YOUR NEW IKEA KITCHEN

from start to finish

This guide will help you through all the steps you need to take along the way, including everything from finding your style and measuring your IKEA kitchen to plan, order and install it.
At IKEA, you’ll find all the products you need to complete your dream kitchen. Whether your kitchen is large or small, we can offer you a wide range of well-designed and coordinated kitchen products that’ll support your every need, style and personality. Plus, we’ve designed our kitchens to be simple enough for you to put together by yourself.
We know that this is a complex project, with lots of choices and decisions to consider. To make your journey towards your new kitchen as convenient and stress free as possible, we have highly skilled kitchen experts available for you at the IKEA stores and Customer services. If you feel you need help with any of the steps described in this brochure, we can offer you a complete service package as well, **see page 15.**

We also know that kitchens cost money. If you’ve found the perfect IKEA kitchen, but need some help spreading the cost, we can offer you finance options to help make your dream a reality, **see page 15.**
Find your style
Take some time to dream a little. What does an ideal kitchen look like to you, and what should it include? We show you where to search for inspiration and ideas.

Measure
The measurements are important as they will be the base for your new kitchen. We show you how to do it.

Plan
Outline your kitchen and see what it will look like. We provide you with recommendations and tips.
Services
You can do everything yourself, but you don’t have to. Here you’ll find all our available services.

Order, get it home and install
There are several ways to order and you can either take it home yourself or let us transport it for you. You can install everything, parts or nothing yourself. We have several levels of installation services to offer you.

More information and guidance
To make the whole process of getting a new kitchen as fun and easy as possible, we have everything from inspiring brochures and a 3D-planner to a hands-on installation guide to help you along the way.
FIND YOUR STYLE

Find your style

Take some time to dream a little
This is when your dreams and ideas will start to take shape. Add your needs and what your ideal kitchen looks like and you’ll for sure find a perfect match at IKEA.

Consider if you’re more of a classic type who likes a kitchen with lots of visible drawers and details...

...or if you like a more modern approach with streamlined designs and drawers hidden behind larger fronts...

...Or, perhaps you’re somewhere in between and wants the best from both worlds?

Discover all the styles, functions and ideas that we can provide you with.

The IKEA store
At your local IKEA store, you can stroll around in several built-up kitchens in different sizes and styles. Open up doors and drawers to reveal what’s inside, check out the functions in our appliances and have a chat with our kitchen experts to get even more ideas. Book an appointment online at IKEA.co.uk/customer-services /

The IKEA website
On our website, you’ll find an abundance of stylish and functional ideas. In the kitchen gallery, we’ve prepared with kitchens in different styles and sizes. Plus, we’ve broken down each kitchen into its components to make it easier for you to mix, match and create the kitchen of your dreams.
See more at IKEA.co.uk

The kitchen brochure
The kitchen brochure is also a great source of ideas and inspiration. Here you can see some of the thousands of possible combinations you can create. Pick it up at your local IKEA store or flip through it digitally on our website.
Measure

Be thorough when measuring

To measure the room in which you will install your kitchen isn’t hard to do, but it’s important that you get it right. Your measurements will be the basis for all your planning.

Give yourself plenty of time to measure precisely. Make sure to make your measurements in millimetres to make sure your new kitchen correctly fits your space. Here’s how you do it.

A: Measuring your room

01 Start by measuring from the floor to the ceiling. Then the distance between walls and from the corners to the doors.

02 Measure each window and their distances from the floor, the ceiling and the corners of your room. Do the same for the door(s).

03 Mark down anything that sticks out into the room, such as radiators, ventilation shafts and pipes. Measure and mark down the position of existing power outlets and light switches. Mark down where you want new ones to be, too. Note the position of your drains and water supply. If you plan to relocate these, mark down their new positions.

Read more about our Measuring service and IKEA Home planner on pages 15 and 18
B: Measuring your worktop

It is important to get the measurements for your worktop right, especially if you plan to order a custom-made one.

01 Start by measuring your worktop from the corner where it will attach to the wall. Make sure to take the measurement alongside the wall and always start from the same point.

02 When measuring the depth, start from the wall and measure out. Don’t forget to add 15mm for an overhang, too.

03 If you need to measure for a freestanding worktop (a kitchen island, for example), simply start from one end and add 30mm extra for an overhang.

C: Custom worktop calculator

This calculator lets you design your kitchen worktop and get the price estimate immediately. Combine different worktop and kitchen sink materials, sizes and styles for our kitchen range, and create a worktop that’s perfect for you.
Plan your kitchen

Now it’s time to make your dreams and ideas take shape

There are a lot of things to consider and think about. Take your time to make sure you end up with the kitchen you wished for. On the following pages we’ve gathered recommendations and tips that’ll help you along the way. Think about how you normally use your kitchen and what feels comfortable for you. Look at your existing kitchen and make a list of the things you like and what you’d want to change.

A: Work flow

When planning your kitchen, keep the three work zones in mind:

Preparing/cooking
Washing up
Food storage

How you position your work zones and the distance between them is called a working triangle. A good working triangle helps you to move quickly and easily from task to task – and it simplifies if you’re more than one person in the kitchen doing different tasks at the same time.

01 A good natural flow between the fridge/freezer, the cooking zone and the washing up zone will make your everyday kitchen life a lot easier.
A: Planning

02 Single-line kitchens are perfect when space is limited. It’s not strictly speaking a triangle, but the three points are still connected.

03 Parallel kitchens are great if you have many people cooking at the same time. There’s lots of room for food preparations and storage, too.

04 L-shaped kitchens make the most of a corner. They’re ideal if you want to add a small dining table or kitchen island as well.

05 If you have space, adding an island to your kitchen gives you extra storage, lots of work space – plus, it’s a great social hub. Give yourself 1200mm between the island and other cabinets to move around freely.

06 If you have a large room, the U-shaped layout is great. It gives you maximum space and plenty of storage options.
Dos and don’ts
Here are some recommendations, tips and what to avoid in order to get the most of your kitchen.

C: Recommendations

01 The best place for preparing food is the work surface between the hob and the sink.

02 Make sure that the distance between opposite rows of cabinets is wide enough for doors on both sides to be opened at the same time.

03 Place the wall cabinets high enough not to block the view over the worktop.

04 Make space next to the hob for pot stands to put hot pans on.

05 For safety and functionality, mount the extractor hood/fan at the recommended height above the hob as shown in the assembly instructions.

06 Leave space for cover panels if you’ll have wall cabinets next to the extractor hood/fan.

07 Place a 50mm filler piece between base as well as wall cabinets and the wall to ensure space enough to open doors and drawers fully.

08 If the worktop protrudes over the cabinet more than 250mm, add an extra support.

09 Place the sink and hob in the same line to avoid having to move hot objects over the floor.

Read more about our Planning service on page 15
**D: Tips**

01 An elevated oven means you won’t have to bend down to reach it.

02 Locate the dishwasher close to the sink and draining board to make loading and unloading easier and to avoid spills on the floor.

03 Keep utensils, pots and pans close to the hob and sink for easy access when preparing and cooking. Keep cutlery in a drawer close to the dinner table.

04 Drawers offer great overview and easy access to the things you need. Add drawer mats to keep things from moving around in the drawers and to reduce noise when putting things in drawers.

05 Place your waste sorting bins in a drawer under, or close to, the sink for easy access.

06 The electrical push opener used with waste solution drawers, is great if you have your hands full and need to open a drawer with your knee or foot – and to avoid leaving stains on the fronts and handles with sticky fingers.

07 Optimise the space behind your fronts with inner drawers. The outside can stay sleek while the inside is filled to the brim with drawers.

08 Use drawer lighting to find what you’re looking for also when the kitchen isn’t fully lit.

09 Display your finest glasses on tempered glass shelves behind glass doors. Add cabinet lighting to enhance a cosy atmosphere as well as to make the room look bigger.

10 Use wall rails and accessories to make best use of wall space as well as to minimise clutter on the worktop. In addition, you’ll get the things you use often close at hand for efficient cooking.

11 If you have the space, add a trolley or a workbench for more storage possibilities and workspace.
**E: Keep in mind**

01 A sink by the window is nice when washing up. If your windows open inwards however, make sure they won’t be blocked by the tap.

02 Placing a sink next to a wall or at the end of a row of cabinets disrupts work flow by limiting available workspace.

03 An oven next to a wall disrupts work flow by limiting available workspace, and it’ll put the wall at risk from heat and cooking stains.

04 Positioning appliances like ovens, dishwasher or extractor hoods in corners might block cabinets and drawers from opening fully.

**F: Small space solutions**

When space is limited, you sometimes have to compromise to make it work.

01 Use a small sink that fits into a 600mm cabinet. Make sure to have at least 100mm between the sink and the edges of the worktop to make the construction sturdy.

02 To have a good preparation area try to squeeze in at least 400mm workspace between the hob and the sink.

03 Have at least 200mm space between the hob and the wall for safe cooking.

04 If your space is too narrow for 600mm deep cabinets, you can use 370mm deep cabinets instead.

05 Make use of the wall to maximise storage opportunities and free up space on the worktop.
Order, get it home and install

When you’re satisfied with your kitchen plan, it’s time to order it

However, we recommend that you drop by your local IKEA store to visit our kitchen experts before you do. They’ll help you with anything you feel uncertain about, and they’ll go through your plan to make sure everything fits. Afterwards you can make your order right there and then if you like.

You have four options for how to place an order for your kitchen:

01 In the kitchen department at your local IKEA store

02 By phone: contact Customer Services at www.IKEA.co.uk/customer-services

03 On our website: www.IKEA.co.uk/customer-services

04 Directly in the IKEA Home Planner

IKEA Kitchens are designed to be installed by you

Start by picking up the kitchen installation guide at your local IKEA store (or use the digital version on the IKEA website). It shows you how to do it yourself, step by step. In addition it’s important that you follow the assembly instructions that are included in all product packaging.

Installation guide

In this guide you’ll get an overview of in what order to install your IKEA kitchen, as well as tips and ideas on how to solve tricky challenges.

Read more about our installation services on page 17.

If you want help with some or the complete installation you can either hire a craftsman of your own choosing, or take advantage of our Kitchen installation services.
Services

You can do it yourself, but you don’t have to

Our broad service offer gives you the freedom to design your own price tag by choosing not only the products that suits your budget but also deciding how much you want to do yourself and how much you want us to do for you.

Below you’ll find all the services that we can offer, and how much each of them costs.

Finance

*If you’ve found the perfect kitchen for you, but need some help spreading the cost, we can offer you a range of finance options to help make your dream a reality.*

Dream big

Sometimes your big dreams might need a little extra credit. If you need some help spreading the cost, just ask a co-worker about our finance options when you’re in store, or visit IKEA.co.uk/services for more details.

Measuring

Want to be sure that the plans for your kitchen are as accurate as possible? We’ll check for you: from placement of windows and doors, to power sockets and radiators for just £20

For more information, just ask a co-worker in store.

KITCHEN PLANNING

Our team of kitchen specialists can help plan your new kitchen using our online planning tools for free in store. Just go to IKEA.co.uk to see a list of available appointments.

Can’t make it in store? Just arrange a Skype, email or telephone planning session with one of our kitchen specialists for £20. And if you need a little more time, we can arrange an at home 2-hour session with one of our specialists for just £40
YOU CAN DO IT YOURSELF,
BUT YOU DON’T HAVE TO

DELIVERY
We’ll deliver to the room of your choice, on a day that suits you best. Prices £25 or £35 dependent on your postcode. Ask in store for details.

PICKING WITH DELIVERY
With our picking with delivery service, all you have to do is place an order of what you want to purchase. We’ll handle the rest. Prices £35 or £45 dependent on your postcode. Ask in store for details.

Just ask in store for details, or go to Hertz247.com/IKEA-UK
(*Service not available from IKEA Belfast.)
‘T YOURSELF, ‘T HAVE TO

Kitchen installation

INSTALLATION
Our comprehensive installation service saves you time, especially on trickier jobs. Thanks to the free 5-year workmanship guarantee, you can be confident that everything will meet the highest standards. To get a pricing breakdown and quote, just ask a kitchens co-worker in store.

What are the main benefits of the IKEA Kitchen Installation Service?
- A free Pre Installation Visit (PIV) to check your plan will fit in the space provided.
- A dedicated instore team for the duration of your installation and workmanship guarantee period.
- A free five year workmanship guarantee
- An installation team experienced in the fitting of IKEA kitchens.

When do I pay for the Kitchen and Installation?
Following your Pre Installation Visit (PIV) you will receive an updated kitchen and installation quotation detailing the particulars agreed with the Installation Service Provider. IKEA will then contact you to discuss payment options.

When will I receive an installation date?
Once payment has been made the Instore Services Team will liaise with the Installation Service Provider and subsequently make the necessary arrangements with yourself.

Will my delivery and installation be done on the same day?
IKEA will deliver your complete kitchen. Following delivery installation will normally take place within 7 days, all goods must be on site before the installation can commence. When supplementary works are required this schedule will vary.

Supplementary Works
IKEA refer to the installation of kitchen products as the ‘dry fit’. In addition to this you may require a certain amount of supplementary work to enable the kitchen to be installed. This may include updating electrical works or gas works in accordance with current Legislation. The Installation Service Provider will discuss this with you at the Pre Installation Visit. Please take a look at our guide prices for supplementary works and confirm with the Installation Service Provider.

Payment of supplementary works
Any supplementary works agreed between you and your Installation Service Provider will form a separate contract between you and them. Supplementary work is not included in the dry fit installation estimate provided by IKEA. Supplementary work costs are unable to be included in any Interest Free Credit agreement with IKEA. Payments for these supplementary works are to be paid directly to the Installation Service Provider.

Example Installation Prices:
- Cabinet, each £70
- Worktops, Sink/Tap/Trap £400
- Appliance £60
- Electrical Test Certificate £100
- Removal of Existing Kitchen, from £125

Full description of the price breakdowns and other installation pricing, will be given at the quotation stage in store.
MORE INFORMATION AND GUIDANCE

Checklist

Keep in mind
Before visiting our kitchen experts at the IKEA store, please have the following in mind to make your planning as easy and efficient as possible:

You’ll need to bring:
- Your kitchen measurements
- Your IKEA Home Planner log in details

It’s good if you’ve considered:
- Cabinets, drawers and fronts
- Doors and handles
- Worktops
- Sinks
- Taps
- Oven
- Microwave oven
- Hob
- Hood - what kind of ventilation do you have?
- Fridge/freezer
- Dishwasher
- Lighting – work and ambient light

Think about services, too:
- Measure
- In store, home and remote planning by appointment
- Finance
- Picking
- Picking and delivery
- Delivery
- Installation

Remember, it’s okay to change your mind.
For complete piece of mind, if you get your kitchen home and you have a change of heart, you’ve got 365 days to return it. Just keep your receipt safe to make returns easier. For more information, please see our Return policy on IKEA.co.uk/customer-service
