Español

Nuestras sillas tienen ruedas de seguridad, lo que significa que se activa automáticamente un freno cuando nadie está sentado en ellas. Así no rodarán cuando te levantes, y siempre la encontrarás justo donde la dejaste.

Català

Les nostres cadires tenen rodets de seguretat que frenen automàticament quan no hi ha ningú assegut. Així, quan t'aixequis no es mourà i sempre te la trobaràs on l'hagis deixada.

Euskara

Gure aulkiek segurtasun-gurpilak dituzte, eta horrek esan nahi du freno bat automatikoki aktibatuko dela bertan inor jesarrita ez dagoenean. Horrela, ez dira mugituko altxatzen zarenean, eta utzi zenituen tokian bertan aurkituko duzu beti.

As nosas cadeiras teñen rodas de seguridade que frean automaticamente cando non hai ninguén sentado. Así que non se moverán do sitio cando te ergas e sempre a encontrarás onde a deixaches.
