¡IMPORTANTE!

Desconecta siempre el interruptor general de electricidad antes de empezar la instalación.

En algunos países el trabajo de instalación sólo puede realizarlo un electricista profesional.

Contacta con las autoridades locales para pedir información.

INSTALACIÓN EN BAÑOS

La instalación debe realizarla un electricista profesional. La lámpara debe instalarse conectada de modo permanente al sistema eléctrico y en la zona correcta.

Distintos materiales requieren distintos tipos de herrajes. Elige siempre tornillos y tacos especialmente adecuados para el material.
