cabinet, either wrapped around the whole cabinet or just between your cover panels.

SEKTION cabinets

Modular cabinets that fits your space

What does your dream kitchen look like? How much time will you spend in it and how will you use it? When it comes to kitchens, we're all different. We have different dreams, different needs and different preconditions. To meet this diversity, what could be better than a highly flexible kitchen system with cabinets that can suit everyone, and be planned in everywhere? Whatever the size of your home or family, with cabinets in different sizes, drawers with endless possibilities and interior organizers made to match, you can turn the kitchen of your dreams into the kitchen in your home.

SEKTION interior fittings and organizers

Hidden helpers

With SEKTION interior fittings and organizers, you can get the look you want on the outside without revealing what's inside. The cabinets can be hiding all sorts of kitchen surprises. Behind a door you can find pull-out organizers for your cleaning equipment, organizers keeping all your pots, pans and lids in perfect order, or a great bunch of fully extendable drawers making everything easy to reach. Not to mention drawers inside drawers allowing you to utilize the cabinet space to a maximum. It's really up to you what goes inside your kitchen cabinets.

On the following pages you'll find numerous handy helpers making your daily work in the kitchen so much easier.

Create the perfect combination for your drawers

Less time searching, more time for cooking. Clever inside trays for your drawers keep cutlery and kitchen utensils organised and in place. To really make sure you can see everything in the drawer, complete with drawer lighting. See all kitchen lighting on **page 52**.

Lighting

A brighter kitchen life

Good lighting is an essential part of any kitchen. That's why we offer integrated lighting series perfectly dimensioned to fit our kitchen cabinets. And they all contain long-lasting built-in LEDs which consume up to 85% less energy and last 20 times longer than incandescent bulbs. Having integrated lighting in your kitchen is a great way to show off your favourite dinnerware behind glass doors or in drawers. And, good lighting brings your cabinet doors and countertop to life too.

Get an even better kitchen life with the ability to dim, turn off and turn on light wirelessly. All you need is TRÅDFRI LED driver and remote control. Or, use the TRÅDFRI gateway and Home smart app to control every beam of light with your smart phone. We call it IKEA Smart Lighting.

KITCHEN INSTALLATION

If you want we can install all your kitchen lighting for you, as a part of our Kitchen Installation service. See more on [page 5](#).

Drawer lighting simplifies finding what you need even during those midnight kitchen raids. Opening and closing the drawer turns the light on and off automatically.

Countertop lighting should give you a clean, clear view of all the work you're doing in the kitchen.

Spotlights provide a focussed light that is good for lighting smaller areas and behind glass doors.

Cabinet lighting illuminates your favourite kitchen doors and creates a cozy mood light in the entire kitchen.

Countertops

Your kitchen is the heart of your home, it's a room for everyone! How it performs and how it looks are two important factors. Even though doors and drawer fronts are the main style decision you make when updating your kitchen, your countertop can have a big impact on the overall look. However, the perfect countertop is not just about completing the look of your kitchen, it has an impact on its functionality too. When picking the right countertop there are many factors to consider, including your style, durability, maintenance, lifestyle and cost. Our countertops are available in pre-cut and custom made as well as in durable materials, finishes and thicknesses. Each surface has unique properties, with differing levels of water, wear and heat resistance.

How to choose your countertop:

1

What's your budget?
A stylish look does not have to cost a fortune, our countertops are available in wide range of materials and expressions, pre-cut as well as custom-made to perfectly fit your style, needs and wallet.

2

What kind of material do you prefer? When deciding on material, consider how robust you need your countertop to be, how much you are prepared to look after it, and how you want it to look in your kitchen scheme.

3

Custom made countertops are made-to-fit your kitchen layout, you can order the exact size you need, as well as cut-outs for your sink, faucet and cooktop. Pre-cut countertops are available in different sizes, you can take them home today and cut to desired length.

Built to last

When we test our countertops we put them up against everything they'll face in your kitchen: liquids, oil, steam, heat, thumps, bumps and scratches. Once we're done we're so sure our countertops will last for many years to come.

Materials

Laminate

Laminate countertops are durable, affordable and easy to maintain, with lots of colours and expressions to choose from. Spills and grease are easy to wipe clean and the countertop keeps its beauty over time making it a practical solution.

Wood

Wood countertops offer the natural colour and grain of wood which adds warmth to your kitchen and makes each countertop unique. Normal variations in colour, texture and appearance are due to the size and age of the tree and gives the countertop a personal character. Wood countertops are hard-wearing and can be sanded and treated when needed.

Quartz

Quartz is one of the hardest materials in nature, making the surface extremely durable and scratch resistant. Plus, the surface is smooth, non-porous and easy to keep clean.

Colour overview

We offer pre-cut laminate counter tops in two lengths. Choose between the many colours and expressions to find the perfect look. The laminate counter tops can be cut into the length you need and finished with the edge strip included in the package.

Beautiful and durable

Laminate countertops are durable, affordable and easy to maintain. Spills and grease are easy to wipe clean and the countertop keeps its beauty over time making it a practical solution.

Pre-cut thick veneer wood countertops

Natural and durable, wood brings a warm feeling to your kitchen and makes each countertop unique. It ages beautifully and you just sand and treat it to keep it looking great.

Pre-cut thick veneer wood countertops have a layer of solid wood covering a particleboard core. They feel and look the same as solid wood. With this technique we can create new unique expressions, using less wood and reducing the impact on the environment. We pre-treat them with a hard wax oil, so you don't have to oil them when you get them or treat them at all until the surface starts to wear. They're available to take home today.

Natural and hard-wearing, wood brings a warm feeling to your kitchen and makes each countertop unique. With thick veneer, a 1/8" layer of wood covers a particleboard core to add excellent stability.

Thick veneer countertops come in the following crafted patterns: full plank, butcher-block, fine line and chevron.

The countertops are pre-treated with hard wax oil to create an easy-care surface for immediate use. Over time, it will only look better, gaining in character. They can be sanded and treated when needed meaning that they will age gracefully.

Thick veneer countertops are available in pre-cut sizes that you take home today. They can be cut into the exact length you need and finished with the edge strip included in the package.

Ash

Ash is a blonde hard wood with a beautiful grain pattern. Ash is a tough and strong, yet elastic material with great resilience and finishing properties. It gets gradually darker with age. In its natural form it is heavy and gives a very solid feel.

Birch

Birch is fine-grained and pale in colour with a satin-like sheen that darkens with age. It often has knots or heartwood in creamor light brown which will give your countertop a unique and distinct natural look.

Oak

Oak wood is exceedingly strong, heavy and durable. It is an attractive light colour with a prominent grain. Its colour ranges from light brown to a rich reddish-brown and it darkens beautifully with age.

Walnut

Walnut wood is relatively heavy, hard and resilient. The natural colour light brown to dark chocolate brown adds warmth to your kitchen decor. Walnut gets lighter in colour with age. It has a rich variation in colour and a decorative, curved grain pattern.

How to buy a custom made countertop

1

Material and colour

Choose between laminate or quartz, then choose a colour that makes the kitchen your own.

2

The countertop profiles

Choose the desired profile for the edges. Depending on the material you've chosen for your countertop, you have different options.

3

Choose your sink

Choose the sink you want and if you want it top mounted or under-mounted.

4

Take measurements

Then start to measure to see what size and shape of countertop you need. There is a helpful diagram that shows you how to measure your custom made countertop on page 72 & 74.

5

We're here to help

To design your custom made countertop get help from an IKEA co-worker in the kitchen department at your local store.

6

Order

To order your custom made countertop, please contact an IKEA co-worker in the kitchen department at your local store.

For more product and price information please scan the QR code.

How to measure your countertop

Start by measuring your countertop from the corner where it attaches to the wall. Make sure to make your measurements alongside the wall and always start from the same point. When measuring the depth, start from the wall and measure out. Don't forget to add ½" for an overhang too.

If you need to measure for a freestanding countertop (For a kitchen island for example), simply start from one end and add 1" extra for an overhang.

To measure for a sink start from the same point where you've taken your previous measurements and measure to the centre of where you would like your sink to sit.

We can do it for you

Do you want a custom countertop, but feel uncertain? Don't worry—it's all available.

When your new countertop is ready, we can deliver and install it for you.

White

Our custom-made laminate countertops are available in a wide variety of colours and several edge styles. Laminate countertops are stain, scratch and moisture resistant, making them easy to care for and durable too.

Good to know

Clean using a soft cloth or sponge and warm water with a mild, non-abrassive detergent. Avoid using scouring products.

How to estimate the cost of your PERSONLIG laminate countertop?

Measure the length of each section of counter top. Add these measurements together to get the total amount of countertop length for your kitchen. Multiply this total by the price of your desired countertop per linear foot (lin.ft). This will equal the total cost. Minimum order may apply. See your local IKEA store or ikea.ca for price information.

$A + B + C = X \text{ lin.ft}$
 $X \text{ lin.ft} \times \$X/\text{lin.ft} = \text{total price}$

What is included in the linear foot price:
All mitres, finished ends, build up, sweeps or radius corners. Clean cut backing or backsplash up to 4".

KASKER quartz custom-made countertops

When you choose a quartz countertop you get a work surface that’s extremely durable. It's scratch resistant and can withstand heavy impact. We construct our quartz countertops with natural quartz crystals (one of the hardest materials in nature) and high-quality polymer resins which make the surface smooth, non-porous and easy to keep clean. That means red wine and beetroot stains are a worry of the past. You can also order quartz backsplashes to compliment your countertop.

For information about warranty, terms and conditions, see pages 132-133.

Good to know

Clean using a soft cloth or sponge and warm water with a mild, nonabrasive detergent. Avoid using scouring products.

How to calculate the sq.ft. of your countertop

Measure the length times the depth of each section for your layout. Add the areas together to get the total sq.ft. for your countertop. See your local IKEA store or ikea.ca for price information.

$(A \times D) + (B \times D) + (C \times D) = \text{Total sq.ft.}$

Sinks

A busy place in the kitchen

The sink and the area around it, is one of the busiest places in the kitchen. You use it for everything from preparing food and rinsing vegetables, to storing dirty dishes and washing up. To make the activities as easy as possible, choose a sink and sink accessories that match your needs and the way you work in the kitchen.

How to choose your sink

01

How much space have you allocated for the sink? Our sink cabinets are 24, 30 or 36" wide.

02

Think about how you prepare food, but also how you wash up. Do you have a dishwasher or do you wash the dishes by hand? Do you need one bowl, two bowls or a sink with drainboard?

03

Complete your sink with sink accessories that help you organize the area in and around the sink, both when you prepare food and when you wash up ([see page 125](#)).

PLUMBING

Let a professional connect the water to the sink and kitchen faucet you've bought from us. Then you know that everything from the strainer to pipe are where they should be — and that costly water leaks can be prevented. Read more about our services on [pages 4-5](#).

25

We test our sinks to ensure they can withstand the demand of everyday life in the kitchen. That's why all our sinks come with a free 25-year warranty (except FYNDIG). Find out more on [page 132](#).

Our range of sinks

Single bowl sinks

If space is an issue, one single bowl is a good option. Plus, in a big single bowl you can easily wash large pots and pans. Combine with sink accessories to make the bowl as functional as possible ([see page 125](#)).

Double bowl sinks

Having two bowls is ideal if you have a lot going on at the same time. For example, if one of the bowls is piling up with dirty dishes, you can still rinse off vegetables and alike in the other.

1½ bowl sinks

A one and a half bowl sink gives you the same advantages as a double bowl sink, but in a smaller area.

Sinks with drainboard

A sink with a drainboard is ideal for drying dishes as the sloping surface make excess water flow back into the bowl. Our sink with drainboard is reversible, so you can choose if you want the drainboard to the left or to the right.

Kitchen faucets

Saving water at every step

Earth may be covered in a lot of water, but very little of it is drinkable and even less is accessible. No organism can survive without it, and no new water is created. It's constantly recycled, but our freshwater supply is overused; not evenly distributed; and impacted by pollution, contamination and climate change. That's why we equip all our kitchen faucets with a water saving aerator that reduces water use up to 40% — while maintaining the same pressure. We didn't invent aerators, but think they are an important example of how we can work together to save water for everyone's benefit.

PLUMBING

Let a professional connect the water to the sink and kitchen faucet you've bought from us. Then you know that everything from the strainer to pipe are where they should be — and that costly water leaks can be prevented. Read more about our services on **pages 4-5**.

10

All our kitchen faucets are tested and third party certified to meet, or exceed, the demands of the relevant national and international mechanical, quality, safety and hygienic standards. All IKEA kitchen faucets come with a free 10-year warranty. Find out more on **page 132**.

Functions

Kitchen faucets with low spout
Kitchen faucets with low spouts always have the handle on top, and are ideal for small single bowl sinks.

YTTRAN kitchen faucet*

Kitchen faucets with high spout
The high spout makes it easier to wash dishes, including large pots.

INSJÖN kitchen faucet*

Kitchen faucets with pull-out spout
Rinsing dishes is easier with the pull-out spout. A counterweight makes the hose easily retract back into the kitchen faucet.

ÄLMAREN kitchen faucet with pull-out spout*

Kitchen faucet with sensor
The kitchen faucet's sensor function is simple, hygienic and practical — perfect when you just want to fill a glass with water or rinse off your hands when cooking.

ENHET kitchen system

Plan less, live more

ENHET is easy to buy and equally easy to update if you need to, or simply feel like it. You can choose between ready-made combinations online and buy your favourite with a few clicks. All parts are easy to assemble, intuitively and without any special tools.

The playful design in different colours inspires you to adapt ENHET to reflect your personality. With a combination of open frames and closed cabinets you can display your favourite things and hide the rest. The ENHET kitchen units also come in different widths and depths, making them easy to adapt to a smaller space.

Helping you keep your kitchen utensils neatly organised and close at hand, the ENHET accessories include a hook rail that can be moved around without having to drill into the wall, a swivel shelf for smaller items and a hanging shelf insert that you simply hang in the grooves of an open frame to maximise storage space – no tools needed.

10

The ENHET kitchen has a 10-year warranty. Find out more on page 132

ENHET complete kitchens

Pick, click, buy and assemble – you are just a few steps away from cooking and hanging out in your kitchen. It's time to get into details and find a solution that offers the size, storage possibilities, colour(s) and accessories that you prefer. In the following you can find the information about the different

combinations that you need to make your final decision. After having selected your favourite solution, you can style it to suit you even more by customizing features such as fronts, countertop, knobs/handles and add the appliances needed in the kitchen configurator online.

ENHET swivel shelf, 16×8". Tired of looking for those things that tend to disappear in the kitchen? You can easily solve this by attaching this handy swivel shelf to any of the wall frames in the ENHET series. You can find and reach the things you need by turning the shelf. Perfect to have as a spice rack to keep all the flavours close at hand when you are cooking.

Anthracite	205.145.60
------------	------------

ENHET hook, 2-p. You can hang these hooks in the grooves under the ENHET frames – or on ENHET rail for hooks that is sold separately. With these hooks, you turn unused space into practical storage space. Perfect for everything from utensils and towels in the kitchen. Hang SKATTÅN containers on the hooks to make room for even more, sold separately.

KNOXHULT KITCHEN

When basic functions and low price matters

To make it easy for you, we've already combined ready cabinets with doors, countertops, shelves and drawers. All you have to do is to pick the finishing touches, like knobs, handles and appliances. If you bring it home from your local IKEA store in the morning, you can have it installed and ready for cooking a late dinner in the evening. On the next pages you'll see what choices you have.

KNOXHULT is functional and easy to plan. Pick the combinations you like, then choose appliances, sinks, faucet knobs and handles. Done!

Base cabinets

KNOXHULT base cabinet with doors and drawer.
You can install a sink and also adjust the space in the cabinet to your need with 2 adjustable shelves. The frame and fronts are coated with foil which gives a scratch-resistant surface that is easy to keep clean. You can easily mount the door front in the right position, because the hinges are adjustable in height, depth and width. Stands steady on uneven floors because it has small adjustable feet. The countertop is ¾" wider than the cabinet. 72x24x36"

Kitchen accessories, carts and islands

A kitchen easy to live in

Your kitchen isn't fully in function until everything in it has found a place of its own. With smart organizers and accessories, you'll find what you need, when you need it.

Utilize the full area in the kitchen, even the walls. With smart wall storage often used items can be close at hand, at the same time you free up workspace.

Your best kitchen friends

Our carts and islands boost your storage space and kitchen functionality while adding a social focal point in your kitchen at the same time.

The sink area is a busy place. We have accessories with multiple purposes that can help you utilize the area in and around the sink, supporting the workflow both when preparing food and washing up.

Rails and accessories

Our selection of kitchen helpers gives you more work and storage space without the expense of a remodel.

Terms and conditions for all custom countertop materials

PERSONLIG/KASKER

custom countertop overview

- 1. Preparation:**
- 1.1.** All base cabinets/panels must be completely and properly installed (level and flush to the wall) and all old countertops removed before a template can be done.
 - 1.2.** Any sink, faucet, cook top, slide in stove, etc. that requires a hole to be cut must be on site at time of templating.
 - 1.3.** Fabricators do not install brackets or supports for overhangs, etc.
 - 1.4.** All plumbing and stove connections must be disconnected and removed prior to installation date.
 - 1.5.** Customer must ensure there is sufficient space through doors or openings that the countertop can fit through.
 - 1.6.** HAVSEN sink installation, a cooktop/built in oven combination or slide in stove situation requires 3 cm thick surface.

2. Other considerations:

- 2.1.** Material will be reserved after template.
- 2.2.** By purchasing a countertop with IKEA Canada, you will be asked for your name and information about how you wish to be contacted, such as email address, mobile phone number and home address. Sales transaction data is collected through the Estimator program, and aggregated for the purpose of purchase behavior patterns and product interest, and will never be shared and/or sold to any third party vendors.
- 2.3.** Warranty is void for builders, commercial or rental countertop installation.

3. Cancellation:

- 3.1.** Orders can be cancelled within 45 days as long as templating has not taken place.
- 3.2.** Orders cancelled after 45 days and before templating will be subject to a 10% handling fee.
- 3.3.** Orders cancelled after templating but prior to production will be subject to \$200 charge plus a 20% handling fee.
- 3.4.** No Cancellations after production and or installation.

KASKER

quartz countertops

1. Making an appointment:

- 1.1.** An appointment will be made with the customer to validate the layout and measurements as described by the customer in store. A custom countertop fabricator will contact the customer within 3 business days of the purchase and receipt of order to schedule template appointment.
- 1.2.** Appointments will be scheduled within a 3-hour window of arrival due to potential traffic delays. Actual template appointment duration time will vary.
- 1.3.** An appointment to the customer’s home is only offered for quartz countertops.
- 1.4.** A minimum of 24 hours’ notice is required if a scheduled appointment must be cancelled/changed in order to avoid a missed appointment fee.

2. At time of template appointment:

- 2.1.** A homeowner or designated representative 18 years of age or older must be present during the entire template and installation process. This person must approve all measurements. Custom countertop fabricator will not proceed without a person of authority present. The appointment will be rescheduled and an additional trip charge may apply.
- 2.2.** Seam locations will be discussed at time of templating. Fabricator will make best effort to meet the desired plan

for seams; however, it may change at time of fabrication. For example, fabricator may need to add or change the seam depending on the direction of grain in material. No seams will result in price adjustment. Fabricator reserves the right to place seams in the most structurally sound locations.

- 2.3.** Any deviations from the original project specifications and measurements, provided by the customer in store, may result in a price adjustment.
- 2.3.1.** The fabricator will explain changes to customer. A price adjustment form will be completed and sent back to customer via email if the customer has access to print or a hard copy will be mailed if they do not have access to a printer. A hard copy of the form will need to be presented in store.
- 2.3.2.** The customer must return to the IKEA store where the original purchase was made with the completed ‘IKEA Solid Surfaces Custom Countertop Price Adjustment’ form and the original receipt in order to process the transaction.
- 2.3.3.** Upcharges: Fabricator will not proceed with work until so notified by IKEA. Price adjustments will result in the rescheduling of installation date from the time the fabricator receives approval from IKEA to proceed.
- 2.3.4.** Refunds: Fabricator will proceed with work and book installation within 7 business days from time of template.
Note: Minimum 12 Linear Feet applies to all materials
- 2.4.** Full height backsplash (those that run the entire space between the countertop surface and the bottom of the wall cabinets) may require to be measured after the countertop installation to ensure accuracy. The custom countertop fabricator shall determine this at the time of initial template.
- 2.5.** After template completion, all project details will be considered final and CANNOT be changed.
- 2.6.** Parking must be provided by customer on template and installation day.

Quartz residential lifetime warranty

- 1.** The thickness of Caesarstone quartz slabs are 2 cm or 3 cm with an allowable variance of +/- 1.5mm.
- 2.** Colour may vary slightly from in-store samples.
- 3.** Quartz is not perfectly smooth, minor pitting is common and does not affect the performance or constitute a material defect.
- 4.** Clean with soap and water on a regular basis. For tougher dirt, use warm water with a non-abrasive sponge and a cleaner that does not contain bleach.
- 5.** Trivets and hot pads must be used when placing hot skillets, pans, crock-pots or other heat generating kitchenware on the surface.
- 6.** Using cutting boards and taking care not to drop or move heavy objects on the surface will help to ensure long-lasting beauty.
- 7.** Original proof of purchase receipt is required.
- 8.** Warranty against any manufacturing performed by the supplier, as well as the correct installation of the product.
- 9.** The warranty does not protect against natural causes (ie: fire, flood, tornado, etc.).
- 10.** Does not cover wear and tear such as stains, scratches, water spots and burns.
- 11.** Does not cover failure to comply with care instructions.
- 12.** Does not cover chips or damage from abuse or excessive impact.
- 13.** Does not cover any products moved from their original place of installation.
- 14.** Does not cover repair to electrical, tile or wall surfaces and plumbing modifications possibly required to install the custom countertop.
- 15.** Does not cover damages from alterations performed after initial installation.
- 16.** The warranty is effective only if the owner of the countertop is the occupant of an indoor single-family residence.

PERSONLIG

custom laminate

1. Information:

- 1.1.** Minimum order 4LF.
- 1.2.** Counter thickness is 11/16" without buildup while the front roll is 1¾".
- 1.3.** When the customer chooses "hold for finals", final measurements must be provided to fabricator upon completion of the cabinet installation.
- 1.4.** Unless installation is purchased, sink and faucet cutouts are customers responsibility.
- 1.5.** Mitres may be assembled on site.
- 1.6.** Do not place hot pots and pans directly on their surface. Instead, use hotplates, hot pads or even heavy towels to protect the surface.
- 1.7.** Make sure to not cut directly on the surface of laminate counters.
- 1.8.** Be careful with water. Too much water flooded onto a laminate countertop can cause problems with the seams. Water penetration is not covered under warranty.
- 1.9.** Avoid using harsh chemicals.
- 1.10.** Use mild household cleaner. Avoid using harsh abrasive cleansers. Don't use abrasive sponges or steel wool on laminate.

Warranty-1 year

- 1.** Original receipt is required.
- 2.** Guaranteed against any manufacturing performed by the supplier, as well as the correct installation of the product.
- 3.** Warranty applies when product is in a residential setting and under normal use.
- 4.** The warranty does not protect against natural causes (ie: fire, flood, tornado, etc.)
- 5.** Does not cover wear and tear such as stains, scratches, water spots and burns.
- 6.** Does not cover failure to comply with care instructions.
- 7.** Does not cover any products moved from their original place of installation.
- 8.** Does not cover repair to electrical, tile or wall surfaces and plumbing modifications possibly required to install the custom countertop.
