Diagram 3 illustrates the third step of the assembly process. It shows the two vertical posts from the previous step. Two long, narrow side rails are being attached to the posts. Arrows indicate the direction of movement for the rails. A callout box provides a close-up view of a small metal bracket or clip that is used to secure the rail to the post.

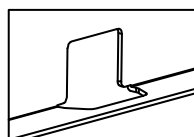

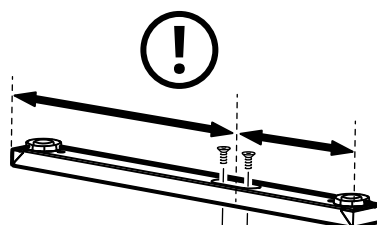

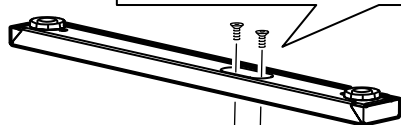

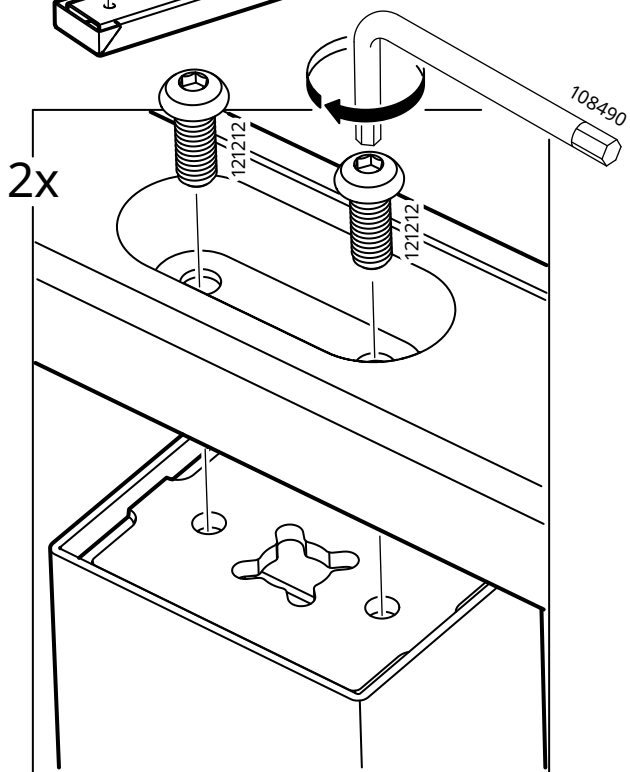

4

Diagram 4 illustrates the mounting of the side rail. The main assembly shows the side rail being attached to the vertical post. A callout shows the correct screw (115461) and the incorrect screw (101083). A circular inset shows the assembly of the side rail with 8 screws (8x) and a washer (115461) using a hex key (130445).
