# Workspaces

Creating a workplace that puts comfort and well-being first is key for a thriving, productive environment. When we feel good, we're more focused, creative and energised to perform our best, whether working solo, or collaborating with the team.

Acoustic screens for desks help create a sense of privacy around your desk and effectively reduce the buzz from the surrounding environment.

MITZON acoustic screen for desk, Gunnared beige.

KYLLBO swivel chair, Tonerud dark beige.

The more you sit, the better your office chair needs to be. Our range features a variety of options, ranging from basic height adjustment to multiple adjustable features designed to support movement and comfort.

MITZON focus workstation, Beige/white.

In today's busy workplace, flexibility is essential. Our range of adaptable office solutions makes it easy to shift between open collaboration and those much-needed moments of privacy or focus.

# Office chairs

Our office chairs are designed to support and transform the way you work. With ergonomic options, adjustable comfort and performance-led designs, we make it easy to work better, feel better and stay comfortable all day long.

"I wanted to design an office system for people starting up their companies and help them with the right functions so they can grow and adapt as their businesses evolve. All parts work both on their own and together as modules. The double-sided freestanding cabinet is accessible from two directions, perfect as a room divider and with generous storage on both sides. Adding TROTTEEN notice board makes the room ideal for creative workshops and collaborating on projects."

“When designing MITZON acoustic screens, I wanted to soften the hard and often cold feel of office furniture and looked to organic shapes found in nature for inspiration. The flowy pattern on the quilted screens remind of the sand ripples formed by waves on the beach. The screens are filled with 2 layers of wood wool and covered with a thick fabric to ensure good sound absorbency. I hope they help to create some well-needed privacy and a sense of calm in the open workspace.”

ELLOVEN monitor stand with drawer, White.

Placing a monitor at the right height relieves strain on your back and shoulders. This monitor stand takes up little space on your desk and provides practical storage to help keep your workspace tidy.

If you often stand at a desk while working, then this mat can come to the rescue. It is filled with foam that relieves pressure on the feet, knees and back. Washable cover with anti-slip material on the underside.

FREIVID stand mat, Diseröd grey-green.

Adjust the platform with your foot to enjoy a comfortable angle that allows you to sit relaxed at the desk. The rubber on the underside protects the floor and keeps the footrest in place. Matched with laptop support, it can also help to improve posture.

# Lounge furniture

In a vibrant lounge, ideas spark and connections flourish. Our range includes lounge-ready furniture, crafted from durable materials to withstand the demands of high-traffic, multi-use spaces.

“Lounge areas don’t need to be dull, they can be places that spark calm, connection and creativity. In this space, a cool base tone creates a soothing backdrop, while the soft natural forms bring an easy, relaxed flow. Pops of complementary colour and layered textures add just the right amount of depth and personality, turning a simple lounge into a welcoming spot to recharge, meet or think differently.”

# Breakout areas

Eat, drink, relax, repeat. The breakout area is the go-to space to recharge and socialise each working day. It should feel welcoming, with durable furniture and a cosy vibe, offering everyone the chance to unwind and enjoy moments together.

Whether you're a grab-and-go sandwich person or a leftovers lover, a flexible breakout setup makes it easy for everyone to enjoy their break their own way.

# Lighting

The right lighting transforms how you feel and work. From bright task lights that boost focus to mood lighting that help you unwind, our range can support wellbeing, reduce eye strain and create the perfect atmosphere for every moment.

Our LED light sources consume up to 85% less energy and lasts 20 times longer than incandescent bulbs.

NYMÅNE work lamp with wireless charging, White.

## Task lighting

Task lighting supports focused work by directing light exactly where it's needed. It helps reduce eye strain during long periods at a desk, especially when paired with softer, low-intensity light nearby to minimise contrast. Desk lamps, adjustable spotlights and focused pendants work well for this.
