Storage solutions

Thoughtful storage makes any space feel more open, organised and effortless to live in. From compact shelving to flexible modular systems, our solutions help everything find its place, creating a home that feels both functional and beautifully balanced.

Our in-store and online planning specialists can help, learn more at [IKEA.co.uk/services](https://www.ikea.co.uk/services)

“When designing TONSTAD, we wanted to create a storage series with balanced proportions and a classic, timeless character. The pieces of furniture have generous sizes, great functions – and can be used individually or in larger combinations. We’ve worked with veneer and solid wood that have a tactile feel and develop a nice patina over time. We hope that many people will create their own personal storage solutions – and experience the quality of both the materials and design.”
