Sofa for everyone

It would be pretty strange if everyone wanted the same sofa, wouldn't it? That's exactly why SÖDERHAMN seating series is based on durable and comfortable modules that you can combine any way you like. Are you looking for a big sofa or a small one? Do you want a cozy corner to curl up in? With SÖDERHAMN, you're free to create the combination that suits you—the possibilities are endless.

Comfortable in a new way

With SÖDERHAMN, we wanted to use materials efficiently and make a really comfortable sofa that also has a light, airy design. That's why we did things a little differently than usual and put elastic webbing in the bottom of the sofa. It works together with the seat cushions to give a soft springy feeling. We also added a generous seat depth and loose back cushions, so you can always arrange your sofa the way that is comfortable for you.

Good to know

Our fabrics have been tested

At IKEA, we test the fabric covers on our sofas and armchairs so you can be sure they're durable. The fabric's ability to resist abrasion is tested by using a machine to rub it against another fabric while applying firm pressure. A fabric that can take 15,000 cycles is suitable for furniture that must withstand everyday life at home—and if it can take more than 30,000 cycles, it is very resistant to abrasion. All fabrics are sensitive to sunlight, which is why we also check that our fabrics resist fading effectively.

Durable in different ways

Tough tests are an important way to check the durability of our fabric covers, but they don't tell the whole story. Durability also depends on materials, construction and manner of use. Heavy, tightly woven fabrics with a flat surface are most resistant to abrasion. Fabrics with a mixture of natural and synthetic fibres can withstand abrasion better than fabrics with only natural fibers. Yarn-dyed fabrics are more durable than fabrics with printed patterns. And a dirty cover wears out faster than a clean one. The fabric is also affected by how you use your sofa of course.

	Washing instructions	Resistance to abrasion (cycles)	Light fastness (0-6)
Samsta cover: hardwearing micro fibre fabric with a sanded look and a soft feel.	Machine washable at 30°C.	40.000	5
Finnsta cover: heavy cotton- and polyester mix with a nice texture. Yarn-dyed with a slight two-tone effect.	Machine washable at 40°C.	25.000	5
Viarp cover: it is made of cotton and polyester and has a rich texture in a lovely beige/brown colour. 76% cotton and 24 polyester	Machine washable at 40°C.	30.000	5
