Good to know

Note! ENHET doors and fronts are sold separately. You can either plan your own combination or choose one of the pre-designed ENHET bathrooms. To see all the ENHET bathrooms go to page 8 with combinations.

Safety

Furniture must be fixed to the wall with the enclosed wall fastener. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately. Secure that the walls in your bathroom can support the weight of the furniture, and if not, then use legs.

10

The ENHET bathroom series has a 10-year limited warranty. Read more in the warranty brochure.

Plan less, live more

The ENHET system is easy to buy and equally easy to install. You can choose between ready-made combinations online and select your favourite with a few clicks. All parts are easy to assemble without the need for special tools.

The playful design of ENHET comes with different colours that inspire you to adapt ENHET to reflect your personality. With a combination of closed cabinets and open shelves, with stable metal frames, you can display your favourite things and hide the rest. The ENHET bathroom vanities also come in different widths and depths, making them easy to adapt to smaller spaces.

This is a reference guide created to better assist customers when purchasing products. How to plan

What do you want to store?

Start by thinking of what storage needs you have in your bathroom. Think of the activities that happen in this space such as showering, grooming, relaxing and perhaps doing your laundry. How many people use the bathroom and when is the rush hour usually. Based on these activities, you can plan how much storage you will need as well as decide if a drawer or a door solution will be best suited for your needs. Also, think of the wall space you have in your bathroom as this will be perfect place for shelving units that take very little space but create lots of storage capacity for all the clean and care products that find home in the bathroom.

How much space do you have?

Decide on where you will place your vanity unit and start building your new bathroom around this space. See if you have enough wall space for an additional storage unit like a high cabinet or a shelving unit. Sketch out the space, measuring the width and the height from the floor, if you have a narrow bathroom then the depth of your furniture will make a difference. For narrow bathrooms you can consider shallow ENHET cabinets. Take detailed measurements, note the shower area and all the space you might need for the piping that could affect your solution.

Want a ready-made combination?

We have made it much easier to buy ENHET bathrooms either on [IKEA.com](https://www.ikea.com) or the store. We have created ready-made combinations that you can choose once you have considered what type of storage you need. These combinations are varied and have been designed to cover a wide storage functionality as well as style needs. Just browse the combinations in this buying guide on, page 8. You can buy them in the store or on www.ikea.ca.

Do you want to create your own solution? Use the additional information provided in this buying guide to follow these simple steps:

1. Pick a base cabinet

The ENHET system comes in open and closed frame solutions. The open base frames can work both under the sink as a vanity and as an additional shelving unit next to the vanity. You can also choose between different wall shelves to build additional storage space around your vanity, maximizing the storage possibilities.

The closed wooden-base material cabinets come with two functions: either with a shelf, or two drawers. So depending on your preferences, you can choose the functionality that works best in your bathroom. The uniqueness of these cabinets is that they work perfectly to be combined with the open frames of ENHET bathroom system so you can mix and match creating a unique solution that will be truly yours.

2. Choose the accessories

There are a wide range of accessories designed to be combined with ENHET open frames to add more functionality and versatility to your ENHET solution. Hooks and hook railing can create space for many towels to hang and dry at the same time. Or SKATTÅN container could become a perfect home for all your makeup brushes. With TAVELÅN trays you can store all your small items like hair pins, and jewelry. The swivel shelf can become your favorite place to keep your nail polish bottles and the shaving kit for a quick and easy access. For all the functions of ENHET accessories check page 18.

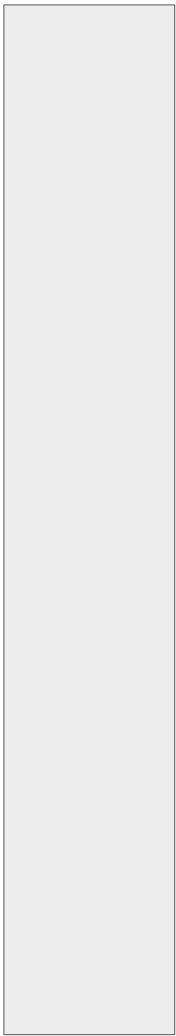

3. Choose the expression

Finally choose the colour/expression of your fronts. There are many possibilities for you to choose and pick what best fits your style and bathroom.

Complete your combination with lighting

How to build

SILVERGLANS LED cabinet lighting is easy to install by yourself.

- When you start building your system, you must first consider the widths of your cabinets. E.g. for a cabinet with a width of 24" (60.9 cm), you'll need the SILVERGLANS lighting strip 24" (60.9 cm) too.
- Choose the number of SILVERGLANS lighting strips that you need.
- Add the SILVERGLANS LED driver. You can connect up to 5 units to the driver, as long as the total wattage does not exceed 30W.
- SILVERGLANS driver needs to be connected to your wired-in electrical installation. In some countries electrical installation work may only be carried out by an authorized electrical contractor. Contact your local electricity authority for advice.
- Add the RODRET wireless dimmer to dim your lighting. Pair the dimmer to the SILVERGLANS driver and the entire combination will dim at the same time.
- Add the TRÅDFRI gateway to control SILVERGLANS connected lighting from the IKEA Home smart app in different ways together with other IKEA smart lighting in your home.
- If you chose our ready-made ENHET bathroom solutions just add the SILVERGLANS/RODRET Lighting kits fits to this combination from page 21.

ENHET fronts for closed cabinet

ENHET white.

With white doors and drawer fronts you create a clean, bright and fresh expression that you can match with accents in all colours of the rainbow. Easy to enjoy and always in style.

ENHET oak effect.

Good taste and design in beautiful partnership. The foil surface is easy to keep clean and resists moisture, scratches and bumps, while the wood pattern creates a lively and warm expression.

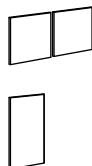

ENHET mirror.

This is a great choice for all ENHET wall cabinets to become the perfect mirror cabinet above the sink to cover all the storage needs while making sure that you look great every morning.
