

ENGLISH

Before using for the first time

If your mattress pad is roll packed it will regain the shape, length and thickness after 3-4 days of use. All new materials have their own particular smell, which gradually disappears. Airing and vacuuming the mattress pad will help to eliminate the smell.

Care and cleaning

By complementing your mattress pad with a mattress protector you keep it more hygienic since it is easy to remove and clean. Read the tag inside the cover for washing instructions. Many mattress pads have a washable cover. Make sure that the zipper is closed before washing the cover. If the cover is not washable you can use upholstery cleaner to remove stains and vacuum or beat the mattress pad to remove dust and mites.
