Español

¡IMPORTANTE!

Desconecta siempre el interruptor general de electricidad antes de iniciar los trabajos de instalación. En algunos países los trabajos de instalación eléctricos sólo puede realizarlos un electricista profesional. Contacta con las autoridades locales para averiguar cuál es tu caso. Distintos materiales requieren distintos tipos de herrajes. Escoge siempre herrajes y tacos que sean especialmente adecuados al material.

Español

Si se daña el cable exterior flexible de esta lámpara, para evitar riesgos deberá ser sustituido exclusivamente por el fabricante, su representante o un electricista cualificado. Si no estás seguro, ponte en contacto con IKEA.

Català

IMPORTANT!

Desconnecta sempre l'interruptor general d'electricitat abans de començar la instal·lació. En alguns països les tasques elèctriques només les pot fer un electricista professional. Contacta amb les autoritats locals per saber quin és el teu cas. Cada material requereix un tipus de ferrament. Tria les més adequades per a les parets de casa teva.

Català

Si el cable exterior flexible del llum es fa malbé, per evitar riscos l'ha de substituir exclusivament el fabricant o un especialista qualificat. Si no estàs segur, posa't en contacte amb IKEA.

Euskara

ADII!

Instalazioarekin hasi baino lehen, eten elektrizitatea panel elektriko nagusian. Zenbait herrialdetan instalazio elektriko argiketari aditu batek soilik egin dezake. Jar zaitzez harremanetan tokiko agintariekin, zure kasuan nola egin behar den jakiteko. Nolakoak materialak, halakoak erabili beharreko burdinkiak. Aukeratu beti burdinki eta tako egokiak, erabiliko den materialaren arabera.

Euskara

Lanpararen kanpoko kable malgua hondatzen bada, arriskurik egon ez dadin, fabrikatzaileak, haren ordezkariaren batek edo argiketari kualifikatu batek ordezkatu beharko du. Ziur ez bazaude, jar zaitzez harremanetan IKEA-rekin.
