**English****IMPORTANT!**

Always shut off power to the circuit before starting installation work. In some countries electrical installation work may only be carried out by a authorised electrical contractor. Contact your local electricity authority for advice. Different materials require different types of fittings. Always choose screws and plugs that are specially suited to the material.

**English**

Minimum safe distance to illuminated object: 0.1 metre. The lamp can cause fire if the minimum distance is not kept.

Français**ATTENTION !**

Toujours couper l'alimentation au panneau principal avant de procéder à l'installation. Dans certains pays, l'installation doit être effectuée par un électricien qualifié. Pour en savoir plus, contacter les autorités locales compétentes en la matière. Le choix des vis dépend du matériau dans lequel elles doivent être fixées. Utiliser des vis adaptées au matériau du support.

**Français**

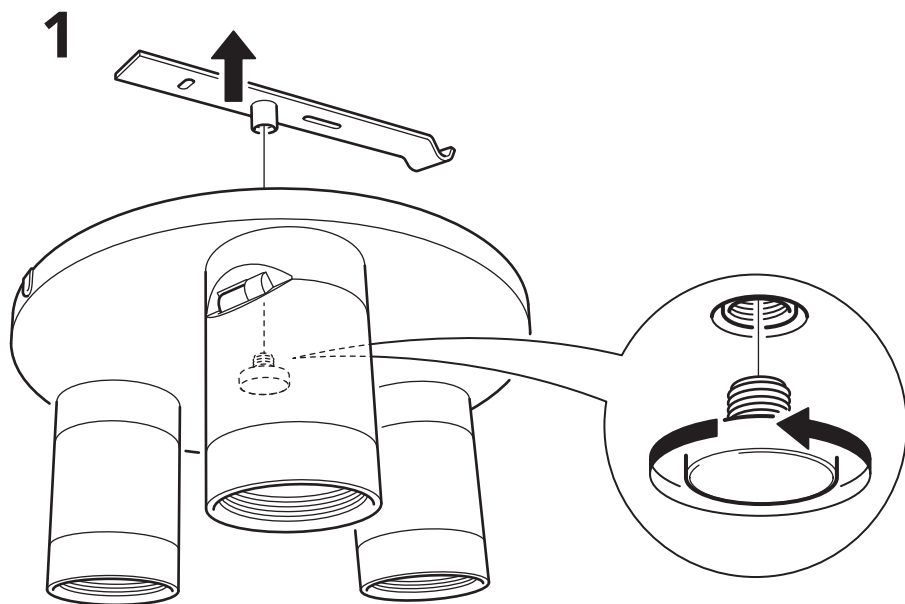

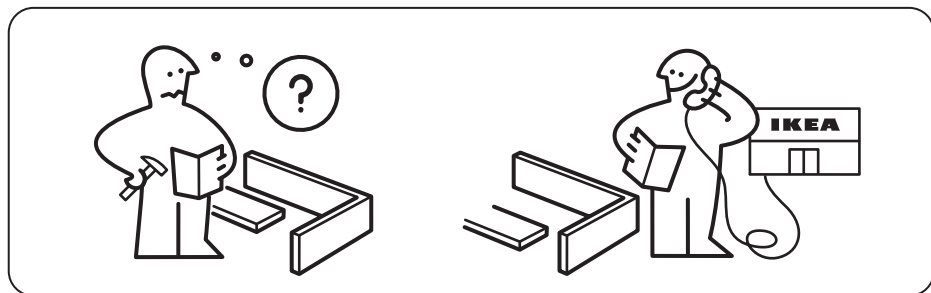

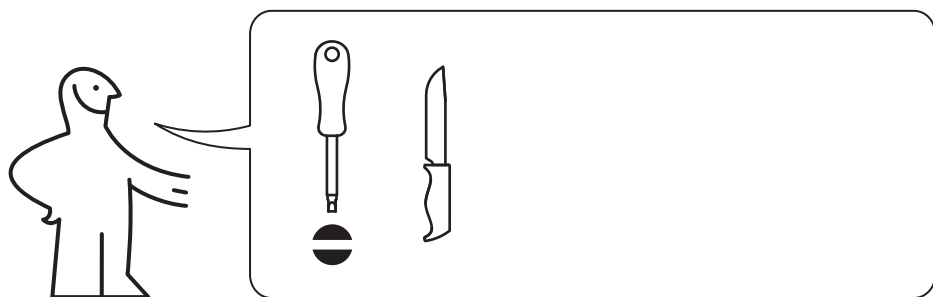

Pour éviter tout risque de combustion, respecter la distance de sécurité minimum par rapport à l'objet lumineux : 10 cm.

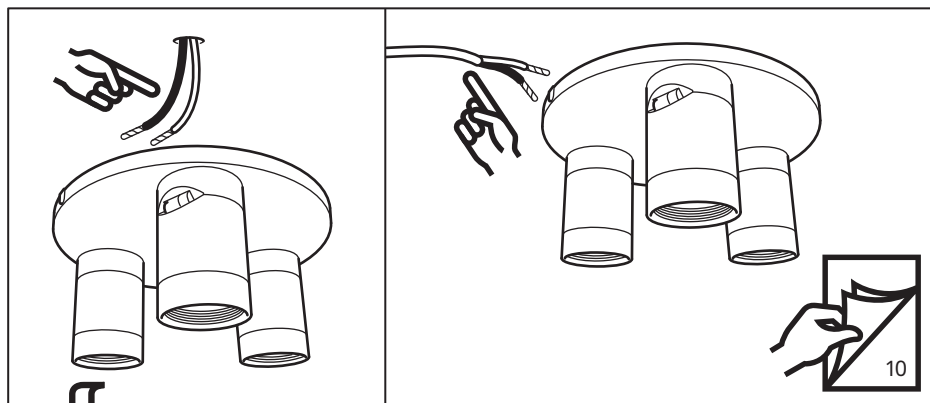

Español**¡IMPORTANTE!**

Desconecta siempre el interruptor general de electricidad antes de iniciar los trabajos de instalación. En algunos países los trabajos de instalación eléctricos sólo puede realizarlos un electricista profesional. Contacta con las autoridades locales para averiguar cuál es tu caso. Distintos materiales requieren distintos tipos de herrajes. Escoge siempre herrajes y tacos que sean especialmente adecuados al material.

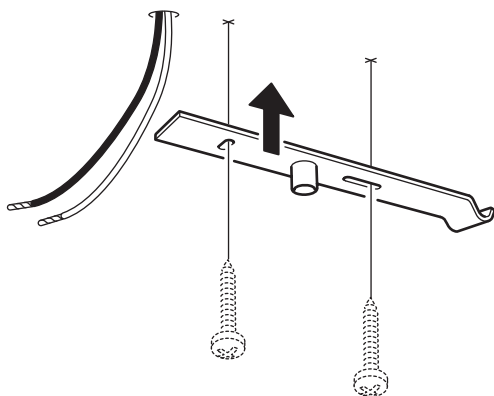

**Español**

Distancia mínima de seguridad al objeto iluminado: 0,1 metros. La lámpara puede provocar un incendio si no se respeta la distancia mínima.
