ATENCIÓN

Hay un riesgo de daños graves en caso de caída del mueble. Para evitar que vuelque, es necesario fijar el mueble de forma permanente con ayuda de las fijaciones que se incluyen en el paquete.

Si se prevé fijar el mueble al muro, se necesita un riel de suspensión adaptado (se vende aparte en IKEA). Comprobar que el material de la pared pueda resistir el peso del mueble. Los tornillos y fijaciones dependen del material de la pared, por eso no se incluyen. El montaje debe realizarlo una persona cualificada. Un montaje defectuoso puede provocar la caída del mueble y herir a alguien. En caso de duda, consultar a un vendedor especializado.
